The Possibilities Of Society Wordsworth Coleridge And The Sociological Viewpoint Of English Romanticism:

The Possibilities of Society Regina Hewitt, 1997-06-30 Approaches English Romanticism through sociological theory arguing that Wordsworth and Coleridge tested hypotheses about social organization and action in their poetry Offers a timely reevaluation of the Romantic poets as socially engaged thinkers **Romanticism on the Road** T. Benis, 2000-03-02

Romanticism on the Road challenges critical orthodoxy by arguing that Wordsworth rejected the political dogmas of his age Refusing to ally with either radicals or conservatives after the French Revolution the poet seizes on vagrants to attack the binary thinking dominating public affairs and to question the value of the Georgian domestic ideal Drawing on current and historical discussions of homelessness the study offers a cultural history of vagrancy and explains why Wordsworth chose the homeless to bear his message **Tragic Coleridge** Chris Murray, 2016-02-24 To Samuel Taylor Coleridge tragedy was not

solely a literary mode but a philosophy to interpret the history that unfolded around him Tragic Coleridge explores the tragic vision of existence that Coleridge derived from Classical drama Shakespeare Milton and contemporary German thought Coleridge viewed the hardships of the Romantic period like the catastrophes of Greek tragedy as stages in a process of humanity's overall purification Offering new readings of canonical poems as well as neglected plays and critical works Chris Murray elaborates Coleridge's tragic vision in relation to a range of thinkers from Plato and Aristotle to George Steiner and Raymond Williams He draws comparisons with the works of Blake the Shelleys and Keats to explore the factors that shaped Coleridge's conception of tragedy including the origins of sacrifice developments in Classical scholarship theories of inspiration and the author's quest for civic status With cycles of catastrophe and catharsis everywhere in his works Coleridge depicted the world as a site of tragic purgation and wrote himself into it as an embattled sage qualified to mediate the vicissitudes of his age *Romantic Literary Families* S. Krawczyk, 2009-07-20 The late eighteenth century witnessed the

emergence of the literary family a collaborative kinship network of family and friends that by the end of the century displayed characteristics of a nascent corporation This book examines different models of collaboration within English literary families during the period 1760-1820 Beginning with the sibling model of Anna Barbauld and John Aikin and concluding with the intergenerational model presented by the Godwins and the Shelleys this study traces the conflict and cooperation that developed within and among literary families as they sought to leave their legacies on the English world of letters

Romanticism and the Human Sciences Maureen N. McLane, 2000-09-14 This study published in 2000 examines the dialogue between Romantic poetry and the human sciences of the period Maureen McLane reveals how Romantic writers participated in a new found consciousness of human beings as a species by analysing their work in relation to discourses on moral philosophy political economy and anthropology Writers such as Wordsworth Coleridge Mary Shelley and Percy Shelley explored the possibilities and limits of human being language and hope They engaged with the work of theorists of the human sciences Malthus Godwin and Burke among them The book offers original readings of canonical works including

Lyrical Ballads Frankenstein and Prometheus Unbound to show how the Romantics internalised and transformed ideas about the imagination perfectibility immortality and population which so energised contemporary moral and political debates McLane provides a defence of poetry in both Romantic and contemporary theoretical terms reformulating the predicament of Romanticism in general and poetry in particular

Politics of Romanticism Zoe Beenstock, 2016-04-13 The Politics of Romanticism examines the relationship between two major traditions which have not been considered in conjunction British Romanticism and social contract philosophy She argues that an emerging political vocabulary was translated into a literary vocabulary in social contract theory which shaped the literature of Romantic Britain as well as German Idealism the philosophical tradition through which Romanticism is more usually understood Beenstock locates the Romantic movement's coherence in contract theory's definitive dilemma the critical disruption of the individual and the social collective By looking at the intersection of the social contract Scottish Enlightenment philosophy and canonical works of Romanticism and its political culture her book provides an alternative to the model of retreat which has dominated accounts of Romanticism of the last century

Symbolic Interactions Regina Hewitt, 2006 Regina Hewitt enlists analogies between the symbolic interactions prompted by the selected writers and the concepts of symbolic interaction still evolving from the sociology of Jane Addams George Herbert Mead and others These practitioners recover a belief in the social efficacy of literature that was accepted during the predisciplinary Romantic Era but contested throughout much of the twentieth century Hewitt's revisionist readings advocate the renewal of literary interventionism in our post disciplinary age and demonstrate the active involvement of Baillie Scott and Landor in contemporary social and legal reform

Amorous Aesthetics Seth T. Reno,2019 Amorous Aesthetics traces the development of intellectual love from its first major expression in Baruch Spinoza s Ethics through its adoption and adaptation in eighteenth century moral and natural philosophy to its emergence as a Romantic tradition in the work of six major poets *The Majesty of the People* Georgina Green,2014-02-13 The Majesty of the People links emerging Romantic ideas about the role of the writer to the ambivalence of the concept of popular sovereignty By closely examining how theories about the role of the intellectual or the writer are developed as part of the 1790s contestation of the concept of the majesty of the people Georgina Green provides a coherent account of debates about popular sovereignty and contributes to understanding of authorship and the rise of culture in this period Part one the political existence of the people shows how the history of ideas about the political role of the people in the eighteenth century meant there was a role for writers and organisations who could challenge the invisibility of the people out of doors Part two the sovereignty of justice shows how this urge to give the people a tangible form was moderated by the tension between the sovereignty of will and the sovereignty of justice a tension foregrounded by Revolutionary France and addressed in the writing of Thomas Paine Helen Maria Williams and William Godwin Part three analyses how this potential tension between popular sovereignty and absolute values such as reason justice or divinity pressurizes Wordsworth and Coleridge s conception of their role as writers These enquiries demonstrate the impact of the idea of the Majesty of the People in the 1790s and in emerging conceptions of the role of culture in society
