**James Wiley**

## **The Presence Of The Past Essays On The State And The Constitution:**

The Presence of the Past Sheldon S. Wolin, 1989      *Materializing Democracy* Russ Castronovo, Dana D.

Nelson, 2002-06-21 Investigates the complex histories and conflicting desires that are generally concealed behind the term democracy      **Politics and the Concept of the Political** James Wile, 2016-05-26 A recent trend in contemporary western political theory is to criticize it for implicitly trying to conquer, displace or moralize politics. James Wile's book takes the next step from criticizing contemporary political theory to showing what a more politics centered political theory would look like by exploring the meaning and value of politics in the writings of Max Weber, Carl Schmitt, Paul Ricoeur, Hannah Arendt, Sheldon Wolin, Claude Lefort, and Ernesto Laclau and Chantal Mouffe. These political theorists all use the concept of the political to explain the value of politics and defend it from its detractors. They represent state centered, republic centered, and society centered conceptions of politics as well as realist, authoritarian, idealist, republican, populist, and radical democratic traditions of political thought. This book compares these theorists and traditions of the political in order to defend politics from its critics and to contribute to the development of a politics centered political theory. *Politics and the Concept of the Political* will be a useful resource to general audiences as well as to specialists in political theory.      The Presence of the Past Sheldon Wolin, 1990-08-01 The Johns Hopkins Series in Constitutional Thought. Sotirios A. Barber and Jeffery K. Tulis, Series Editors.      **The Bloomsbury Encyclopedia of Philosophers in America** John R. Shook, 2016-02-11 For scholars working on almost any aspect of American thought, *The Bloomsbury Encyclopedia of Philosophers in America* presents an indispensable reference work. Selecting over 700 figures from the *Dictionary of Early American Philosophers* and the *Dictionary of Modern American Philosophers*, this condensed edition includes key contributors to philosophical thought. From 1600 to the present day, entries cover psychology, pedagogy, sociology, anthropology, education, theology, and political science before these disciplines came to be considered distinct from philosophy. Clear and accessible, each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings, and suggestions for further reading. Featuring a new preface by the editor and a comprehensive introduction, *The Bloomsbury Encyclopedia of Philosophers in America* includes 30 new entries on twenty-first century thinkers including Martha Nussbaum and Patricia Churchland. With in-depth overviews of Waldo Emerson, Margaret Fuller, Noah Porter, Frederick Rauch, Benjamin Franklin, Thomas Paine, and Thomas Jefferson, this is an invaluable one-stop research volume to understanding leading figures in American thought and the development of American intellectual history.      **Democracy Beyond the Nation State** Joe Parker, 2017-06-26 Explores egalitarian means of governing found in rural villages and urban neighborhoods, indigenous communities, workplaces, social movement organizations, and other everyday local and global settings beyond the nation state.      The Work of Politics Steven Klein, 2020-09-24 This theoretically innovative book shows how democratic social movements can use the welfare state to challenge domination in society.      **Democracy, the Courts,**

**and the Liberal State** David Miles, 2020-10-26 Reformulating a problem of both constitutionalism and liberalism discussed in the works of Ernst Wolfgang Bockenfoerde Hannah Arendt and Alexis de Tocqueville the book examines one generally overlooked manifestation of constitutionalism the role of the courts in shaping democratic politics and the inter relationship between citizens and state Drawing on constitutional history law and political theory David Miles argues that constitutionalism cannot be seen merely as an institutional mechanism to limit government as it also has a crucial civic dimension upon which the liberal state depends Utilising the works of Bockenfoerde Arendt and Tocqueville constitutionalism is conceived in the book as part of a broader system of communal norms which sustains representative democracy and liberalism Through an analysis of judicial interventions in the electoral processes of the United States and Germany Miles explores the role of civil society actors in transforming constitutionalism through legal challenges to oligarchical or exclusionary practices He assesses how in adjudicating these cases the US Supreme Court and the German Constitutional Court have mediated the tension between threats to stability and the imperative of democratic renewal Democracy the Courts and the Liberal State will be of interest to scholars students and practitioners interested in comparative politics political theory and constitutional law and history

**Sheldon Wolin and Democracy** Lucy Cane, 2020-05-12 Lucy Cane presents the first full length study of Sheldon Wolin 1922-2015 an influential theorist of democracy and prescient critic of inverted totalitarianism in the United States She traces the development of Wolin's thinking over sixty years offering an overarching interpretation of his central preoccupations and shifts in perspective Framed around themes of loss and mourning this is not only an intellectual biography but also a critical engagement of Wolin's work with democratic theory more broadly and an assessment of its value for addressing contemporary crises of democracy Cane brings Wolin into conversation with other contemporary theorists from Chantal Mouffe to Edward Said as well as with his direct intellectual influences She argues that his mournful tendencies continue to offer unique insight into the potential loss of local democratic cultures in an era of neoliberal precarity At the same time she questions whether his politics of mourning can adequately grasp the dynamics of democratic coalition building or the value of new political movements and ideas Sheldon Wolin and Democracy remedies a lack of interpretive studies of this key thinker connects divergent strands of contemporary theory and addresses urgent democratic dilemmas It is a must read for all political theorists and others in the academy and beyond who seek to conceptualize the fate of democracy amidst the rise of right wing populist movements in the twenty first century

**Trouble with Democracy** Gerard Rosich, 2016-01-18 Western political thought has long maintained that democracy once achieved is here to stay This view appears to be supported by successive waves of democratisation across the world but in truth the political situation of our time is much more ambiguous On the one hand the commitment to democracy seems to be more widely shared than ever on the other popular will has ever less impact on political decisions because of alleged constraints in an era of globalisation Existing democracies suffer from a combination of technocratic governance and populist

reactions Global political communication has foundered with addressing urgent problems such as climate change global social justice and economic financial crises By placing political condition of our time in its long term historical context this book radically reconsiders key issues of political thought and gives you a comparative exploration of the current experiences of democracy in several world regions      The Constitutional Convention of 1787 John R. Vile, 2005-06-24 The first encyclopedic treatment of the personalities politics and events involved in drafting the U S Constitution This comprehensive treatment of all the personalities philosophies debates and compromises involved in drafting the U S Constitution is the first encyclopedic work on the subject compiling information into an easily accessible A Z format Biographies of all 55 delegates analysis of the competing political viewpoints procedural and substantive disputes along with a host of other details are all presented here Both the detail and the scholarship in this book are unmatched in any other work the encyclopedic presentation simply does not exist elsewhere Civil liberties the scope of authority of the three branches of government and other constitutional matters are increasingly at the forefront of public discussion Scholars citizens interested in self education and reference librarians faced with questions about the Constitution will find in this book all they require to answer their needs      **America's New Working Class** Kathleen R. Arnold, 2008 Today s political controversy over immigration highlights the plight of the working class in this country as perhaps no other issue has recently done The political status of immigrants exposes the power dynamics of the new working class which includes the former labor aristocracy women and people of color This new working class suffers exploitation in advanced industrial countries as the social cost of capitalism s success in a neoliberal and globalized political economy In this book Kathleen Arnold analyzes the role of the state s prerogative power in creating and sustaining this condition of severe inequality for the most marginalized sectors of our population in the United States      Cloaked in Virtue Nicholas Xenos, 2010-05-26 Xenos dissects the political ideas of Leo Strauss by careful attention to his full body of work The result is a critical examination of Strauss s political theory and its influence on the neoconservative foreign policy of the Bush administration      *Democracy and the Politics of the Extraordinary* Andreas Kalyvas, 2008-06-30 Although the modern age is often described as the age of democratic revolutions the subject of popular founding has not captured the imagination of contemporary political thought Most of the time democratic theory and political science treat as the object of their inquiry normal politics institutionalized power and consolidated democracies This study shows why it is important for democratic theory to rethink the question of democracy s beginnings Is there a founding unique to democracies Can a democracy be democratically established What are the implications of expanding democratic politics in light of the question of whether and how to address democracy s beginnings Kalyvas addresses these questions and scrutinizes the possibility of democratic beginnings in terms of the category of the extraordinary as he reconstructs it from the writings of Max Weber Carl Schmitt and Hannah Arendt and their views on the creation of new political symbolic and constitutional orders      *Publius and Political Imagination* Jason Frank, 2013-12-05

Jason Frank's *Publius and Political Imagination* is the first volume of the *Modernity and Political Thought* series to take as its focus not a single author but collaboration between political thinkers in this very special case the collective known by the pseudonym Publius Frank's revisionist reading of *The Federalist Papers* perhaps the most canonical text in American political thought counters familiar realist and deliberativist interpretations and demonstrates the neglected importance of political imagination to both Publius's arguments and to the republic he was invented to found

*Political Theory and the Displacement of Politics* Bonnie Honig, 2023-03-15 *Political Theory and the Displacement of Politics* originally published in 1993 has been called a founding text of agonism which treats political contestation not as a regrettably necessary way to correct political imperfections but as a necessary sometimes joyful feature of democratic life As Bonnie Honig writes in the preface to this thirtieth anniversary edition the agonism that informs this book is democratic it is committed to shared spaces and relational practices in which diverse groups and individuals set and reset the terms of living together as equals By rethinking the established relation between politics and political theory Honig argues that political theorists of opposing positions often treat political theory less as an exploration of politics than as a series of devices for its displacement She characterizes Kant Rawls and Sandel as virtue theorists of politics arguing that they rely on principles of right rationality community and law to protect their political theories from the conflict and uncertainty of political reality Drawing on Nietzsche and Arendt as well as Machiavelli and Derrida Honig instead explores an alternative politics of virtue which treats the disruptions of political order as valued sites of democratic freedom and individuality

*The Lives of Guns* Jonathan Obert, Andrew Poe, Austin Sarat, 2018-09-03 Guns have never been as prevalent in American culture as they are at this moment Most contemporary conversations on guns either highlight the gun as just a tool used in mass killings or a right to be fiercely defended eventually whatever progress these debates foster in the public conversation tend to halt altogether once the old cliché guns don't kill people people kill people is trotted out These gun control and gun violence discussions take the gun as passive object ignoring the changing effects and the very agency that guns may deploy as politicized objects What happens if we reset the conversation and admit that guns and not the people behind them kill people *The Lives of Guns* offers a new and compelling way of thinking about the role of the gun in our social and political lives In gathering ideas from law science studies sociology and politics each chapter turns the stale standard gun conversations around by investigating the gun as an object with agency In approaching guns from a technological perspective down to the very science of how they are created and how they fire *The Lives of Guns* takes up a number of questions such as How does the presence of these objects shape civic ideology What does it mean to develop and care for gun and gun accessories technology What do guns mean to those who build them versus those who fight for and against them What could happen when drone technology meets gun technology In bringing together fresh perspectives from leading lawyers political scientists and historians *The Lives of Guns* promises to move the gun debate forward by opening up new ways of thinking about these issues and broadening the scope

of these perennial debates      *Appeals to Interest* Dean Mathiowetz, 2015-06-13 It has become a commonplace assumption in modern political debate that white and rural working and middle class citizens in the United States who have been rallied by Republicans in the culture wars to vote Republican have been voting against their interests But what exactly are these interests that these voters are supposed to have been voting against It reveals a lot about the role of the notion of interest in political debate today to realize that these interests are taken for granted to be the narrowly self regarding primarily economic interests of the individual Exposing and contesting this view of interests Dean Mathiowetz finds in the language of interest an already potent critique of neoliberal political theoretical and methodological imperatives and shows how such a critique has long been active in the term s rich history Through an innovative historical investigation of the language of interest Mathiowetz shows that appeals to interest are always politically contestable claims about who somebody is and a provocation to action on behalf of that who Appeals to Interest exposes the theoretical and political costs of our widespread denial of this crucial role of interest talk in the constitution of political identity in political theory and social science alike

**Constitutional Domains** Robert Post, 1995-03-19 In a series of remarkable forays Post develops an original account of how law functions in a democratic society He draws on work in sociology philosophy and political theory to offer a radically new perspective on some of the most pressing constitutional issues of our day such as the regulation of racist speech pornography and privacy      *Crimes against Humanity in the Land of the Free* Imani Michelle Scott, 2014-08-20 This vital book considers the compelling and addictive hold that racism has had on centuries of Americans explores historical and contemporary norms complicit in the problem and appeals to the U S government to improve race relations rectify existent social imperfections and guard against future race based abuses Despite an assertion by the founding fathers that all men are created equal and the Fourteenth Amendment to the U S Constitution that guarantees equal protection the race based oppression that has characterized most of America s history shows that in practice our society has rarely measured up to principle Why has deep seated racial conflict in America continued for so long This unprecedented examination into the topic explores the evidence and consequences of what seems to be an addiction to racism in the United States analyzing the related disconnect between our nation s stated moral principles and social realities and assessing how U S citizens of all races can take individual action to start the long needed healing process The contributors to this work present interdisciplinary perspectives and discussions on American history politics philosophy and 21st century psycho social conditions as they relate to the oppression social injustice and racism that have occurred and continue to occur in the United States The discussions allow readers to grasp the serious challenges at hand and direct them towards recognizing the potential for conflict transformation and reconciliation through a non conventional co created Truth Reconciliation and Peace Process TRPP to begin resolving America s dysfunction This is essential reading for anyone who seeks to understand the sources of perpetual racially based conflict disparity and hatred in the United States identify the social injuries of exposure to

centuries of racism move America towards harmonious interracial relationships and improve its international standing as a peace building nation that is truly committed to human rights throughout the world

Thank you totally much for downloading **The Presence Of The Past Essays On The State And The Constitution**. Maybe you have knowledge that, people have see numerous time for their favorite books taking into consideration this The Presence Of The Past Essays On The State And The Constitution, but end occurring in harmful downloads.

### **The Presence Of The Past Essays On The State And The Constitution Introduction**

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free The Presence Of The Past Essays On The State And The Constitution PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process.

and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free The Presence Of The Past Essays On The State And The Constitution PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of The Presence Of The Past Essays On The State And The Constitution free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

### **FAQs About The Presence Of The Past Essays On The State And The Constitution Books**

1. Where can I buy The Presence Of The Past Essays On The State And The Constitution books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores.
