The Post War History Of The British Working Class:

The Post-war History of the British Working Class George Allen Hutt,1937 *The British working class in postwar film* Philip Gillett,2019-01-04 An incidental pleasure of watching a film is what it tells us about the society in which it is made Using a sociological model The British working class in postwar film looks at how working class people were portrayed in British feature films in the decade after the Second World War Though some of the films examined are well known others have been forgotten and deserve reassessment Original statistical data is used to assess the popularity of the films with audiences With its interdisciplinary approach and the avoidance of jargon this book seeks to broaden the approach to film studies Students of media and cultural studies are introduced to the skills of other disciplines while sociologists and historians are encouraged to consider the value of film evidence in their own fields This work should appeal to all readers interested in social history and in how cinema and society works *The Post-war History of the British Working Class* Allen Hutt,1938

A Short History of the British Working Class Movement, 1789-1925 George Douglas Howard Cole,1927 *A Short History of the British Working Class Movement* George Douglas Howard Cole,1927 *Home in British Working-Class Fiction* Nicola Wilson,2016-03-09 Home in British Working Class Fiction offers a fresh take on British working class writing that turns away from a masculinist work based understanding of class in favour of home gender domestic labour and the family kitchen As Nicola Wilson shows the history of the British working classes has often been written from the outside with observers looking into the world of the inhabitants Here Wilson engages with the long cultural history of this gaze and asks how home is represented in the writing of authors who come from a working class background Her book explores the depiction of home as a key emotional and material site in working class writing from the Edwardian period through to the early 1990s Wilson presents new readings of classic texts including *The Ragged Trousered Philanthropists* *Love on the Dole* and *Saturday Night and Sunday Morning* analyzing them alongside works by authors including James Hanley Walter Brierley Lewis Grassie Gibbon Buchi Emecheta Pat Barker James Kelman and the rediscovered ex mill girl novelist Ethel Carnie Holdsworth Wilson s broad understanding of working class writing allows her to incorporate figures typically ignored in this context as she demonstrates the importance of home s role in the making and expression of class feeling and identity **Representations of Working-Class Masculinities in Post-War British Culture** Matthew

Crowley,2020-02-06 This book presents an analysis of representations of white heterosexual working class masculinities in British culture between 1945 and 1989 to trace the development of the sociocultural and material conditions that shaped the masculinities which are helping to shape contemporary culture This book seeks to fan the spark of hope in the past that informs our present The period which saw the establishment of the welfare state and the construction and breakdown of the post war consensus in British politics was of great significance in the formation and maintenance of working class masculinities and their correspondent representations The author engages with a variety of cultural texts across various

modes and media including films *Alfie* plays *Don't Look Back* in *Anger* television *Boys from the Blackstuff* and music *The Beatles* and employs the analysis of the representation of working class masculinities as a lens through which to examine a range of historical and cultural moments This book reinstates class as a central precept in the study of British cultural representations and offers a timely intervention in ongoing debates around class and gender identities in Britain The book will be key reading for students and researchers with interests in twentieth century social and cultural British history masculinities and gender studies twentieth century British literature British television and cultural studies more broadly

The Intersection of Class and Space in British Postwar Writing Simon Lee, 2022-12-29 Centering on the British kitchen sink realism movement of the late 1950s and early 1960s specifically its documentation of the built environment's influence on class consciousness this book highlights the settings of a variety of novels plays and films turning to archival research to offer new ways of thinking about how spatial representation in cultural production sustains or intervenes in the process of social stratification As a movement that used gritty documentary style depictions of space to highlight the complexities of working class life the period's texts chronicled shifts in the social and topographic landscape while advancing new articulations of citizenship in response to the failures of post war reconstruction By exploring the impact of space on class this book addresses the contention that critical discourse has overlooked the way the built environment informs class identity

Urban Redevelopment and Modernity in Liverpool and Manchester, 1918-1939 Charlotte Wildman, 2016-09-22 This book is open access and available on [www](http://www.openaccesspublishing.co.uk)

bloomsburycollections.com It is funded by Manchester University Faced with economic decline unprecedented levels of unemployment and new forms of political extremism during Britain's last great economic crash politicians and planners in Liverpool and Manchester responded by investing in dramatic and ambitious programmes of urban regeneration Urban Redevelopment and Modernity in Liverpool and Manchester 1918-1939 is the first book to provide the hitherto unknown story of the innovative transformation of these cities Charlotte Wildman challenges academic scholarship in British history which associates the post 1918 period with the emasculation of local government and the decline of civic culture She shows that local politicians planners architects businessmen and even religious leaders embraced innovative trends in creating distinct forms of urban modernities which particularly changed the way women experienced the transformed city Urban Redevelopment and Modernity in Liverpool and Manchester 1918-1939 offers a complex interactive and multipolar interpretation of the ways cities develop pointing to new methods and ways of understanding both interwar Britain and urban history more generally At a time of debate and discussion about devolution and decentralisation of government this book makes an opportune contribution to debates about urban governance and regionalism in contemporary Britain *British White Trash* Mark Schmitt, 2018-03-15 White trash is a liminal figure that dramatizes the intersection of race and class Contemporary British novelists like Irvine Welsh Niall Griffiths and John King use this originally US American stereotype to interrogate the racializing discourse of class in British society Their novels are interdiscursive reflections of the figurations of race and class that still haunt the British cultural imaginary *British White Trash* is the first analysis to comprehensively examine the adaptation of the white trash stereotype in major British novels The study thus contributes to a critical understanding of racism and classism its cultural representations and its underlying social processes *The Politics of Consumer Credit in the UK, 1938-1992* Stuart Aveyard, Paul Corthorn, Sean O'Connell, 2018-08-30 As early as the 1930s Britain had a highly innovative and profitable mortgage sector that promoted a major extension in home ownership These controversial and risky offerings had an equivalent in numerous hire purchase agreements with which new homes were furnished Such developments were forerunners of the easy credit regime more commonly associated with the 1980s Taking a long term perspective on this issue indicates that Britain's departure from European models of consumer credit markets was not simply a by-product of neoliberalism's influence on the Thatcher administration and this book offers a much fuller explanation to the phenomenon It explores debates within and between the major political parties reveals the infighting amongst civil service departments over management of consumer demand charts the varying degrees of influence wielded by the Bank of England and finance capital as opposed to that of consumer durable manufacturers reviews the perspectives of consumers and their representatives and explains the role of contingency and path dependency in these historical events The central focus of this book is on consumer credit but this subject provides a case study through which to explore numerous other important areas of British history These include debates on the issues of post war consensus the impact of rising home

ownership and its impact on consumer credit and personal finance markets the management of consumer society political responses to affluence the development of consumer protection policy and the influence of neoliberalism *British Culture of the Post-War* Alastair Davies, Alan Sinfield, 2013-04-15 From Angus Wilson to Pat Barker and Salman Rushdie *British Culture of the Post War* is an ideal starting point for those studying cultural developments in Britain of recent years Chapters on individual people and art forms give a clear and concise overview of the progression of different genres They also discuss the wider issues of Britain's relationship with America and Europe and the idea of Britishness Each section is introduced with a short discussion of the major historical events of the period Read as a whole *British Culture of the Postwar* will give students a comprehensive introduction to this turbulent and exciting period and a greater understanding of the cultural production arising from it

Sexual Politics Stephen Brooke, 2011-11-24 *Sexual Politics* explores the complex relationship between sexuality and socialist politics in Britain between the 1880s and the present day Looking at birth control abortion law reform and gay rights this is a timely examination of the relationship between the personal and the political over the last century and a half Stephen Brooke tells the stories of individuals such as Edward Carpenter Dora Russell Sheila Rowbotham Ken Livingstone Peter Tatchell and Tony Blair and organizations like the Workers Birth Control Group the Abortion Law Reform Association the National Abortion Campaign and the Labour Campaign for Lesbian and Gay Rights Sexual radicalism first and second wave feminism and gay liberation all feature in the book's portrait of the progress of sexual politics from the late nineteenth century to the early twenty first century *Sexual Politics* also offers an analysis of the Labour Party's long and sometimes ambiguous link to issues of sexuality ending with the considerable contribution made to sex reform by the New Labour governments of 1997 to 2010 Sexual issues were always under the surface of Labour politics in the twentieth century emerging forcefully in the 1970s and 1980s in a way that brought both division and unity to the party Brooke stresses the importance of class and gender identity to the fate of sexual issues in British politics the dynamic nature of British socialism and the impact of sexual radicalism feminism and gay liberation upon socialist and working class politics *Sexual Politics* argues that the shifting relationship between the personal and the political is a central element of twentieth century British history a relationship that helped define the character of political modernity

Adult Responses to Popular Music and Intergenerational Relations in Britain, c. 1955-1975 Gillian A. M. Mitchell, 2019-02-28 *Adult Reactions to Popular Music and Inter generational Relations in Britain 1955-1975* challenges stereotypes concerning a post war generation gap exacerbated by rebellion inducing popular music styles by demonstrating the considerable variety which frequently characterized adult responses to the music whilst also highlighting that the impact of the music on inter generational relations was more complex than is often assumed NP Utilizing extensive primary evidence from first person accounts to newspapers television programmes surveys and archive collections the book adopts a thematic approach identifying three key arenas of British society in which adult responses to popular music and the impact of such reactions upon relations

between generations seem particularly revealing and significant The book examines in detail the place of popular music within family life and Christian churches and their engagement with popular music particularly within youth clubs It also explores encounters between the worlds of traditional Variety entertainment and popular music while providing broader perspectives on this most dynamic and turbulent of periods *The Making of the Modern British Home* Peter

Scott,2013-08-29 *The Making of the Modern British Home* explores the impact of the modern suburban semi detached house on British family life during the 1920s and 1930s focusing primarily on working class households who moved from cramped inner urban accommodation to new suburban council or owner occupied housing estates Migration to suburbia is shown to have initiated a dramatic transformation in lifestyles from a traditional working class mode of living based around long established tightly knit urban communities to a recognisably modern mode centred around the home the nuclear family and building a better future for the next generation This process had far reaching impacts on family life entailing a change in household priorities to meet the higher costs of suburban living which in turn impacted on many aspects of household behaviour including family size This volume also constitutes a general history of the development of both owner occupied and municipal suburban housing estates in interwar Britain including the evolution of housing policy the housing development process housing and estate design lay outs and architectural features marketing owner occupation and consumer durables to a mass market furnishing the new suburban home making ends meet suburban gardens social filtering and conflict on the new estates and problems of mis selling and Jerry building Peter Scott integrates the social history of the interwar suburbs with their economic business marketing and architectural planning histories demonstrating how these elements interacted to produce a new model of working class lifestyles and respectability which marked a fundamental break with pre 1914 working class urban communities *Michael Young, Social Science, and the British Left, 1945-1970* Lise Butler,2020-09-02

In post war Britain left wing policy maker and sociologist Michael Young played a major role in shaping British intellectual political and cultural life using his study of the social sciences to inform his political thought In the mid twentieth century the social sciences significantly expanded and played a major role in shaping British intellectual political and cultural life Central to this intellectual shift was the left wing policy maker and sociologist Michael Young As a Labour Party policy maker in the 1940s Young was a key architect of the Party s 1945 election manifesto *Let Us Face the Future* He became a sociologist in the 1950s publishing a classic study of the East London working class *Family and Kinship in East London* with Peter Willmott in 1957 which he followed up with a dystopian satire *The Rise of the Meritocracy* about a future society in which social status was determined entirely by intelligence Young was also a prolific social innovator founding or inspiring dozens of organisations including the Institute of Community Studies the Consumers Association Which magazine the Social Science Research Council and the Open University Moving between politics social science and activism Young believed that disciplines like sociology psychology and anthropology could help policy makers and politicians understand human nature

which in turn could help them to build better political and social institutions This book examines the relationship between social science and public policy in left wing politics between the end of the Second World War and the end of the first Wilson government through the figure of Michael Young Drawing on Young s prolific writings and his intellectual and political networks it argues that he and other social scientists and policy makers drew on contemporary ideas from the social sciences to challenge key Labour values like full employment and nationalisation and to argue that the Labour Party should put more emphasis on relationships family and community Showing that the social sciences were embedded in the project of social democratic governance in post war Britain it argues that historians and scholars should take their role in British politics and political thought seriously *British Literature in Transition, 1980-2000* Eileen Pollard, Berthold Schoene-Harwood, 2019 This volume shows how British literature recorded contemporaneous historical change It traces the emergence and evolution of literary trends from 1980 2000 **Women and the Miners' Strike, 1984-1985** Florence Sutcliffe-Braithwaite, Natalie Thomlinson, 2023-09-05 Just days into the miners strike of 1984 1985 a few women in coalfield communities around Britain began to meet to consider how they could support the strike a clash with the Thatcher government over the future of the coal industry Women ultimately formed a national network of groups that some observers saw as an alternative welfare state helping to keep the strike going for just under a year This book is the first study of this national movement illuminating its achievements but also telling the less well known story of arguments and divisions with men in the National Union of Mineworkers and feminists in the women s liberation movement Many women in the movement despite their activism resolutely denied that they were political at all defining themselves as ordinary women housewives mothers and workers and despite some claims that women activists had been transformed for ever by their experiences most of those involved felt they had been changed only in more subtle ways Women and the Miners Strike is also the first to look beyond the activists to study the experiences of the majority of women in mining families who did not get involved in activism Some of these women supported the strike by going out to work themselves to keep their families going others supported their menfolk with practical and emotional support in the home A large number were ambivalent about the dispute even though the experiences of women whose husbands or fathers worked through the strike or returned to work early have generally been almost entirely obscured within popular memory This book therefore also demonstrates how some women whose husbands broke the strike refashioned concepts like democracy and community to justify their actions and how some even formed their own support groups to aid other women in their communities who found themselves under fire for opposing the strike Through examining the stories of more than 100 women and their varied experiences during the strike the book sheds new light on working class women s relationship to the political and the ordinary and demonstrates the ways in which gender roles working class lifestyles and coalfield communities changed in Britain over the post war period
