The Politics Of Inclusion And Exclusion Jews And Nationalism In Hungary:

The Politics of Inclusion and Exclusion Vera Ranki, 1999 The case of Hungarian Jews in the 19th 20th centuries first included in the Hungarian nation and then after 1919 excluded from it is a poignant illustration of the changing politics of nationalism and the process of exclusion to the point of genocide Hungarian nationalism which emerged in the 19th century construed the nation as a cultural entity and tended to include Hungarian speaking assimilated Jews in the dominant Magyar minority of the Kingdom The treaty of Trianon changed the formula of Hungarian nationalism and made the Jews not only outsiders but also a social hindrance Antisemitism which was a rather marginal phenomenon in the 19th century became a cornerstone of the official ideology under Horthy Horthy's Hungary cooperated willingly with the Nazis in the solution of the Jewish question The anti Jewish laws of 1938-41 were enacted without Nazi pressure and were supported by popular opinion The regime was also instrumental in the deportation of Jews in 1944 Thus the Holocaust in Hungary was a direct outcome of the country's interwar nationalism Tragically the Jews of Hungary relied on the assimilationist social contract up to the end of the war they believed in dialogue with the authorities and did not protest

Laboratory for World Destruction Robert S. Wistrich, 2007 Published and distributed for the Vidal Sassoon International Center for the Study of Antisemitism During the sixty years between the founding of Bismarck's German Empire and Hitler's rise to power German speaking Jews left a profound mark on Central Europe and on twentieth century culture as a whole How would the modern world look today without Einstein Freud or Marx Without Mahler Schoenberg Wittgenstein or Kafka Without a whole galaxy of other outstanding Jewish scientists poets playwrights composers critics historians sociologists psychoanalysts jurists and philosophers How was it possible that this vibrant period in Central European cultural history collapsed into the horror and mass murder of the Nazi Holocaust Was there some connection between the dazzling achievements of these Jews and the ferocity of the German backlash Robert S Wistrich's Laboratory for World Destruction is a bold and penetrating study of the fateful symbiosis between Germans and Jews in Central Europe which culminated in the tragic denouement of the Holocaust Wistrich shows that the seeds of the catastrophe were already sown in the Hapsburg Empire which would become in Karl Kraus's words an experimental station in the destruction of the world Featured are incisive chapters on Freud Herzl Lueger Kraus Nordau Nietzsche and Hitler along with a sweeping panorama of the golden age of Central European Jewry before the lights went out in Europe

The Politics of Inclusion and Exclusion Vera Ranki, 1999 Ranki a founding member and Honorary Research Associate at the Center for Comparative Genocide Studies Macquarie University traces the social history of Hungarians and Jews showing how in less than 100 years state policies shifted from demanding and welcoming assimilation to institutionalized anti-Semitism The case of Hungary provides a poignant illustration of the failure of inclusion through assimilation and of the role of the political ethos the state and of legal institutions in the process of institutionalizing exclusion

Jews, Nazis and the Cinema of Hungary David

Frey,2017-02-28 Between 1929 and 1942 Hungary's motion picture industry experienced meteoric growth. It leapt into Europe's top echelon, trailing only Nazi Germany and Italy in feature output. Yet by 1944 Hungary's cinema was in shambles, internal and external forces having destroyed its unification experiments and productive capacity. This original cultural and political history examines the birth, unexpected ascendance, and wartime collapse of Hungary's early sound cinema by placing it within a complex international nexus. Detailing the interplay of Hungarian cultural and political elites, Jewish film professionals and financiers, Nazi officials, and global film moguls, David Frey demonstrates how the transnational process of forging an industry designed to define a national culture proved particularly contentious and surprisingly contradictory in the heyday of racial nationalism and antisemitism. **Hungarian Jews in the Age of Genocide** Ferenc Laczó,2016-09-12

Hungarian Jews, the last major Jewish community in the Nazi sphere of influence by 1944, constituted the single largest group of victims of Auschwitz-Birkenau. In *Hungarian Jews in the Age of Genocide*, Ferenc Laczó draws on hundreds of scholarly articles, historical monographs, witness accounts, as well as published memoirs to offer a pioneering exploration of how this prolific Jewish community responded to its exceptional drama and unprecedented tragedy. Analysing identity options, political discourses, historical narratives, and cultural agendas during the local age of persecution, as well as the varied interpretations of persecution and annihilation in their immediate aftermath, the monograph places the devastating story of Hungarian Jews at the dark heart of the European Jewish experience in the 20th century. **Everyday Nationalism in Hungary** Alexander Maxwell,2019-09-23

This book examines Hungarian nationalism through everyday practices that will strike most readers as things that seem an unlikely venue for national politics. Separate chapters examine nationalized tobacco, nationalized wine, nationalized moustaches, nationalized sexuality, and nationalized clothing. These practices had other economic, social, or gendered meanings: moustaches were associated with manliness, wine with aristocracy, and so forth. The nationalization of everyday practices thus sheds light on how patriots imagined the nation's economic, social, and gender composition. Nineteenth-century Hungary thus serves as the case study in the politics of everyday nationalism. The book discusses several prominent names in Hungarian history but in unfamiliar contexts. The book also engages with theoretical debates on nationalism, discussing several key theorists. Various chapters specifically examine how historical actors imagine relationship between the nation and the state, paying particular attention to Rogers Brubaker's constructivist approach to nationalism without groups, Michael Billig's notion of banal nationalism, Carole Pateman's ideas about the nation as a national brotherhood, and Tara Zahra's notion of national indifference. *In the Children's Best Interests* Lynne Taylor,2017-01-01

Among the hundreds of thousands of displaced persons in Germany at the end of World War II, approximately 40,000 were unaccompanied children. These children, of every age and nationality, were without parents or legal guardians, and many were without clear identities. This situation posed serious practical, legal, ethical, and political problems for the agencies responsible for their care. *In the Children's Best Interests* by Lynne Taylor is the first work to delve deeply into the records of the United

Nations Relief and Rehabilitation Administration UNRRA and the International Refugee Organization IRO and reveal the heated battles that erupted amongst the various entities military governments and NGOs responsible for their care and disposition The bitter debates focused on such issues as whether a child could be adopted what to do with illegitimate and abandoned children and who could assume the role of guardian The inconclusive nationality of these children meant they became pawns in the battle between East and West during the Cold War Taylor s exploration and insight into the debates around national identity and the privilege of citizenship challenges our understanding of nationality in the postwar period

ghetto area but by the authorities designating dispersed apartment buildings as ghetto houses The almost 2 000 buildings were spread throughout the entire city and the non Jewish concierges serving in these houses represented the link between the outside and the inside world The empowerment of these building managers happened as a side effect of the anti Jewish legislation and these concierges found themselves in an intermediary position between the authorities and the citizens
