The Popular Perception of Industrial History Robert Weible, 1989 *The Oxford Handbook of Industrial Archaeology* Eleanor Casella, Michael Nevell, Hanna Steyne, 2022 Through international and multi period chapters this volume explores the origins and development of industrialization from its emergence in 18th century Europe to its contemporary ubiquity It interrogates the widespread exploitation of natural resources that forged industrialization and its environmental and social legacy in our globalized world

CRM Bulletin United States. National Park Service. Cultural Resources Management Division, 1988 **Popular Perception of Industrial History** Lowell Conference On Industrial History, 1989 **Popular Perceptions of Soviet Politics in the 1920s** O. Velikanova, 2013-01-28 This is the first study of popular opinions in Soviet society in the 1920s These voices which made the Russian revolution characterize reactions to mobilization politics patriotic militarizing campaigns the tenth anniversary of the revolution and state attempts to unite the nation around a new Soviet identity

Pennsylvania in Public Memory Carolyn Kitch, 2012-01-01 Looks at sites and events in Pennsylvania to explore the emergence of heritage culture about industry and its loss in America Traces the shaping of public memory of coal steel railroading lumber oil and agriculture and the story it tells about both local and national identity Provided by publisher

The Tourist-Historic City G.J. Ashworth, J.E. Tunbridge, 2000-11-07 Reflects the importance of heritage to cities and cities to the creation and marketing of heritage products not least within tourism This book presents a review of the state of urban heritage tourism at the turn of the twentieth and twenty first centuries New Perspectives on Welsh Industrial History

Louise Miskell, 2019-12-15 This volume tells a story of Welsh industrial history different from the one traditionally dominated by the coal and iron communities of Victorian and Edwardian Wales Extending the chronological scope from the early eighteenth to the late twentieth century and encompassing a wider range of industries the contributors combine studies of the internal organisation of workplace and production with outward facing perspectives of Welsh industry in the context of the global economy The volume offers important new insights into the companies the employers the markets and the money behind some of the key sectors of the Welsh economy from coal to copper and from steel to manufacturing and challenges us to reconsider what we think of as constituting industry in Wales Visual Culture of Post-Industrial Europe Frances

Guerin, Magda Szczesniak, 2025-10-01 Visual Culture of Post Industrial Europe investigates visual cultural projects in Europe from the 1970s onwards in response to industrial closures resultant unemployment diminished social services and shattered identities Typically art and visual cultural creations at one time thriving European heartlands strive to make the industrial past visible negotiable and re imaginable Authors discuss varied and multiple types of art and visual culture that remember the sometimes invisible past create community in the face of social disintegration and navigate the dissonance between past

and present material reality They also examine art and visual objects at post industrial European sites for their aesthetic historical and sociological role within official and unofficial government and community regeneration and re vitalisation efforts Sites range from former coal and steel plants in Duisburg through shipyards and harbours of Gdansk and Hamburg a Moscow paper factory and textile factories in Albania to still functioning Croatian metalworks Public opinion and the teaching of history in the United States Bessie Louise Pierce,2023-07-10 In Public Opinion and the Teaching of History in the United States Bessie Louise Pierce meticulously explores the intricate relationship between societal attitudes and historical education This scholarly work fitting seamlessly into the burgeoning field of educational research during the early 20th century traverses the shifting paradigms of how history is taught and understood in American classrooms Through a blend of qualitative analysis and a rich narrative style Pierce unveils the influences of cultural political and social factors on historical curricula emphasizing the democratic ideals that shape public perception of our past Bessie Louise Pierce an esteemed historian and educator drew upon her own experiences in a rapidly changing America to craft this poignant examination Her academic background and deep involvement in progressive education movements offered her a unique perspective on the importance of history literacy in fostering informed citizens Living through and participating in the tumultuous changes of her time Pierce was acutely aware of how public opinion framed national identity and the teaching of history itself This book is essential for educators historians and any reader interested in understanding the pivotal role that public sentiment plays in shaping historical consciousness Pierce s work remains relevant shedding light on contemporary debates about history education and the need for critical engagement with the past in constructing a better future The Museum Time Machine Robert Lumley,2003-09-02 A provocative contribution to the current debate on museums this collection of essays contains contributions from France Britain Australia the USA and Canada **Advertising Progress** Pamela Walker Laird,2020-01-15 Selected by Choice Magazine as an Outstanding Academic Title Originally published in 1998 Drawing on both documentary and pictorial evidence Pamela Walker Laird explores the modernization of American advertising to 1920 She links its rise and transformation to changes that affected American society and business alike including the rise of professional specialization and the communications revolution that new technologies made possible Laird finds a fundamental shift in the kinds of people who created advertisements and their relationships to the firms that advertised Advertising evolved from the work of informing customers telling people what manufacturers had to sell to creating consumers persuading people that they needed to buy Through this story Laird shows how and why in the intense competitions for both markets and cultural authority the creators of advertisements laid claim to progress and used it to legitimate their places in American business and culture Corporate Research Laboratories and the History of Innovation David Pithan,2021-07-15 With the beginning of the twentieth century American corporations in the chemical and electrical industries began establishing industrial research laboratories Some went on to become world famous not only for their scientific and technological breakthroughs

but also for the new union of science and industry they represented Innovative ideas do not simply appear out of the blue and spread on their own merit Rather the laboratory s diffusion takes place in a cultural context that goes beyond corporate capital and technological change Using discourse analysis as a method to comprehensively capture the organizational field of the early American R D laboratories from 1870 to 1930 this book uncovers the collective meanings associated with the industrial laboratory Meanings such as what and where a laboratory is supposed to be who the scientist is and what it means to practice science provided cultural resources that made the transfer of the laboratory from academic science into an industrial setting possible by rendering such meanings understandable and operable to big business and organizational entrepreneurs fighting for hegemony in a rapidly evolving market It analyzes not only the corporations that established laboratories in the United States but also their contexts economic political and especially scientific showing how the industrial laboratory was transformed from an organizational novelty into an expected institution in less than two decades This book will be of interest to researchers academics historians and students in the fields of organizational change discourse studies the management of technology and innovation as well as business and management history *The Industrial History of Free Nations* William Torrens McCullagh Torrens,1846 *The Industrial History of Free Nations ...* William Torrens Maccullagh-Torrens (formerly Maccullagh.),1846 An Introduction to the Industrial and Social History of England Edward Potts Cheyney,2018-09-20 Reproduction of the original An Introduction to the Industrial and Social History of England by Edward Potts Cheyney A History of Czechoslovakia Between the Wars Patrick Crowhurst,2015-06-22 Here Patrick Crowhurst identifies the crucial political problem that faced Czechoslovakia between 1918 and 1939 the rift between the Czechs and the Sudeten Germans that would open the way for the rise of Konrad Henlein s right wing Sudeten Deutsch party and which was exploited ruthlessly by Hitler during Nazi Germany s 1938 annexation of Czechoslovakia A History of Czechoslovakia Between the Wars deepens our understanding of a fragile Europe before World War II and is essential for students and scholars of 20th century history A Short History of American Industrial Policies William R. Nester,2016-07-27 For nearly four centuries Americans have debated the government s proper role in developing the economy Some argue that the economy develops the best when government intervenes the least Others counter that the economy best develops when government and business work together to that end A Short History of American Industrial Policies analyzes the ideological political and industrial policy struggle from the colonial era to the 1990s To give a complete understanding both the chronology and process of America s industrial policymaking and policies are explored in depth throughout The Sweat of Their Brow: A History of Work in Latin America David McCreery,2016-07-01 Throughout Latin America s history the world of work has been linked to race class and gender within the larger framework of changing social political and economic circumstances both in the region and abroad In this compelling narrative David McCreery situates the work experience in Latin America s broader history Rather than organizing the coverage by forms of work he proceeds

chronologically breaking 500 years of history into five periods Encounter and Accommodation 1480 1550 The Colonial System 1550 1750 Cities and Towns 1750 1850 Export Economies 1850 1930 Work in Modern Latin America 1930 the Present Within each period McCreery discusses the chief economic political and social characteristics as they relate to work identifying both continuities and discontinuities from each preceding period Specific topics studied range from the encomienda the enslaving of Indians in Spanish America the introduction of Black African slaves labor in mining agricultural labor urban and domestic labor women and work peasant economies industrial labor to the maquilas and more
