Politics of Military Base Closings ,2003 **The Politics of Military Base Closings** Lilly J. Goren,2003 This book investigates new patterns of evasive delegation and dedistributive policymaking by the U S Congress whereby Congress delegates its decision making power to ad hoc commissions or implements constraints that compel it to make decisions within prescribed limits Elected public officials seem unwilling to make or believe themselves unable to be held responsible for dedistributive policy Thus means are devised to actually make the decisions while allowing elected officials to evade responsibility The Base Realignment and Closing Commission BRAC which aimed to get politics out of military base closings is a quintessential example of such means At the heart of these considerations is the question of with whom or where responsibility should rest The American people are left to decide whether to hold unelected and more or less unsupervised individuals commissions and the like responsible for their greater well being while officially elected individuals quietly cede responsibility **Military Base Closure** David S. Sorenson,2006-11-30 Between 1988 and 1995 the Base Realignment and Closure BRAC Commission closed down 97 bases and realigned over 350 other bases A hot button topic in the military field base closings is an important issue that affects not only soldiers but ordinary citizens as well Due to their massive economic significance for local and regional communities military bases impact thousands of people and thus encompass various political interests between local state and national levels This reference work investigates the politics and key political figures involved in base closing decisions and considers various reasons why bases have been and continue to be closed down An overview of the U S military base infrastructure as well as primary documents is included to help students understand the BRAC Commission process between 1988 2005 The book also analyzes the closure of overseas bases outside of the BRAC process Ideal for high school undergraduate and graduate students this comprehensive handbook is the only complete reference guide to military base closings Between 1988 and 1995 the Base Realignment and Closure BRAC Commission closed down 97 bases and realigned over 350 other bases A hot button topic in the military field base closings is an important issue that affects not only soldiers but ordinary citizens as well Due to their massive economic significance for local and regional communities military bases impact thousands of people and thus encompass various political interests between local state and national levels This reference work investigates the politics and key political figures involved in base closing decisions and considers various reasons why bases have been and continue to be closed down An overview of the U S military base infrastructure as well as primary documents are included to help students understand the BRAC Commission process between 1988 2005 Ideal for high school undergraduate and graduate students this comprehensive handbook is the only complete reference guide to military base closings *The Presidential Leadership Dilemma* Julia R. Azari,Lara M. Brown,Zim G. Nwokora,2013-04-01 Examines how the president balances the competing demands of leading his political party and leading the nation **Congressional Ambivalence** Jasmine Farrier,2010-04-30 Is the United States Congress

dead alive or trapped in a moribund cycle When confronted with controversial policy issues members of Congress struggle to satisfy conflicting legislative representative and oversight duties These competing goals along with the pressure to satisfy local constituents cause members of Congress to routinely cede power on a variety of policies express regret over their loss of control and later return to the habit of delegating their power This pattern of institutional ambivalence undermines conventional wisdom about congressional party resurgence the power of oversight and the return of the so called imperial presidency In *Congressional Ambivalence* Jasmine Farrier examines Congress's frequent delegation of power by analyzing primary source materials such as bills committee reports and the Congressional Record Farrier demonstrates that Congress is caught between abdication and ambition and that this ambivalence affects numerous facets of the legislative process Explaining specific instances of post delegation disorder including Congress's use of new bills obstruction public criticism and oversight to salvage its lost power Farrier exposes the tensions surrounding Congress's roles in recent hot button issues such as base closing commissions presidential trade promotion authority and responses to the attacks of September 11 She also examines shifting public rhetoric used by members of Congress as they emphasize in institutionally self conscious terms the difficulties of balancing their multiple roles With a deep understanding of the inner workings of the federal government Farrier illuminates a developing trend in the practice of democracy

The Government Taketh Away Leslie A. Pal, R. Kent Weaver, 2003-04-01 Democratic government is about making choices Sometimes those choices involve the distribution of benefits At other times they involve the imposition of some type of loss a program cut increased taxes or new regulatory standards Citizens will resist such impositions if they can or will try to punish governments at election time The dynamics of loss imposition are therefore a universal if unpleasant element of democratic governance *The Government Taketh Away* examines the repercussions of unpopular government decisions in Canada and the United States the two great democratic nations of North America Pal Weaver and their contributors compare the capacities of the U S presidential system and the Canadian Westminster system to impose different types of losses symbolic losses gun control and abortion geographically concentrated losses military base closings and nuclear waste disposal geographically dispersed losses cuts to pensions and to health care and losses imposed on business telecommunications deregulation and tobacco control Theory holds that Westminster style systems should all things being equal have a comparative advantage in loss imposition because they concentrate power and authority though this can make it easier to pin blame on politicians too The empirical findings of the cases in this book paint a more complex picture Westminster systems do appear to have some robust abilities to impose losses and US institutions provide more opportunities for loss avoiders to resist government policy in some sectors But in most sectors outcomes in the two countries are strikingly similar *The Government Taketh Away* is essential for the scholar and students of public policy or comparative policy It is also an important book for the average citizen who wants to know more about the complexities of living in a democratic society where the government can give but how it can also sometimes

Democracy and Administration Brian J. Cook,2007-03-04 Though his term in the White House ended nearly a century ago Woodrow Wilson anticipated the need for new ideas to address the effects of modern economic and social forces on the United States including increased involvement in international affairs Democracy and Administration synthesizes the former world leader s thought on government administration laying out Wilson s concepts of how best to manage government bureaucracies and balance policy leadership with popular rule Linking the full gamut of Wilson s ideas and actions covering nearly four decades Brian J Cook finds success folly and fresh thinking with relevance in the twenty first century Building on his interpretive synthesis Cook links Wilson s tenets to current efforts to improve public management showing how some of his most prominent ideas and initiatives presaged major developments in theory and practice Democracy and Administration calls on scholars and practitioners to take Wilson s institutional design and regime level orientation into account as part of the ambitious enterprise to develop a new science of democratic governance **Military Base Closures** United States.
