The Press In South Africa:

South Africa's Resistance Press Les Switzer, Mohamed Adhikari, 2000 South Africa's Resistance Press is a collection of essays celebrating the contributions of scores of newspapers, newsletters and magazines that confronted the state in the generation after 1960. These publications contributed in no small measure to reviving a mass movement inside South Africa that would finally bring an end to apartheid. This marginalized press had an impact on its audience that cannot be measured in terms of the small number of issues sold, the limited amount of advertising revenue raised or the relative absence of effective marketing and distribution strategies. These journalists rendered communities visible that were too often invisible and provided a voice for those too often voiceless. They contributed immeasurably to broadening the concept of a free press in South Africa. The guardians of the new South Africa owe these publications a debt of gratitude that cannot be repaid.

The Press and Apartheid William A. Hachten, C. Anthony Giffard, 1984-06-18 **South Africa and the International Media, 1972-1979** James Sanders, 2012-10-12 This book studies the Anglo-American media's representation of South Africa in the 1970s. The international media is shown to have been under continuous pressure from both the South African Dept of Information and the anti-apartheid movement. **The Alternative Press in South Africa** Keyan G. Tomaselli, P. Eric Louw, 1991

The Press in South Africa Keyan G. Tomaselli, Ruth Teer-Tomaselli, Johan Muller, 1987 **Press Freedom in Africa** Herman Wasserman, 2013-09-13 This book gives an overview of current debates surrounding press freedom in Africa in response to ongoing contestations between media and governments on the continent. Through case studies of individual African countries as well as international comparisons, a wide range of global contributors provide critical assessments of the state of press freedom on the continent and critical perspectives on the dominant discourses around freedom and democracy. Some fear an alarming slide towards a media intolerant environment in South Africa and the proposed Media Appeals Tribunal and the Protection of State Information Bill (POSIB) have met with strong criticism from journalism practitioners and educators. This book examines these and other recent developments seen to represent a threat to press freedom on the African continent. Contributors to the volume take a comparative look at the situation in South Africa within a broader global context of transitions to democracy and globalised marketization of the media as well as inspecting specific African examples that may serve to illuminate broader trends. Case studies from different African countries are examined but in the process the discourses around press freedom are also subjected to critical scrutiny. Critics state that the South African media are not without fault and that part of journalism scholarship's role is to continue to point to these shortcomings and to suggest ways of improving the media's democratic responsibility. Press Freedom in Africa provides a range of perspectives on the heated debates surrounding press freedom. It illustrates the importance of research-based scholarly interventions into the often emotional and rhetorical debates surrounding the role of the media in African society. This book was originally published as a special issue of *Ecquid Novi* African Journalism Studies. *The Press in South Africa*

Keyan G. Tomaselli, Ruth Teer-Tomaselli, Johan Muller, 1989 *Media in Postapartheid South Africa* Sean Jacobs, 2019-03-11

In *Media in Postapartheid South Africa* author Sean Jacobs turns to media politics and the consumption of media as a way to understand recent political developments in South Africa and their relations with the African continent and the world. Jacobs looks at how mass media define the physical and human geography of the society and what it means for comprehending changing notions of citizenship in postapartheid South Africa. Jacobs claims that the media have unprecedented control over the distribution of public goods, rights, claims, and South Africa's integration into the global political economy in ways that were impossible under the state-controlled media that dominated the apartheid years. Jacobs takes a probing look at television commercials and the representation of South Africans' reality, television shows, and South African continental expansion, soap operas, and postapartheid identity politics and the internet as a space for reassertions and reconfigurations of identity. As South Africa becomes more integrated into the global economy, Jacobs argues that local media have more weight in shaping how consumers view these products in unexpected and consequential ways. The Handbook of Communication History addresses central ideas, social practices, and media of communication as they have developed across time, cultures, and world geographical regions. It attends to both the varieties of communication in world history and the historical investigation of those forms in communication and media studies. The Handbook editors view communication as encompassing patterns, processes, and performances of social interaction, symbolic production, material exchange, institutional formation, social praxis, and discourse. As such, the history of communication cuts across social, cultural, intellectual, political, technological, institutional, and economic history. The volume examines the history of communication, the history of ideas of communication, the history of communication media, and the history of the field of communication. Readers will explore the history of the object under consideration, relevant practices, media, and ideas; review its manifestations in different regions and cultures; comparative dimensions; and orient toward current thinking and historical research on the topic. Current state of the field. As a whole, the volume gathers disparate strands of communication history into one volume, offering an accessible and panoramic view of the development of communication over time and geographical places and providing a catalyst to further work in communication history.

United States Relations with South Africa Y. G.-M. Lulat, 2008

Relations between the United States and South Africa or the parts of the world these nations now occupy go nearly as far back as the very beginning of their inception as permanent European colonial intrusions. This book is a critical overview of these relations from the late seventeenth century to the present. Unprecedented in its scope and supported by substantive and detailed notes together with an extensive bibliography, chronology, glossary, and appendices, the book distinguishes itself from extant works in a number of other ways.

Set against the backdrop of a wider interdisciplinary exploration of both ideational and structural issues of historical context it not only gives attention to the importance of contributions from nonofficial actors in shaping official relations but also considers the impact of the geo political location of South Africa within southern Africa where the presence of other nations particularly Angola Mozambique Namibia and Zimbabwe looms large Methodologically written from the perspectives of both traditional narrative history and Khaldunian interpretive historical analysis the book consequently sits at the interdisciplinary interstice of political economy and sociology where the aim is to advance our understanding of the Braudelian interconnectedness of world history as an important diachronic determinant of the diplomacy of foreign relations Written for both scholars and policy analysts this book s examination of the agency of the marginalized should also be of interest to activists and the reading public

Elections and TV News in South Africa Bernadine Jones, 2021-08-02 This book takes television news seriously Over the course of nine chapters Elections and TV News in South Africa shows how six democratic South African general elections 1994 2019 were represented on both local and international news broadcasts It reveals the shifting narratives about South African democracy coupled with changing and challenging political journalism practices The book is organised in three parts the first contains a history of South African democracy and an overview of the South African media environment The second part is a visual analysis of the South African elections on television news exploring portrayals of violence security power and populism and how these fit into normative news values and the ruling party s tightening grip on the media The final part is a conclusion a call to action and a suggestion to improve political journalistic practice

Media and the Empire Ruth Teer-Tomaselli, Donal McCracken, 2017-10-02 This volume on print and broadcast media in the 19th and 20th centuries highlights the pivotal role that the media played in the establishment and maintenance of imperial power The media bolstered both the ideological and financial objectives of the empire in a myriad of overt covert and downright scandalous ways From jeopardising the introduction of wireless telegraphy in order to maximise the financial gains of the investors of under sea cabling to newspaper proprietors cashing in on the thrilling wonderful and sometimes fabricated adventures of war correspondents in exotic lands the media has had a constant background influence in the public s perception of empire By covering diverse topics from Anthony Lejeune s radio talk show London Letters which supported the Allies by boosting morale and providing a link between soldiers fighting abroad and their families during both World Wars to the complete subversion of imperial influence as in the case of the proliferation of diverse media platforms being used by migrant communities in Britain as a means to promote colonization in reverse the book hints at the politics suspense and intrigue of both the print and broadcast sectors This book was originally published as a special issue of Critical Arts

The Media and Elections Bernd-Peter Lange, David Ward, 2004-05-20 This comparative study brings together academics and practitioners who work in the field of media and elections to provide a set of national case studies and an analysis of the legal and regulatory frameworks that are employed by nation states to ensure that the media perform

according to certain standards during election periods In setting out the legal and regulatory framework each chapter provides an account of the socio political conditions and media environment in each of the countries and subsequently details the laws that govern the print and broadcast media during election campaign periods The countries included are France Germany Italy Russia South Africa the United States and the United Kingdom A set of reflections by a Member of the European Parliament and a set of recommendations for good practice in media and elections are also included Thus the book is organized to provide a practical guide so that it can be used as a handbook *Media and the British Empire* C.

Kaul,2006-03-28 The only true history of a country wrote Thomas Macaulay is to be found in its newspapers This book explores how the media shaped and defined the economic social political and cultural dynamics of the British Empire by viewing it from the perspective of the colonised as well as the colonisers Press Freedom and Communication in Africa Festus Eribo,William Jong-Ebot,1997 Recent years have seen considerable growth in the media in Africa with increases in the number of newspapers and radio and television stations At the same time there has been an increase in the number of arrests of journalists and broadcasters and various forms of censorship have been introduced The essays in this volume examine press censorship past and present and bring a fresh perspective to the position of the mass media in the African continent

Private Print Media, the State and Politics in Colonial and Post-Colonial Zimbabwe Sylvester Dombo,2017-10-14 This book examines the role played by two popular private newspapers in the struggle for democracy in Zimbabwe one case from colonial Rhodesia and the other from the post colonial era It argues that operating under oppressive political regimes and in the dearth of credible opposition political parties or as a platform for opposition political parties the African Daily News between 1956 1964 and the Daily News between 1999 2003 played an essential role in opening up spaces for political freedom in the country Both newspapers were ultimately shut down by the respective government of the time The newspapers allowed reading publics the opportunity to participate in politics by providing a daily analytical alternative to that offered by the government and the state media in relation to the respective political crises that unfolded in each of these periods The book further examines both the information policies pursued by the different governments and the way these affected the functioning of private media in their quest to provide an ideal public sphere It explores issues of ownership funding and editorial policies in reference to each case and how these affected the production of news and issue coverage It considers issues of class and geography in shaping public response It also focuses on state reactions to the activities of these newspapers and how these in turn affected the activities of private media actors Finally it considers the cases together to consider the meanings of the closing down of these newspapers during the two eras under discussion and contributes to the debates about print media vis vis the new forms of media that have come to the fore
