Today Martin Bulmer, John Solomos, 1999 Drawing on the latest research the authors provide a full account of key controversies and debates and pinpoint new directions in research and scholarship that are likely to shape the study of race and ethnicity well into the future **The Territorial Management of Ethnic Conflict** John Coakley, 2004-08-02 The object

of this book is to look at the manner in which states attempt to cope with ethnic conflict through territorial approaches This revised edition has new chapters covering Northern Ireland South Africa and Yugoslavia Language, Ethnic Identity and the State William Safran, J.A. Laponce, 2014-02-04 This new study powerfully asserts the pivotal importance of the interplay between language and ethnicity which is often underestimated as a component for political stability These leading scholars present five key case studies of South Africa Algeria Canada Latvia and Senegal All five countries are multilingual nations where language has been a central political issue that has challenged their unity and stability These studies are underpinned by two general comparative and theoretical discussions which analyse how scholars consider social class and economic factors to be the primary sources for political cohesion or of malcontent with the system and the new avenues opened by a focus on issues of language This book will be of great interest to all students and scholars of linguistics language politics and sociology This is a special issue of the leading journal Nationalism and Ethnic Politics **Everyday Identity and Electoral**

Politics Adam S. Harris, 2022 In Everyday Identity and Electoral Politics Adam S Harris explores how social identities such as ethnicity and race influence politics economic development and voting behavior in Sub Saharan Africa Drawing upon original survey data interviews focus groups and participant observations Harris conceptualizes a theory of identity

construction that both predicts differences in vote choice and theorizes how the identity construction process shapes differential outcomes in vote choice within ethnic groups It is one of the first studies that directly links the every day ethnic identity construction process with voting behavior and it is the first to do so using a continuous conceptualization of ethnicity i e one capable of shifting over time *Ethnicity, Class, and Nationalism* Anton L. Allahar, 2005-06-28 Celebrants of an ever emerging globalization fly the banner of free trade the mass marketization of once faltering economies and rising economic and social standards for all Many opponents to globalization rightfully point out that borders still exist largely for the purposes of keeping one commodity in its place the labor commodity or the more familiar immigrant Arguments of this type are often steeped in economic and social discourse Race and ethnicity are seen as either being subsumed by this discourse or are entirely ignored as incidental to this type of political thought In *Ethnicity Class and Nationalism Caribbean and Extra Caribbean Dimensions* specialists writing on the Caribbean form of the nation state place race and ethnicity along with class in its proper context at the very foundations of the modern nation Editor Anton L Allahar has handpicked scholarship that is both contemporary and expert in its consideration of Caribbean geo politics Furthermore essays in this volume include comparative cases from around the globe In the interest of locating race and ethnicity as sociological and political categories that are inimical to contemporary conceptions of the nation state Allahar explores spaces other than the Caribbean The result is a comparative study that is unique in scope and also in its level of scholarly reflection This book is the first of its kind It is essential reading for anyone interested in advancing their analysis of political economic social and cultural thought in the Caribbean **John F. Kennedy, Barack Obama, and the Politics of Ethnic Incorporation and Avoidance** Robert C. Smith, 2013-02-19 Political analysts and journalists often draw analogies between John F Kennedy the first Catholic Irish president and Barack Obama the first African American president Their election to the nation's highest office was historic but for reasons not fully appreciated In *John F Kennedy Barack Obama and the Politics of Ethnic Incorporation and Avoidance* Robert C Smith provides a fascinating comparison of the challenges both men faced in their bid for the presidency while at the same time providing comparative histories of the Catholic Irish and African American struggles to overcome racial and religious subordination in America Kennedy's Catholicism was an explicit issue in the 1960 election and once elected he was extremely careful to avoid appearing either too Irish or too Catholic While Obama's race was not an explicit issue in the 2008 election he was just as careful to avoid appearing too black Paradoxically religion thanks to rumors and lies about whether Obama was a Muslim became a substitute for race allowing Republican strategists to otherize Obama by raising the issue of religion in the context of national security and terrorism *The Roots of Ethnic Conflict in Africa* Wanjala S. Nasong'o, 2016-01-26 This book focuses on the problem of ethnic conflict in Africa and seeks to explain its root causes The main thesis of the book is that ethnic political mobilization is essentially a function of deeply felt grievances on the part of the groups so mobilized **Ethnic Conflict In World Politics** Barbara Harff, Ted Robert Gurr, 2018-04-24 This second edition

of Ethnic Conflict in World Politics is an introduction to a new era in which civil society states and international actors attempt to channel ethnic challenges to world order and security into conventional politics From Africa s post colonial rebellions in the 1960s and 1970s to anti immigrant violence in the 1990s the authors survey the historical geographic and cultural diversity of ethnopolitical conflict Using an analytical model to elucidate four well chosen case studies the Kurds the Miskitos the Chinese in Malaysia and the Turks in Germany the authors give students tools for analyzing emerging conflicts based on the demands of nationalists indigenous peoples and immigrant minorities throughout the world The international community has begun to respond more quickly and constructively to these conflicts than it did to civil wars in divided Yugoslavia and genocide in Rwanda by using the emerging doctrines of proactive peacemaking and peace enforcement that are detailed in this book Concludes by identifying five principles of international doctrine for managing conflict in ethnically diverse societies The text is illustrated with maps tables and figures *The Rise of Ethnic Politics in Nepal* Susan I.

Hangen,2009-12-04 This book argues that ethnic politics have the potential to strengthen rather than destabilize democracy It studies one of Nepal s most significant social movements and examines the role it has played in the process of democratization in Nepal It demonstrates that ethnic parties are not antithetical to democracy and that democratization can proceed in diverse and unexpected ways *Nation, Ethnicity and the Conflict in Afghanistan* Raghav Sharma,2016-07-15

Ethnic and tribal loyalties in Afghanistan provided the lethal cocktail for the violent conflict that engulfed the country following the collapse of the Soviet backed government in 1992 The ensuing fighting between mujahideen groups paved the way for the tectonic social and political shifts which continue to shape events today What accounts for the emergence of ethnicity as the main cause of conflict in Afghanistan What moved people to respond with such fervour and intensity to calls for ethnic solidarity This book attempts to make sense of ethnicity s decisive role in Afghanistan through a comprehensive exploration of its nature and perception Based on new data generated through interviews field notes and participant observations Sharma maps the increased role of ethnicity in Afghan national politics Key social political and historical processes that facilitated its emergence as the pre dominant fault line of conflict are explored moving away from grand political and military narrative to instead engage with zones of conflict as social spaces This book will be of interest to students and scholars working in politics ethnic studies and security studies *Ethnic Studies* Philip Q. Yang,2000-04-13

Defines the field of ethnic studies and explores its methodologies **The Roots of Ethnic Cleansing in Europe** H. Zeynep Bulutgil,2016-09-15 Brings together arguments focussing on domestic and international factors to offer a coherent theory of the causes of ethnic cleansing **Constructivist Theories of Ethnic Politics** Kanchan Chandra,2012-03-15 Constructivist Theories of Ethnic Politics rebuilds theories of the relationship between ethnicity politics and economics on a constructivist foundation according to which ethnic identities can change over time often in response to the very phenomena they are used to explain Taking the possibility of change in ethnic identity into account it shows dismantles the theoretical logics linking

ethnic diversity to negative outcomes such as democratic destabilization or state collapse or secession Even more importantly this book defines new research agendas by changing the questions we can ask about the relationship between ethnicity politics and economics
