The Price of Admiralty: an Indictment of the Royal Navy 1805-1966 Stanley Bonnett, 1968 **English/British Naval History to 1815** Eugene L. Rasor, 2004-10-30 The English British have always been known as the sailor race with hearts of oak the Royal Navy as the Senior Service and First Line of Defense It facilitated the motto The sun never set on the British Empire The Royal Navy has exerted a powerful influence on Great Britain its Empire Europe and ultimately the world This superior annotated bibliography supplies entries that explore the influence of the English British Navy through its history This survey will provide a major reference guide for students and scholars at all levels It incorporates evaluative qualitative and critical analysis processes the essence of historical scholarship Each one of the 4 124 annotated entries is evaluated assessed analyzed integrated and incorporated into the historiographical scholarship **Private Property, Government Requisition and the Constitution, 1914-1927** G. R. Rubin, 1994-01-01 Private Property Government Requisition and the Constitution 1914 1927 ranges widely over different types of property including aerodromes ships hotels pubs alcoholic drinks and foodstuffs the history of whose requisition by the wartime state is carefully documented It shows how the state in this as in many areas was forced to act by immediate pressures often improvising rights over areas of life previously outside the power of government by doing so it documents a key stage in the growth of centralised power in modern Britain The Myth of the Press Gang Jeremiah Ross Dancy, 2015 Overturns the generally held view that the press gang was the main means of recruiting seamen by the British navy in the late eighteenth century SHORTLISTED for the Society for Nautical Research s prestigious Anderson Medal The press gang is generally regarded as the means by which the British navy solved the problem of recruiting enough seamen in the late eighteenth century This book however based on extensive original research conducted primarily in a large number of ships muster books demonstrates that this view is false It argues that in fact the overwhelming majority of seamen in the navy were there of their own free will Taking a long view across the late eighteenth century but concentrating on the period of the French Revolutionary and Napoleonic Wars of 1793 1815 the book provides great detail on the sort of men that were recruited and the means by which they were recruited and includes a number of individuals stories It shows how manpower was a major concern for the Admiralty how the Admiralty put in place a range of recruitment methods including the quota system how it worried about depleting merchant shipping of sufficient sailors and how although most seamen were volunteers the press gang was resorted to especially during the initial mobilisation at the beginning of wars and to find certain kinds of particularly skilled seamen The book also makes comparisons with recruitment methods employed by the navies of other countries and by the British army J Ross Dancy is Assistant Professor of History at Sam Houston State University *Private Property, Government Requisition and the Constitution, 1914-27* G. R. Rubin, 1994-07-01 Private Property Government Requisition and the Constitution 1914 1927 ranges widely over different types of property including aerodromes ships hotels pubs alcoholic drinks and foodstuffs the

history of whose requisition by the wartime state is carefully documented It shows how the state in this as in many areas was forced to act by immediate pressures often improvising rights over areas of life previously outside the power of government by doing so it documents a key stage in the growth of centralised power in modern Britain

The Challenges of Command Robert L. Davison, 2016-04-01 In the period leading up to the First World War Britain's naval supremacy was challenged by an arms race with Germany fuelled not only by military and geo strategic rivalries but an onrush of technological developments As this book demonstrates steam turbines bigger guns mechanical computing devices and ever increasing tonnage meant that the Royal Navy was forced to confront many long cherished beliefs and sensitive social and political issues By looking at key continuities over the period of 1880-1919 the study explores how the service and its officers attempted to deal with fundamental changes in professional requirements and how cultural and social values underwent a transformation in the run up to the First World War In particular the book looks at how the executive officer corps was presented with a revolution in naval affairs As the Navy was transformed into an industrialized workplace officers were challenged by an alteration in the culture of command as arrangements carried over from the days of sail began to breakdown under the practical requirements of a steam and steel fleet The book charts the ebb and flow of the debate and the various ideas put forward to deal with the structural challenges faced by the Royal Navy The writings of reformers and commentators such as Fisher Beresford Corbett Laughton and Mahan provide the background to the specific problems faced and are analysed both in relation to the nature of the reforms implemented and more crucially the performance of the Senior Service during the First World War

Pax Britannica B. Gough, 2014-07-28 This book by world expert Barry Gough examines the period of Pax Britannica in the century before World War I Following events of those 100 years the book follows how the British failed to maintain their global hegemony of sea power in the face of continental challenges

Special Bibliographic Series US Army Military History Research Collection, 1978 *Churchill and Fisher* Barry Gough, 2017-10-06 A vivid study of the politics and stress of high command this book describes the decisive roles of young Winston Churchill as political head of the Admiralty during the First World War Churchill was locked together in a perilous destiny with the ageing British Admiral Jacky Fisher the professional master of the British Navy and the creator of the enormous battleships known as Dreadnoughts Upon these Titans at the Admiralty rested British command of the sea at the moment of its supreme test the challenge presented by the Kaiser's navy under the dangerous Admiral Alfred von Tirpitz Churchill and Fisher had vision genius and energy but the war unfolded in unexpected ways There were no Trafalgars no Nelsons Press and Parliament became battlegrounds for a public expecting decisive victory at sea An ill fated Dardanelles adventure by ships alone as Churchill determined on top of the Zeppelin raids on Britain brought about Fisher's departure from the Admiralty in turn bringing down Churchill They spent the balance of the war in the virtual wilderness This dual biography based on fresh and thorough appraisal of the Churchill and Fisher papers is a story for any military history buff It is about Churchill's and Fisher's

s war how each fought it how they waged it together and how they fought against each other face to face or behind the scenes It reveals a strange and unique pairing of sea lords who found themselves facing Armageddon and seeking to maintain the primacy of the Royal Navy the guardian of trade the succour of the British peoples and the shield of Empire

Genesis of the Grand Fleet Christopher Buckey, 2021-05-15 *Genesis of the Grand Fleet* The Admiralty Germany and the Home Fleet 1896 1914 tells the story of the prewar predecessor to the Royal Navy s war winning Grand Fleet the Home Fleet Established in early 1907 by First Sea Lord Sir John Fisher the Home Fleet combined an active core of powerful armored warships with a unification of the various reserve divisions of warships previously under the control of the three Royal Navy home port commands Fisher boasted that the new Home Fleet would be able to counter the growing German Hochseeflotte While these boasts were accurate they were not the sole motivation behind the Home Fleet s establishment The Liberal Party s landslide victory in the 1906 General Election made fiscal economy on the part of the Admiralty even more important than before and this significantly influenced the Home Fleet s creation Subsequently the Home Fleet suffered a sustained campaign of criticism by the commander in chief of the Channel Fleet Lord Charles Beresford This campaign ruined many careers including Beresford s and resulted in the assimilation of the Channel Fleet into the Home Fleet in 1909 From 1910 onward the Home Fleet steadily evolved and became the most important single command in the Royal Navy and the Home Fleet s successive commanders in chief had influence on strategic policy rivaled only by the Board of Admiralty The last prewar commander of the Home Fleet Admiral Sir George Callaghan achieved this influence by impressing the civilian head of the Admiralty Winston Churchill A driven reformer Churchill s influence was almost as important as Fisher s Against this backdrop of political drama *Genesis of the Grand Fleet* The Admiralty Germany and the Home Fleet 1896 1914 explains how Britain maintained its maritime preeminence in the early twentieth century As Christopher Buckey describes the fleet sustained Britain and her allies path to victory in World War I
