Beyond Capitalism Giulio Sapelli,2019-10-29 This book offers a new perspective on the financialisation of the economy and its profound technological transformation in an increasingly interdependent and globalised world A deterioration of capitalist property has led to the reactivation of pre capitalist social phenomena such as slavery Meanwhile secular deflation and international destruction of the social state have wrought havoc with all familiar modern welfare infrastructure Yet Sapelli argues there is still hope in the form of the gradual evolution of a community based socialism based on diverse forms of ownership co operative living

and working and sustainable capitalist property Sapelli presents a severe and dramatic look at the present world where there is still a light at the end of the tunnel

Jews and Christians on Time and Eternity Annette Aronowicz, 1998 This book grapples with a wide range of contemporary ethical and religious issues through the lens of the reflections of Charles P. Guy on his friend and mentor Bernard Lazare. Both P. Guy, a leading French Catholic poet and philosopher, and Bernard Lazare, an iconoclastic Jewish intellectual, were passionately involved in the Dreyfus Affair which forms the background of these reflections. The book is in four parts. The first sets P. Guy's portrait of Bernard Lazare in a series of contexts analyzing it against the background of the rampant antisemitism of its time, situating it in relation to present-day discussions about the Other and especially placing it within various twentieth-century attempts to rethink religion. P. Guy's great contribution in this area lies in redirecting our attention to the ways human beings respond to defeat and to the ways the intellect is oriented by something outside itself as keys to the discovery of the transcendent. His work reformulates the meaning of hope and incarnation. The second part of the book presents P. Guy's portrait of Bernard Lazare in a complete English translation. In the third part, the author shows the affinity of P. Guy's thought to that of two Jewish thinkers, Franz Rosenzweig and Emmanuel Levinas. All three, in rethinking the religious dimension, located it amidst the daily interactions between people. The final part explores the implications of this notion of transcendence for the task of interpretation in the social sciences and the humanities.

The Future of Hope Miroslav Volf, William Henry Katerberg, 2004 Over the last three decades, a major cultural shift has taken place in the attitudes of Western societies toward the future. Modernity's eclipse by postmodernity is characterized in large part by the loss of hope for a future substantially better than the present. Old optimism about human progress has given way to uncertainty and fear. In this book, scholars from various disciplines— theology, the social sciences, and the humanities— explore the move from a culture of optimism to a culture of ambiguity, and they seek to infuse today's jaded language of hope with a new vitality. *The Future of Hope* offers a powerful critique of today's stifling cultural climate and shows why the vision of hope central to Christian faith must be a basic component of any flourishing society. The first section of the book sets the context with telling cultural criticism of modernity. The second section focuses on affinities between premodern Christian visions of hope and twentieth-century thought. The final section of the book examines the relationship between postmodern thought, Christian tradition, and biblical hope, addressing how Christians in a postmodern world can best articulate their faith. Written by truly profound thinkers, these chapters are diverse in their content, methodologies, and temperament, yet they are united by a deep engagement with both the Christian tradition and the larger cultural and intellectual climate in which we live and work. *The Future of Hope* can thus be read not just as an attempt at retrieval of hope for today, but as itself one small act of hope in an age when people too seldom take time to think critically and hopefully.
