Equation Anthony Forsyth,Hina Sheikh,Francesca Sperotti,2015-06-18 This volume explores some of the ways that a dialogue between diversity researchers and migration researchers can deepen the understanding of both It moves across economics sociology political science labour relations and legal studies demonstrating that the value of this dialogue cuts across disciplines The book particularly underlines the challenges faced in host societies including exclusion to the point of hyper precarity anti migrant attitudes and the widespread organizationa *The Politics of Nursing Knowledge* Anne Marie Rafferty,2002-09-11 Focusing on the evolution of training and policy making and highlighting contemporary issues confronting those in training Anne Marie Rafferty analyses how far nursing fits into the mould of both a profession and an academic discipline **Cultural Studies** Henry A. Grioux,Peter McLaren,1993-03-04 Cultural Studies explores popular culture in a uniquely exciting and innovative way Encouraging experimentation intervention and dialogue Cultural Studies is both politically and theoretically rewarding **A Language of Freedom and Teacher's Authority** Fatma Mizikaci,Guy Senese,2017-05-30 A Language of Freedom and Teacher s Authority Case Comparisons from Turkey and the United States explores dimensions of authority that are deeply embedded in the profession of teaching It examines critical dimensions of the foundations of Turkish and U S public education both of which are under new pressures due to changes in the relationship between public schooling and current reforms in education The contributors reflect on varied dimensions of authority of which ideals are shifting under political and economic pressures In both Turkey and the U S public education reflects the early influence of secular equalitarianism revolutionary democratic developments and an Enlightenment based sense of the human right to education Against this we see the opposing dialectic where state control and curricular censorship and constriction appear too often **Easternization of the West** Colin Campbell,2015-11-17 In this provocative and groundbreaking book Colin Campbell shows that the civilization of the West is undergoing a revolutionary process of change one in which features that have characterized the West for two thousand years are in the process of being marginalized to be replaced by those more often associated with the civilizations of the East Moving far beyond popular trends Campbell assembles a powerful range of evidence to show how Easternization has been building throughout the last century especially since the 1960s Campbell demonstrates how it was largely in the 1960s that new interpretations in theology political thought and science were widely adopted by a new generation of young culture carriers This highly original and wide ranging book advances a thesis that will be of interest to scholars in many disciplines in the humanities and social sciences **Memory Laws, Memory Wars** Nikolay Koposov,2018 A major contribution to our understanding of present day historical consciousness through a study of memory laws across Europe *Channeling the Past* Erik Christiansen,2013-03-15 After the turmoil of the Great Depression and World War II Americans looked to the nation s more

distant past for lessons to inform its uncertain future By applying recent and emerging techniques in mass communication including radio and television programs and commercial book clubs American elites working in media commerce and government used history to confer authority on their respective messages With insight and wit Erik Christiansen uncovers in Channeling the Past the ways that powerful corporations rewrote history to strengthen the postwar corporate state while progressives communists and other leftists vied to make their own versions of the past more popular Christiansen looks closely at several notable initiatives CBS s flashback You Are There program the Smithsonian Museum of American History constructed in the late 1950s the Cavalcade of America program sponsored by the Du Pont Company the History Book Club and the Freedom Train a museum on rails that traveled the country from 1947 to 1949 exhibiting historic documents and flags including original copies of the U S Constitution and the Magna Carta It is often said that history is written by the victors but Christiansen offers a more nuanced perspective history is constantly remade to suit the objectives of those with the resources to do it He provides dramatic evidence of sophisticated calculations that influenced both public opinion and historical memory and shows that Americans relationships with the past changed as a result **Echoes of the Holocaust**

Klas-Göran Karlsson,Ulf Zander,2003-01-01 The result of a research project conducted by Swedish scholars this text examines interpretations and representations of the Holocaust in European societies primarily focusing on the most recent decades Using specific case studies the articles in this anthology study how when and why the collective memory of the Holocaust has been expressed and activated for cultural economic political and social reasons **New Politics** ,1992

Echoes of War Michael C.C. Adams,2021-10-21 Americans are often accused of not appreciating history but this charge belies the real popular interest in the past Historical reenactments draw thousands of spectators popular histories fill the bestseller lists PBS A and Hollywood war movies become blockbusters Though historians worry that these popular representations sacrifice authenticity for broad appeal Michael C C Adams argues that living history even if it is an incomplete depiction of the past plays a vital role in stimulating the historical imagination In Echoes of War he examines how one of the most popular fields of history is portrayed embraced and shaped by mainstream culture Adams argues that symbols of war are of intrinsic military significance and help people to articulate ideas and values We still return to the knight as a symbol of noble striving the bowman appeals as a rebel against unjust privilege Though Custer may not have been the Army s most accomplished fighter he achieved the status of cultural icon The public memory of the redcoated British regular soldier shaped American attitudes toward governments and gun laws The 1863 attack on Fort Wagner by the black Fifty fourth Massachusetts regiment was lost to public view until racial equality became important in the late twentieth century Echoes of War is a unique look at how a thousand years of military history are remembered in popular culture through images ranging from the medieval knight to the horror of U S involvement in the My Lai massacre **The Study of History** ,2000 History is a subject which never stands still It is always changing its philosophies its contours its leading

Berger,1999-01-01 In this study of the cultural pursuit of the end and what follows Berger contends that every apocalyptic depiction leaves something behind some mixture of paradise and wasteland Combining literary psychoanalytic and historical methods Berger mines these depictions for their weight and influence on current culture He applies wide ranging evidence from science fiction to Holocaust literature from Thomas Pynchon to talk shows from American politics to the fiction of Toni Morrison to reveal how representations of apocalyptic endings are indelibly marked by catastrophic histories Massacre at

Camp Grant Chip Colwell,2015-09-01 Winner of a National Council on Public History Book Award On April 30 1871 an unlikely group of Anglo Americans Mexican Americans and Tohono O odham Indians massacred more than a hundred Apache men women and children who had surrendered to the U S Army at Camp Grant near Tucson Arizona Thirty or more Apache children were stolen and either kept in Tucson homes or sold into slavery in Mexico Planned and perpetrated by some of the most prominent men in Arizona s territorial era this organized slaughter has become a kind of phantom history lurking beneath the Southwest s official history strangely present and absent at the same time Seeking to uncover the mislaid past this powerful book begins by listening to those voices in the historical record that have long been silenced and disregarded Massacre at Camp Grant fashions a multivocal narrative interweaving the documentary record Apache narratives historical texts and ethnographic research to provide new insights into the atrocity Thus drawing from a range of sources it demonstrates the ways in which painful histories continue to live on in the collective memories of the communities in which they occurred Chip Colwell Chanthaphonh begins with the premise that every account of the past is suffused with cultural historical and political characteristics By paying attention to all of these aspects of a contested event he provides a nuanced interpretation of the cultural forces behind the massacre illuminates how history becomes an instrument of politics and contemplates why we must study events we might prefer to forget Toward the Visualization of History Mark Howard

Constructing Patriotism Mario Carretero, 2011-03-01 Memory construction and national identity are key issues in our societies as well as it is patriotism How can we nowadays believe and give sense to traditional narrations that explain the origins of nations and communities How do these narrations function in a process of globalization How should we remember the recent past In the construction of collective memory no doubt history taught at school plays a fundamental role as childhood and adolescence are periods in which the identity seeds flourish vigorously This book analyses how history is far more than pure historical contents given in a subject matter it studies the situation of school history in different countries such as the former URSS United States Germany Japan Spain and Mexico making sensible comparisons and achieving global conclusions The empirical part is based on students interviews about school patriotic rituals very close to the teaching of history specifically carried out in Argentina but very similar to these rituals in other countries The author analyzes in which ways that historical knowledge is understood by students and its influence on the construction of patriotism This book aside from making a major contribution to the cultural psychology field should be of direct interest and relevance to all people interested in the ways education succeeds in its variable functions As a matter of fact it is related to other IAP books as *Contemporary Public Debates Over History Education* Nakou Barca 2010 and *What Shall We Tell the Children* International Perspectives on School History Textbooks Foster Crawford 2006
