The Portable MBA in Entrepreneurship Case Studies William D. Bygrave, Dan D'Heilly, 1997-06-23 The crucial link between theory and practice. In *The Portable MBA in Entrepreneurship Case Studies* you'll meet people who have used the business theories and practices presented in *The Portable MBA in Entrepreneurship* to start and run their own entrepreneurial ventures. You'll get a real sense of what it takes to conceive, develop, finance and operate a business and how particular elements such as business plans and financial forecasts function in the real world. These case studies cover a broad variety of service and product industries: retail, wholesale, mail order and Internet. You'll discover the trials and rewards of starting a travel agency, launching a new glass cleaning product, setting up a fashion Web site and selling women's hosiery through direct mail. Other studies cover ventures in the computer industry, the restaurant business, automobile service, franchising and business consulting. Each case study is illustrated with exhibits, financial statements, business plans, sample contracts and more, and many are supplemented with end of chapter questions that help you analyze the viability of each entrepreneurial venture and test your ability to respond to the challenges you'll face in pursuit of your own entrepreneurial dreams.

Organizational Learning and Competitive Advantage Bertrand Moingeon, Amy Edmondson, 1996-08-13 In this

volume contributors from the fields of both strategic management and organizational behaviour have been brought together to explore the relationship between organizational learning and competitive advantage In their editorial introduction Edmonson and Moingeon trace changes within the fields of strategy and organizational development that have encouraged a more integrative approach On the strategy side the emergence of the resource view of the firm has drawn attention to the importance of firm specific resources including knowledge and how it is acquired as sources of competitive advantage On the other hand organizational development practitioners have become increasingly interested in relating their traditional tasks more firmly to strategic business issues and concerns The topic of organizational learning can thus be seen as a bridge which is the intention of this volume to begin constructing between these two fields The papers presented in this book offer a rich variety of concepts frameworks and provovative ideas on organizational learning and its strategic implications In addition the theoretical presentations are often supported by reports of the results of original research in a number of companies

Management Learning This book takes an important first step towards integrating theories of competitive advantage and organizational learning a rapprochement which can come none too soon for the management practitioner Peter Senge Director of the Center for Organizational Learning MIT Sloan School of Management USA Organizations need to develop learning strategies to survive and develop in increasingly uncertain and changing markets In this book researchers from Europe and the United States explore theories of strategic management and organizational behaviour to establish a link between learning processes and competitive advantage within a variety of organizational settings The diverse multidisciplinary approach takes an important step towards developing a new integrative theory of management
