Funding Public Schools Kenneth K. Wong, 1999 This book examines the fundamental role of politics in funding our public schools and fills a conceptual imbalance in the current literature in school finance and educational policy Unlike those who are primarily concerned about cost efficiency Kenneth Wong specifies how resources are allocated for what purposes at different levels of the government In contrast to those who focus on litigation as a way to reduce funding gaps he underscores institutional stalemate and the lack of political will to act as important factors that affect legislative deadlock in school finance reform Wong defines how politics has sustained various types of rules that affect the allocation of resources at the federal state and local level While these rules have been remarkably stable over the past twenty to thirty years they have often worked at cross purposes by fragmenting policy and constraining the education process at schools with the greatest needs Wong's examination is shaped by several questions How do these rules come about What role does politics play in retention of the rules Do the federal state and local governments espouse different policies In what ways do these policies operate at cross purposes How do they affect educational opportunities Do the policies cohere in ways that promote better and more equitable student outcomes Wong concludes that the five types of entrenched rules for resource allocation are rooted in existing governance arrangements and seemingly impervious to partisan shifts interest group pressures and constitutional challenge And because these rules foster policy fragmentation and embody initiatives out of step with the performance based reform agenda of the 1990s the outlook for positive change in public education is uncertain unless fairly radical approaches are employed Wong also analyzes four allocative reform models two based on the assumption that existing political structures are unlikely to change and two that seek to empower actors at the school level The two models

for systemwide restructuring aimed at intergovernmental coordination and or integrated governance would seek to clarify responsibilities for public education among federal state and local authorities above all integrating political and educational accountability The other two models identified by Wong shift control from state and district to the school one based on local leadership and the other based on market forces In discussing the guiding principles of the four models Wong takes care to identify both the potential and limitations of each Written with a broad policy audience in mind Wong s book should appeal to professionals interested in the politics of educational reform and to teachers of courses dealing with educational policy and administration and intergovernmental relations

The Politics of School Reform, 1870 - 1940 Paul E. Peterson, 1985-07 Was school reform in the decades following the Civil War an upper middle class effort to maintain control of the schools Was public education simply a vehicle used by Protestant elites to impose their cultural ideas upon recalcitrant immigrants In *The Politics of School Reform 1870 1940* Paul E Peterson challenges such standard revisionist interpretations of American educational history Urban public schools he argues were part of a politically pluralistic society Their growth both in political power and in sheer numbers had as much to do with the demands and influence of trade unions immigrant groups and the public more generally as it did with the actions of social and economic elites Drawing upon rarely examined archival data Peterson demonstrates that widespread public backing for the common school existed in Atlanta Chicago and San Francisco He finds little evidence of systematic discrimination against white immigrants at least with respect to classroom crowding and teaching assignments Instead his research uncovers solid trade union and other working class support for compulsory education adequate school financing and curricular modernization Urban reformers campaigned assiduously for fiscally sound politically strong public schools Often they had at least as much support from trade unionists as from business elites In fact it was the business backed machine politicians from San Francisco s William Buckley to Chicago s Edward Kelly who deprived the schools of funds At a time when public schools are being subjected to searching criticism and when new educational ideas are gaining political support *The Politics of School Reform 1870 1940* is a timely reminder of the strength and breadth of those groups that have always supported free public schools

Layton, 2003-08-29 This text is intended to be of use as a guide for students scholars and researchers of the politics of education and of educational policy studies The comprehensive work surveys major trends between 1969 and 1994 with chapters synthesising political and policy developments at local national and state levels in the US as well as in the international arena The text contains in depth examinations of the emerging micropolitics of the field of education as well as

policy analysis and cultural and feminist studies and bibliographies are provided at the end of each chapter Designed as both a text and a reference volume this special yearbook was planned in conjunction with the 25th anniversary of the Politics of Education Association in 1994 *The Politics Of Linking Schools And Social Services* Louise Adler,Sid Gardner,2002-11-01 From the time the reform movement began in the progressive era with concerns about public health and universal access to education arguments have been raised for and against linking schools and social services and the merits or otherwise of each system A new argument for the collaboration is that integration will lead to substantially better services than those provided by separate organizations This volume brings together a wide array of cross national research and public policy issues to focus on a new framework of service provision It looks at the different networks of organizations of which schools and social services have been a part and at the political implications or results of bringing together the professionals from such organizations It takes into account the constraints resulting from the larger institutional network experience by such organizations The book also presents a range of perspectives on the way preparation is followed by four responses that present somewhat varying points of view The contributors come from a wide range of experiences including specialists in politics of education law urban studies children s issues and those providing reflections on practical experience *The Politics of Reorganizing Schools* Stewart Ranson,2018-05-11 Originally published in 1990 The rapid decline in the birth rate in the 1970s and the resulting fall in school rolls had a dramatic effect on the curriculum staffing organization and management of schools This book focuses on the national and local politics surrounding school closures amalgamations and the replacement of sixth forms with tertiary colleges The author illuminates the changing politics of education through an analysis based on research in LEAs including Birmingham and Manchester He explores the roles of central government local education authorities and the politics of increased parental choice The book shows how spare capacity in schools captures the political struggle between those concerned to protect the post war tradition of educational opportunity for all and the New Right who want to seize the chance to place schools in the market place expanding consumer choice and public accountability *The Politics of Educational Decentralisation in Indonesia* Irsyad Zamjani,2021-12-10 The Politics of Educational Decentralisation in Indonesia A Quest for Legitimacy is a well written analytically sharp and compelling study of educational decentralisation in Indonesia Irsyad Zamjani provides fresh insights into this important topic The author treats educational reform as a window into much deeper questions about power the government s responsibility to its citizens and social change in Indonesia His findings should interest academics as well as practitioners with an interest in educational reform Professor Christopher Bjork Vassar College New York This is a remarkable book which should appeal not only to Indonesian scholars but also to educationists and political scientists to name just a few By tracing the path of decentralisation in the Indonesian educational reform in the early 2000s Zamjani shows how the central and municipal governments struggled in different ways to retain control over education in their domains through various mechanisms

largely related to claims of legitimacy The study is grounded in new institutional theory and the interview and case study data provide a richness and depth in showing the dynamics of reform attempts Professor Lawrence J Saha Australian National University Canberra This book discusses the dynamics of educational decentralisation in post reform Indonesia Taking sociology's new institutionalism approach and drawing upon data from documents and interviews with strategic informants the book investigates how institutional legitimacy of educational decentralisation was garnered manipulated and then contested Besides analysing global institutional pressures which influenced the national adoption of decentralisation reform and the central government's attempts to restore its legitimacy the book also offers comparative case studies of education governance in two local districts to highlight how this reform is responded to at the local level

The Politics of Gender in Colonial Korea Theodore Jun Yoo, 2014-05-29 This study examines how the concept of Korean woman underwent a radical transformation in Korea's public discourse during the years of Japanese colonialism Theodore Jun Yoo shows that as women moved out of traditional spheres to occupy new positions outside the home they encountered the pervasive control of the colonial state which sought to impose modernity on them While some Korean women conformed to the dictates of colonial hegemony others took deliberate pains to distinguish between what was modern e.g Western outfits and thus legitimate and what was Japanese and thus illegitimate Yoo argues that what made the experience of these women unique was the dual confrontation with modernity

itself and with Japan as a colonial power *The Politics of Sorrow* Tsering Wangmo Dhompa, 2025-02-18 The Dalai Lama escaped from Tibet in 1959 after its occupation by China and established a government in exile in India There Tibetan leaders aimed to bring together displaced people from varied religious traditions and local loyalties under the banner of unity To contest Chinese colonization and stand up for self determination Tibetan refugees were asked to shed regional allegiances and embrace a vision of a shared national identity The Politics of Sorrow tells the story of the Group of Thirteen a collective of chieftains and lamas from the regions of Kham and Amdo who sought to preserve Tibet s cultural diversity in exile They established settlements in India in the mid 1960s with the goal of protecting their regional and religious traditions setting them apart from the majority of Tibetan refugees who saw a common tradition as the basis for unifying the Tibetan people Tsering Wangmo Dhompa traces these different visions for Tibetan governance and identity juxtaposing the Tibetan government in exile s external struggle for international recognition with its lesser known internal struggle to command loyalty within the diaspora She argues that although unity was necessary for democracy and independence it also drew painful boundaries between those who belonged and those who didn t Drawing on insightful interviews with Tibetan elders and an exceptional archive of Tibetan exile texts The Politics of Sorrow is a compelling narrative of a tumultuous time that reveals the complexities of Tibetan identities then and now **Korea and the Politics of Imperialism** Chong Ik Eugene Kim, Han-Kyo Kim, **The Politics of US Aid to Pakistan** Murad Ali, 2019-01-22 This book aims at uncovering the politics behind the provision of US foreign aid to Pakistan during three distinctive periods the Cold War the post Cold War and the war on terror Focusing on a comprehensive analysis of aid allocation and delivery mechanisms this book uncovers the primary factors behind historical as well as contemporary US aid to Pakistan so far not thoroughly and empirically studied especially in the post 2001 period of the war on terror Furthermore based on findings that have emerged from interviews with over 200 respondents including government officials representatives of donor aid agencies the private sector civil society organizations and primary beneficiaries of US funded projects this book offers significant insights to researchers policy makers and practitioners interested in the discipline of aid and development effectiveness Making use of both quantitative and qualitative data and based on extensive fieldwork and primary data this book fills a significant gap in the empirical analysis of US aid to Pakistan As such it will be of great interest to students and scholars of Asian and US politics as well as to those who have teaching and research interests in disciplines such as international relations history strategic studies international political economy and development studies
