nation With the Currie Mission as a starting point and a case study Alacevich analyzes the complexities of the Bank's first steps toward economic and social development in poorer nations and helps the reader understand some foundational questions about development that are still of great relevance today The Political Economy of the World Bank The Early Years is essential reading for anyone interested in the economic history of international development as a lens for better understanding current development issues

Inclusion and Exclusion in the Global Arena Max Kirsch, 2014-01-27 This collection of essays addresses the inclusion and exclusion of peoples populations and regions in an era of global economic and social integration Although many publications have discussed the way in which globalization has changed the nature of boundaries space and the movement of peoples there is a wide gap in a literature that rarely addresses the reaction of local communities and inclusion for some stakeholders in decision making while excluding others particularly in regard to global integration of industry the legislation of planning and trade This gap has often led to narrow and sometimes misleading ways of presenting the results of globalizing processes This collection aims to bridge this gap by providing on the ground case studies that lead to alternative ways of viewing current conceptual frameworks of globalization and its consequences This collection is an elaboration of a special issue of *Urban Anthropology* that contained essays by June Nash Jack Goody Helen Safa and Max Kirsch The special issue addressed concerns that have become prominent not only in anthropology but in the wider social sciences and humanities The reader focuses on the conceptual divisions among the constructs of space and place indigenous strategies for autonomy polity and

global planning mechanisms and the role of trans national corporations in community disintegrations and resistance

Asia's Free Trade Agreements Masahiro Kawai, Ganeshan Wignaraja, 2011 East Asia is the region of the world that is changing fastest in terms of trade arrangements Dozens of free trade agreements are signed every year turning a complex situation into the East Asian noodle bowl of FTAs This book addresses the crucial question posed by these new agreements how do they affect business While many studies have focused on government to government issues this book gets to the heart of the matter studying what it means for the firms actually doing the trade and investment I recommend this book to any serious student of trade particularly those interested in understanding the rapidly evolving landscape in this most dynamic part of the world Richard Baldwin Professor of International Economics Graduate Institute Geneva Switzerland The pursuit of more than one hundred Free Trade Agreements in East Asia is quietly producing a fundamental change in the global economic architecture This path breaking new volume provides an indispensable guide to the practical effect of such agreements on commercial transactions in the region It is a must read for businessmen and policymakers who seek to both understand the impact of FTAs in the real world and expand their contributions to economic growth and development C Fred Bergsten Director Peterson Institute for International Economics US East Asia needs to think about appropriate measures to overcome the Asian FTA noodle bowl in the future In this vein the study suggests several practical measures including encouraging rationalization and flexibility of rules of origin upgrading origin administration improving business participation in FTA consultations and strengthening institutional support systems for SMEs It is hoped that this study will contribute to strengthening regional trade policies in Asia and compatibilities with global trade rules Haruhiko Kuroda President Asian Development Bank This is a valuable contribution in a crowded field Kawai and Wignaraja have gone beyond familiar arguments about the relative merits of regionalism and multilateralism to ask businesses what it all means to them Policymakers should take note Patrick Low Chief Economist WTO For policymakers in the region the debate is no longer between regionalism and multilateralism The real question is how we should create the model for regionalism that will become the building blocks to a multilateral trading system and avoid raising costs of doing business from the noodle bowl effect Therefore the comparative and micro level research found in this book provides valuable insights on the impact of FTAs on businesses These insights will be relevant input as policymakers forge ahead in implementing regional FTAs thinking of ways to amend and improve on them and most importantly harmonize or consolidate between existing regional FTAs in East Asia Mari Pangestu Minister of Trade Indonesia The spread of Asia s free trade agreements FTAs has sparked an important debate on the impact of such agreements on business activity This pioneering study uses new evidence from surveys of East Asian exporters including Japan the People s Republic of China the Republic of Korea and three ASEAN economies of the Philippines Singapore and Thailand to shed light on the FTA debate Critics are concerned that FTAs erode the multilateral trading process and foster an alarming noodle bowl of overlapping regulations and rules of origin

requirements which may be costly to business Asia's Free Trade Agreements makes key recommendations for improving business use of FTA preferences reducing costs of FTAs and creating a region wide FTA This well researched and documented book will appeal to undergraduate and postgraduate students in international business international economics economic development public administration and public policy Academics researchers and members of think tanks around the world will also benefit from this book as will trad Austrian Immigration to Canada Franz A. J. Szabo,1996 This collection of nine essays originated in a symposium on Austrian Immigration to Canada held at Carleton University in May 1995 Held in conjunction with the Austrian Immigration to Canada Research Project which was initiated to mark the Austrian millennium in 1996 the conference brought together European and Canadian scholars from several disciplines The full range of immigrant and refugee experience in Canada is addressed culture politics demographics identity language memory hardship and achievement Austrian Immigration is the companion volume to A History of the Austrian Migration to Canada also published by Carleton University Press BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved The Cassa per il Mezzogiorno, the World Bank and the Model for Italian Economic Development Amedeo Lepore,2023-12-15 This research carried out in original documents by the World Bank which were intended exclusively for internal use and were made available to scholars only a few years ago tackles the theme of the extraordinary intervention in Southern Italy from an international perspective The book provides an updated view of the issues concerning the regions of Southern Italy as well as the solutions proposed for the Southern Question during the years of the post war reconstruction of Italy creating the only period of convergence considering the whole of the history of united Italy between Southern and Northern Italy and between the entire country and the most advanced Western economies during the golden age The volume enhances our understanding of such a decisive development phase especially within the framework of both Italian and international economic history following the peacetime rebuilding of Italy and before the crisis of the 1970s while providing very useful elements in order to analyse the current events of both the Mezzogiorno and all of Italy **Population Exchange in Greek Macedonia** Elisabeth Kontogiorgi,2006-06-15 Publisher Description **The World Bank** Eric Toussaint,2007-12-20 The World Bank is a controversial organisation It is widely viewed with suspicion as the international economic arm of the US in thrall to the President who is responsible for appointing the head of the Bank Eric Toussaint gives a highly readable account of just why the World Bank has become so powerful In short clear chapters he shows how the bank operates who funds it and what it sets out to promote The Bank's main purpose is to grant loans to all the newly independent states of the developing world to help them on their journey to recovery after colonial occupation In reality the conditions imposed on these states including enforced privatisation of all public services and enforced neo liberal rules on trade mean that the Bank has become the new colonial authority in everything but name **The Elusive Quest for Growth in Argentina** D. Chudnovsky,A. López,2007-05-14 This book explores a big puzzle in development economics why Argentina

despite rich natural resources and ample human capital has endured such poor growth performance The authors use rigorous economic analysis and an institutional and historical approach to show what went wrong in a timely contribution to the sustainable development debate

Nigeria in the Fourth Republic E. Ike Udogu, 2022-04-14 Nigeria is a bellwether in an enormous continent endowed with natural resources and human capital whose development and greatness have been marred by political instability since gaining home rule from Britain in 1960 The contemporary political economic and social quandaries that have stultified Nigeria's growth project flows from difficulties in cultivating patriotic leaders with pluck to enact efficacious policies that will catapult the country to greater heights developmentally Nigeria in the Fourth Republic Confronting the Contemporary Political Economic and Social Dilemmas edited by E Ike Udogu examines some of the vital issues responsible for the current political malaise and recommends strategies for exculpating the country from her current political quagmires The contributors to this book argue inter alia for the avoidance of false starts reminiscent of the military interventions that aborted the democracy project and advocates the enactment of effective policies to supersede decision dictated by politics This volume proposes national healthcare strategies to address the country's healthcare needs and for dialogue to extinguish combustible inter religious conflicts The book recommends ways to assuage police highway malfeasance and explains why human rights observance is critical to further national cohesion while creating space for the subalterns to have their voices heard in discourses on how to advance peaceful coexistence

The Future of Liberation Theology Ivan Petrella, 2017-03-02 The Future of Liberation Theology envisions a radical new direction for Latin American liberation theology One of a new generation of Latin American theologians Ivan Petrella shows that despite the current dominance of end of history ideology liberation theologians need not abandon their belief that the theological rereading of Christianity must be linked to the development of historical projects models of political and economic organization that would replace an unjust status quo In the absence of historical projects liberation theology currently finds itself unable to move beyond merely talking about liberation toward actually enacting it in society Providing a bold new interpretation of the current state and potential future of liberation theology Ivan Petrella brings together original research on the movement with developments in political theory critical legal theory and political economy to reconstruct liberation theology's understanding of theology democracy and capitalism The result is the recovery of historical projects thus allowing liberation theologians to once again place the reality of liberation and not just the promise at the forefront of their task

Re/presenting Class J. K. Gibson-Graham, Stephen Resnick, Richard Wolff, 2001-06-15 Twelve theoretical and historical essays emanate from a novel shared poststructuralist conception of political economy
