Ronald G. Musto, 2020-11-25 First Published in 1991 The following is a comprehensive scholarly bibliography of published materials on the varieties of liberation theology mostly in book form available in English It is intended as an introductory survey to this vast and quickly expanding field for the teacher and student of contemporary theology of biblical hermeneutics and to the interrelationship of politics and religion around the world It will also serve as a comprehensive bibliography

Christian Justice and Public Policy Duncan B. Forrester, 1997-08-28 Disagreements about justice are not simply academic matters They create problems for practice and for policy making In a morally fragmented society in which nobody knows what justice is issues such as wages policy punishment and poverty become particularly difficult to handle People striving to act justly are often uncertain how this might be done Secular theories such as those of Rawls Hayek Habermas and modern feminist theorists examined here give some guidance for problems of justice that arise on the ground but have serious limitations This book argues that Christian theology although it can no longer claim to provide a comprehensive theory of justice can provide insights into justice theological fragments which give illumination challenge some aspects of the conventional wisdom and contribute to the building of just communities in which people may flourish in mutuality and hope

Gustavo Gutierrez Robert McAfee Brown, 2013-03-01 Here is a definitive introduction to liberation theology through the life and work of its most significant proponent Gustavo Gutierrez Robert McAfee Brown draws extensively on Gutierrez's own writings some never published in English and on personal conversations with him Brown clearly and compellingly presents the basics of liberation theology and the differences between North American and Latin American theologies The form of Gustavo Gutierrez is that of a drama Brown's initial program notes introduce and situate the author the actors the critics He

sets the stage with a history of church and state in Latin America and introduces its definitive figures themes and milestones A collective biography of Gutierrez s spiritual predecessors is followed by a biography of Gutierrez himself which takes critical account of his works Then we are ready dramatically and theologically to move to the first act that of commitment to the poor The second act in two scenes explores first liberation theology s method of critical reflection on praxis and also its content nothing less than the Word of God Brown delves next into the controversies and criticisms Gutierrez faces especially the challenges from authorities in Rome Finally in act three readers discover that in this particular drama they too are on stage and must take part by reflecting on what this drama really means for them **Risking the Church** Richard

Lennan,2004-10-14 In an age when the Christian Church faces many challenges this book seeks to identify the resources that the Catholic tradition offers to those who are puzzling over how the Church might be faithful to its tradition but also creative in response to contemporary questions and concerns **Latin American Liberation Theology** David Tombs,2021-11-08

David Tombs offers an accessible introduction to the theological challenges raised by Latin American Liberation and a new contribution to how these challenges might be understood as a chronological sequence Liberation theology emerged in the 1960s in Latin America and thrived until it reached a crisis in the 1990s This work traces the distinct developments in thought through the decades thus presenting a contextual theology The book is divided into five main sections the historical role of the church from Columbus s arrival in 1492 until the Cuban revolution of 1959 the reform and renewal decade of the 1960s the transitional decade of the 1970s the revision and redirection of liberation theology in the 1980s and a crisis of relevance in the 1990s This book offers insights into liberation theology s profound contributions for any socially engaged theology of the future and is crucial to understanding liberation theology and its legacies This publication has also been published in paperback please click here for details **On the Banks of Ganges** Felix Wilfred,2002 [The Politics of](#)

[Heaven and Hell](#) James V. Schall,2020-10-27 The Politics of Heaven and Hell makes an invaluable contribution to the understanding of classical medieval and modern political philosophy while explaining the profound problem with modernity Christianity freed men from the overwhelming burden of ever thinking that their salvation will ultimately come from the political order writes Fr James Schall S J Modernity on the other hand is a perversion of Christianity which tries to achieve man s salvation in this world It does this by politicizing everything which results in the absolute state The distance from the City of God to the Leviathan is not at all far once the City of God is relocated on earth The best defense against this tyranny is the adequate description of the highest things of what is beyond politics Both reason and revelation are needed for this work and they are eloquently and ably set forth in this book **Reimagining The Moral Life** Choi, Ki Joo,Moses, Sarah

M.,Vincini, SJ, Andrea,2020-09-16 This volume honors Lisa Cahill s 45 years of teaching Christian ethics at Boston College With contributions from most of the doctoral students she directed during her career it provides an interpretive overview of Cahill s specific contributions to Christian ethics *The Two Churches* Michael L. Budde,1992 Budde contends that world

Catholicism led by its Third World majority most notably in Latin America will continue to develop in an increasingly anticapitalist direction and he suggests that once dominant First World Catholic churches exemplified by the U S Catholic church are poorly placed to respond in solidarity with their coreligionists from the Third World Covering a wide range of theoretical and substantive matters *The Two Churches* examines religion as a source of both social legitimation and social rebellion It demonstrates the importance of ecclesiology a branch of theology dealing with theories of the church and it highlights the effect of capitalism on world Catholicism as well as the latter s influence on the development of the capitalist order

Global Dictionary of Theology William A. Dyrness, Veli-Matti Kärkkäinen, 2009-10-25 Theological dictionaries are foundational to any theological library But until now there has been no Global Dictionary of Theology a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti Kärkkäinen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of theological perspective and inquiry Here is a new launching point for doing theology in today s global context

Continuity and Rupture in the Long Middle Ages Michael Edward Moore, 2024-08-26 The Long Middle Ages indicates a span of time extending from Antiquity across the Middle Ages to the Early Modern period The author tries to understand factors of historical continuity binding this period together and the periodic scenes of violent change that disrupted societies and traditions The Long Middle Ages were established on

classical and biblical foundations while each generation interpreted and expanded on those origins The cohesion of the Long Middle Ages was brought about by continuous acts of reflection and renaissance Scholarly practices and ideas of Antiquity were taken up in the monasteries and cathedral schools of the Middle Ages while during the Renaissance and then the Baroque period thinkers looked back to Antiquity and to the Middle Ages Continuity and Rupture in the Long Middle Ages is an interdisciplinary approach to intellectual history which puts the history of ideas in the context of cultural political religious and legal history Medieval history is the central moment while continuity and change are found in traditions extending from the Lord s Prayer AD 30 to Jean Mabillon AD 1632 1707 and onward to moderns like Ernst Cassirer and Paul Ricoeur Readers will discover new significance in historical figures like the Venerable Bede Boniface of Mainz Charlemagne and Pope Formosus in the laws of medieval kings and bishops and institutions like the monastery of Cluny These essays gathered together for the first time in this Variorum volume offer powerful new interpretations for students and researchers in the fields of medieval studies legal and literary interpretation legal history and the history of European intellectual life from ancient to modern times

A Manual of Councils of the Holy Catholick Church Edward Henry Landon,1846

Bishops under Threat Sabine Panzram,Pablo Poveda Arias,2023-03-20 The late antique and the early medieval periods witnessed the flourishing of bishops in the West as the main articulators of social life This influential position exposed them to several threats both political and religious Researchers have generally addressed violence rebellions or conflicts to study the dynamics related to secular powers during

these periods They haven't paid similar attention however to those analogous contexts that had bishops as protagonists This book proposes an approach to bishops as threatened subjects in the late antique and early medieval West In particular the volume pursues three main goals Firstly it aims to identify the different types of threats that bishops had to deal with Then it sets out to frame these situations of adversity in their own contexts Finally it will address the episcopal strategies deployed to deal with such contexts of adversity In sum we aim to underline the impact that these contexts had as a dynamiting factor of episcopal action Thus the episcopal threats may become a useful approach to study the bishops' relationships with other agents of power the motivations behind their actions and last but not least for understanding the episcopal rising power
