

The Power and the Money  
THE MEXICAN FINANCIAL SYSTEM,  
1876-1932

*Noel Maurer*

# The Power And The Money The Mexican Financial System 1876 193

**Clemens Wendtner**

## **The Power And The Money The Mexican Financial System 1876 193:**

**The Power and the Money** Noel Maurer, 2002 Facing financial chaos Porfirio Diaz's strategy in the 1880s was to create a bank with a legal monopoly over lending to the government and to enforce elites property rights in order to get their support This book shows how Mexican leaders even after the Mexican Revolution failed to alter these basic economic and political policies resulting in a continuing high level of financial and industrial concentration

**The Power and the Money** Noel Maurer, 2022 After its independence in 1821 Mexico experienced more than fifty years of political chaos until Porfirio Diaz assumed power in 1876 Thirty five years later Mexico entered another period of turbulent instability 1910-29 during which the country underwent a revolution a counter revolution a counter counter revolution three civil wars and four violent coups or attempted coups In both periods governments repudiated debts confiscated cash reserves demanded forced loans and engaged in the unrestrained printing of currency The governments that came to power after these bouts of instability faced a crucial dilemma They needed resources in order to impose order yet they lacked the ability to raise significant tax revenue The answer was to borrow but how did governments facing armed resistance and a real chance of being overthrown credibly promise to repay their debts Porfirio Diaz's strategy in the 1880s was to create a bank with a legal monopoly over lending to the federal government Diaz's regime also enforced property rights to give elites tied to powerful local strongmen a stake in the political system The threat of revolt by these strongmen assured politically connected local elites that the federal government would not attempt to confiscate their wealth Diaz's strategy created an inefficient and concentrated banking system that interacted with the politicized nature of property rights in such a way as to produce an extremely concentrated industrial system The Mexican Revolution which began in 1910 violently ended the Porfirian regime but failed to alter the basic political and economic calculus Just as Diaz had done the leaders who attained power after 1920 selectively enforced property rights In addition the government created a hostage a government owned commercial bank If the rules of the game were altered the capital of the government's bank and its lucrative profits would disappear As a result despite ongoing violence and political instability the domestic banking system recovered rapidly during the 1920s The result was the same as in the Porfiriato a continuing high level of financial and industrial concentration This is not to say that the Revolution had no effects but in the long run it failed to sever the ties between banks and politics If anything the Revolution strengthened them

Law and Finance in Historical Perspective Aldo Musacchio, 2005 Do early institutions exert a long term impact on subsequent institutional and economic development Do endowments and legal tradition explain the subsequent development of financial markets and rule of law An influential stream of the economics literature explains development levels around the world using as explanatory variables institutions adopted in the distant past In particular the law and finance literature has argued that legal origin e.g civil and common law determines both the extent of investor protections and the level of financial market development of a country La Porta Lopez de Silanes Shleifer and Vishny 1997 1998 2000 Furthermore extensions of

this literature have argued that conditions at the time of colonization such as settler mortality are powerful explanatory variables of financial development in ex colonies Beck Demirgu Kunt and Levine 2003 2003b The empirical work of these studies has showed that being a Civil Law country is correlated with having poor protection of investors and small financial markets This dissertation challenges these hypotheses by showing the historical variation in investor protections and equity and bond markets in Brazil a Civil Law country Rather than having legal origin determining these variables I argue that the variation in financial market size responds to international capital cycles while the variance in investor protections is better explained by the historical changes in the interests of ruling coalitions In order to study investor protections I created creditor and shareholder rights indices following the law and finance methodology and looked at their enforcement My analysis of creditor rights and court cases shows that creditor rights in Brazil were relatively strong between 1850 and 1940 The analysis of shareholder protections and corporate ownership demonstrates that shareholder rights got stronger on paper from 1882 to 2001 with a minor setback in the 1990s while equity ownership got increasingly more concentrated after 1940 I end by suggesting that increasing popular participation in financial markets might be a good way to commit governments to protect investors

**The Money Market Review** ,1887      **The Pageant of America: Makers of a new nation, by J.S. Bassett** Ralph Henry Gabriel,1928      Scientific American ,1876 Monthly magazine devoted to topics of general scientific interest      *The Financial Review* ,1896      *The Commercial and Financial Chronicle* ,1896      The Pageant of America, a Pictorial History of the United States ,1928      **Makers of a New Nation** John Spencer Bassett,1928      *The Commercial & Financial Chronicle* ,1896      **The Electrical World and Engineer** ,1902      The Shaping of the American Past Robert Lloyd Kelley,1990 An interpretive history of the US from colonial times to the present Emphasizes both political history with solid coverage of social history      **American Railroad Journal** ,1866      **Commercial and Financial Chronicle Bankers Gazette, Commercial Times, Railway Monitor and Insurance Journal** ,1896      **The Adventure of the American People** Henry Franklin Graff,1968      *Engineering News* ,1881      **The Nation** ,1878      **Railway Locomotives and Cars** ,1866      **Engineering News-record** ,1881
