

The Power of Lies: Transgression in Victorian Fiction. - book reviews

The sociology of knowledge continues to provide fruitful lines of inquiry for literary critics. Alexander Welsh's *George Eliot and Blackmail* (1985), D. A. Miller's *The Novel and the Police* (1988), and W. David Shaw's *Victorians and Mystery: Crises of Representation* (1990) are among the precursors to the book under review which have usefully engaged Foucault, Bourdieu, Simmel and others to address literary practices as means of distributing symbolic power. Distinct from studies such as Nina Auerbach's *Private Theatricals* (1990), Kucich's book considers deceit not as a form of higher truth but, by maintaining truth and lies as separate ethical categories, as an "arbitrary overcoding of one forbidden aspect of experience with psychic value" (31). Building on the Bakhtinian and psychoanalytic account of transgression developed by Peter Szallybrass and Allen White in *The Politics and Poetics of Transgression* (1986), Kucich argues that "the transgression of distinctions between honesty and dishonesty was pivotal in struggles for middle-class cultural authority" (37).

Notorious for both earnestness and hypocrisy, the Victorian bourgeoisie affords ample material for a consideration of the power of lies. Kucich remarks that lying has, however, been overlooked as a viable mechanism of resistance against institutional technologies of truth by Foucauldians who collapse confession into economies of power. At the same time, Kucich recalls the bourgeois habit of stigmatization: women, foreigners, and the working class as liars. Through readings of three pairs of writers--Anthony Trollope and Wilkie Collins, Elizabeth Gaskell and Ellen Wood, and Thomas Hardy and Sarah Grand--Kucich describes the diverse motives for appropriating the symbolic power of lies and its consequences for various groups within and outside the bourgeoisie.

The book's first pairing of Trollope and Collins best illustrates Kucich's method of argument. Choosing writers long thought to represent respectively the quintessence of middle-class stodginess and subversive deviance, Kucich demonstrates their common effort to define a bourgeois elite whose moral sophistication proceeds from transgressive deceit. Kucich's goal, however, is not to reduce their alleged differences to political insignificance, but rather to refine our appreciation of what distinguishes Trollope from Collins.

With evidence drawn from a range of Trollope's novels as well as his autobiography, Kucich argues that Trollope negotiates the conflict in bourgeois ideology between the disinterest required for trustworthiness and the desire required for social mobility, capitalist expansion, and sexual relations by recuperating lying for an anti-bourgeois elite. At the same time Trollope demonstrates his commitment to honesty as a moral and aesthetic virtue and disparages overtly self-interested mendacity, he likewise mocks gullibility and slavish adherence to absolute rules of honesty and associates moral sophistication with the ability to transgress such rules by "disinterested dishonesty." Lucy Roberts's falsehoods in *Framley Parsonage*, presented as signs of charming selflessness rather than ambition, are paradigmatic of the behavior of the Trollopean

The Power of Lies John Kucich, 2018-07-05 Although moral earnestness has long been considered characteristic of the Victorians Kucich maintains that English fiction in the nineteenth century was as interested in lies as in honesty In this important book Kucich explores the fascination with lying in novels by Anthony Trollope Wilkie Collins Elizabeth Gaskell Ellen Wood Thomas Hardy and Sarah Grand

Secrecy and Disclosure in Victorian Fiction Leila Silvana May, 2016-07-15 Why were the Victorians more fascinated with secrecy than people of other periods What is the function of secrets in Victorian fiction and in the society depicted how does it differ from that of other periods and how did readers of Victorian fiction respond to the secrecy they encountered These are some of the questions Leila May poses in her study of the dynamics of secrecy and disclosure in fiction from Queen Victoria's coronation to the century's end May argues that the works of writers such as Charlotte Brontë William Makepeace Thackeray Mary Elizabeth Braddon Edward Bulwer Lytton and Arthur Conan Doyle reflect a distinctly Victorian obsession with the veiling and unveiling of information She argues that there are two opposing vectors in Victorian culture concerning secrecy and subjectivity one presupposing a form of radical Cartesian selfhood always remaining a secret to other selves and another showing that nothing can be hidden from the trained eye May calls the relation between these clashing tendencies the dialectics of secrecy and disclosure May's theories of secrecy and disclosure are informed by the work of twentieth century social scientists She emphasizes Georg Simmel's thesis that sociality and subjectivity are impossible without secrecy and Erving Goffman's claim that sociality can be understood in terms of performativity the presentation of the self in everyday life and his revelation that performance always involves disguise hence secrecy May's study offers convincing evidence that secrecy and duplicity in contrast to the Victorian period's emphasis on honesty and earnestness emerged in response to the social pressures of class gender monarchy and empire and were key factors in producing both the subjectivity and the sociality that we now recognize as Victorian

Eavesdropping in the Novel from Austen to Proust Ann Gaylin, 2003-01-16 Eavesdropping in the Novel from Austen to Proust investigates human curiosity and its representation in eavesdropping scenes in nineteenth century English and French novels Ann Gaylin argues that eavesdropping dramatizes a primal human urge to know and offers a paradigm of narrative transmission and reception of information among characters narrators and readers Gaylin sheds light on the social and psychological effects of the nineteenth century rise of information technology and accelerated flow of information as manifested in the anxieties about and delight in displays of private life and its secrets Analysing eavesdropping in Austen Balzac Collins Dickens and Proust Gaylin demonstrates the flexibility of the scene to produce narrative complication or resolution to foreground questions of gender and narrative agency to place the debates of privacy and publicity within the literal and metaphoric spaces of the nineteenth century novel This 2003 study will be of interest to scholars of nineteenth century English and European literature

Writing *Allegories of Union in Irish and English Writing, 1790–1870* Mary Jean Corbett, 2000-09-14 In this book Mary Jean Corbett explores fictional and non fictional representations of Ireland's relationship with England throughout the nineteenth century. Through postcolonial and feminist theory she considers how cross cultural contact is negotiated through tropes of marriage and family and demonstrates how familial rhetoric sometimes works to sustain sometimes to contest the structures of colonial inequality. Analyzing novels by Edgeworth, Owen, Gaskell, Kingsley and Trollope as well as writings by Burke, Carlyle, Engels, Arnold and Mill, Corbett argues that the colonizing imperative for reforming the Irish in an age of imperial expansion constitutes a largely unrecognized but crucial element in the rhetorical project of English nation formation. By situating her readings within the varying historical and rhetorical contexts that shape them, she revises the critical orthodoxies surrounding colonial discourse that currently prevail in Irish and English studies and offers a fresh perspective on important aspects of Victorian culture.

The Cambridge Companion to Anthony Trollope Carolyn Dever, Lisa Niles, 2011 A state of the field review of critical perspectives on the work of Anthony Trollope.

Nameless Offences H. G. Cocks, 2003-05-23 What did the Victorians know about desire between men? Was it really the love that dare not speak its name? *Nameless Offences* argues that even before Oscar Wilde and the rise of sexual science there was an open public and concerted discussion of same sex desire that went to the heart of Victorian notions of masculinity, civil society, class and identity. How did homosexuality come to be known as a secret vice, consigned to a secret place, the closet, when contemporaries regularly described its existence as widespread, threatening and even notorious? *Nameless Offences* asks where the closet came from and how the English learned to describe that which was nameless and indescribable in this way. This groundbreaking book offers the definitive portrait of male homosexuality in the nineteenth century and includes many perceptive insights into what it reveals about the interaction between public and private morality which lay at the heart of Victorian England. *Nameless Offences* is a cogently argued and well written book which contributes importantly to our understanding of the history of the legal regulation of sexual behavior between men in the 19th century. I cannot do justice to the richness of his historical narrative; he has found gems of narrative detail and woven them into a persuasive analysis.
