The Postnational Constellation

Gráinne de Búrca, J. H. H. Weiler

The Postnational Constellation:

The Postnational Constellation Jürgen Habermas, 2001-02-02 translated edited and with an introduction by Max Pensky Does a global economy render the traditional nation state obsolete Does globalization threaten democratic life or offer it new forms of expression What are the implications of globalization for our understanding of politics and of national and cultural identities In *The Postnational Constellation* Jürgen Habermas addresses these and other questions He explores the historical and political origins of national identity the achievements and catastrophes of the twentieth century the future of democracy in the wake of the era of the nation state the political and moral challenges facing the European Union and the status of global human rights in the ongoing debate on the sources of cultural identity In their scope critical insight and clarity the essays present a powerful vision of the contemporary political scene and the opportunities and challenges facing us Those new to Habermas's work will find in this book a lucid and engaging introduction to one of the twentieth century's most influential thinkers Those familiar with Habermas's writings will appreciate the application of his social and political theories to current political realities

The Politics of Belonging Alain Dieckhoff, 2004-01-01 *The Politics of Belonging* represents an innovative collaboration between political theorists and political scientists for the purposes of investigating the liberal and pluralistic traditions of nationalism Alain Dieckhoff introduces an indispensable collection of work for anyone dealing with questions of identity ethnicity and nationalism

NGOs as Legitimate Partners of Corporations Dorothea Baur, 2011-08-21 The interaction between corporations and non governmental organizations NGOs has become an important topic in the debate about corporate social responsibility CSR Yet unlike the vast majority of academic work on this topic this book explicitly focuses on clarifying the role of NGOs not of corporations in this context Based on the notion of NGOs as political actors it argues that NGOs suffer from a multiple legitimacy deficit they are representatives of civil society without being elected the legitimacy of the claims they raise is often controversial and there are often doubts regarding the legitimacy of the behaviour they exhibit in putting forward their claims Set against an extended sphere of political action in the postnational constellation this book argues that the political model of deliberative democracy provides a meaningful conceptualization of NGOs as legitimate partners of corporations and it develops a conceptual framework that specifically allows distinguishing legitimate partner NGOs from two related actor types with whom they share certain characteristics but who differ with respect to their legitimacy These related actor types are interest groups on the one hand and activists on the other hand In conclusion it argues that a focus on the behaviour of NGOs is most meaningful for distinguishing them from interest groups and activists

Habermas and Contemporary Society J. Sittgen, 2003-08-15 Over the last four decades Jürgen Habermas has forged an innovative and much discussed theory of contemporary capitalist society Building on Max Weber's thesis that the dynamic of capitalism actually erodes individual freedom and the meaningfulness of social life famously resulting in a culture of specialists without spirit sensualists without heart Habermas traces contemporary social conflict to

resistance to this dynamic by a variety of social groups His theory of communicative action attempts to show the possibilities in contemporary society for moving toward a more balanced social life that unlike other political currents today would not sacrifice the truly progressive features of complex modern societies By marginalizing methodological and other more specialized theoretical concerns this book focuses on Habermas's substantive portrayal of contemporary society and its discontents *Jürgen Habermas, Volumes I and II* Camil Ungureanu, Klaus Günther, 2018-10-26 Jürgen Habermas is widely regarded as one of the outstanding intellectuals of our time This collection focuses on the theory of law which can be distilled from his vast compendium of work At the same time the collection places this theory in the context of Habermas's overall contribution to the theory of society political theory and social philosophy Volume I on The Discourse Theory of Law and Democracy identifies the theoretical foundations Volume II focuses on the critical debate of Habermas's discourse theory of law and democracy on the challenges posed by the postnational constellation Europeanization and processes of globalization and on particular strands within his work such as genetic technology and religion Each volume is prefaced by a comprehensive introduction by the editors *Habermas* Pauline Johnson, 2006-04-18 If we are to believe what many sociologists are telling us the public sphere is in a near terminal state Our ability to build solidarities with strangers and to agree on the general significance of needs and problems seems to be collapsing These cultural potentials appear endangered by a newly aggressive attempt to universalize and extend the norms of the market For four decades Habermas has been trying to bring the claims of a modern public sphere before us His vast oeuvre has investigated its historical sociological and theoretical preconditions has explored its relevance and meaning as well as diagnosing its on going crises In the contemporary climate a systematic look at Habermas's lifelong project of rescuing the modern public sphere seems an urgent task This study reconstructs major developments in Habermas's thinking about the public sphere and is a contribution to the current vigorous debate over its plight It marshals the significance of Habermas's lifetime of work on this topic to illuminate what is at stake in a contemporary interest in rescuing an embattled modern public sphere Habermas's project of rescuing the neglected potentials of Enlightenment legacies has been deeply controversial For many it is too lacking in radical commitments to warrant its claim to a contemporary place within a critical theory tradition Against this developing consensus Pauline Johnson describes Habermas's project as one that is still informed by utopian energies even though his own construction of emancipatory hopes itself proves to be too narrow and one sided **The Burden of Democracy** Geneviève Souillac, 2011-01-01 In *The Burden of Democracy The Claims of Cultures and Public Culture* Geneviève Souillac offers an original contribution to the debate on contemporary democratic ethics and vindicates the universal development of democracy This book argues that a public culture articulated around the three principles of deliberative justice history and encounter can deepen inclusion mediation and democratic pluralism under conditions of postmodernity **Rethinking Democracy and the European Union** Erik Oddvar Eriksen, John Erik Fossum, 2013-06-17 While the Lisbon treaty was

meant to clarify the European Union's role and political identity it remains a challenge for politicians and decision makers to define Rethinking Democracy and the European Union looks at both the concept of the EU as a political system and analyses the meaning and status of democracy in Europe today This book draws upon leading scholars and practitioners from the RECON project Reconstituting Democracy in Europe to frame and analyse a range of institutional realms and policy fields including constitutionalisation representative developments gender politics civil society and public sphere identity and security and globalisation Drawing together these strands the book questions whether EU politics require a new theory of democracy and evaluates the relationship between union and state and the possible future of post national democracy Lucid and accessible this book is at the forefront of the intellectual debate over the character of the EU presenting research theory and analysis on a critical political issue of our time Rethinking Democracy and the European Union will be of interest to students and scholars of democracy European Union politics and international relations

The European Constitution, Welfare States and Democracy Christoffer C. Eriksen, 2011-10-06 This book explores how the right to the free movement of goods persons services and capital in the European Union legal order affects welfare states These four freedoms as they are known are vital instruments for the protection of a European market unencumbered by internal frontiers The European Constitution Welfare States and Democracy explore the relationships and conflicts that have emerged between the European constitution and the legal regulation of mixed economies and markets within welfare states In particular it examines the threat posed to the discretionary powers enjoyed by national governments and administrative authorities Christoffer C Eriksen has undertaken a comprehensive analysis of a series of judgments in which the European Court of Justice has clearly indicated the ways in which the four freedoms may be incompatible with the current practice of entrusting national administrative authorities with discretionary powers and thus highlights how the four freedoms are provoking democratic dilemmas previously neglected in the academic literature The book is written in a style which communicates beyond an audience of specialized legal scholars and although it includes analysis of black letter law its methodology also draws from the disciplines of philosophy political science and sociology

Routledge Revivals: Anthony Elliott: Early Works in Social Theory Anthony Elliott, 2021-02-25 The volumes in this set originally published between 1999 and 2003 draw together early works in social theory by leading sociologist Anthony Elliott The collection covers some of his major works in the field of social theory with a particular focus on psychoanalysis and social theorists within the area of sociology The works in this set make accessible previously unavailable works from the early stages of Anthony Elliott's ongoing and prolific career to date

Freedom and Democracy in an Imperial Context Robert Nichols, Jakeet Singh, 2014-03-26 Freedom and Democracy in an Imperial Context Dialogues with James Tully gathers leading thinkers from across the humanities and social sciences in a celebration of and critical engagement with the recent work of Canadian political philosopher James Tully Over the past thirty years James Tully has made key contributions to some of the most pressing questions of our time including

interventions in the history of moral and political thought contemporary political philosophy democracy citizenship imperialism recognition and cultural diversity In 2008 he published *Public Philosophy in a New Key* a two volume work that promises to be one of the most influential and important statements of legal and political thought in recent history This work along with numerous other books and articles is foundational to a distinctive school of political thought influencing thinkers in fields as diverse as Anthropology History Indigenous Studies Law Philosophy and Political Science Critically engaging with James Tully's thought the essays in this volume take up what is his central and ever more pressing question how to enact democratic practices of freedom within and against historically sedimented and actually existing relationships of imperialism

Critical Visions Anthony Elliott, 2003 Drawing social theory cultural studies and psychoanalysis together in a bold configuration Elliott challenges the widespread view that social theory seems to have lost its way as a result of the diversification of conceptual approaches **Inhuman Conditions** Pheng Cheah, 2006 Globalization promises to bring people around the world together to unite them as members of the human community To such sanguine expectations Pheng Cheah responds deftly with a sobering account of how the inhuman imperatives of capitalism and technology are transforming our understanding of humanity and its prerogatives Through an examination of debates about cosmopolitanism and human rights *Inhuman Conditions* questions key ideas about what it means to be human that underwrite our understanding of globalization Cheah asks whether the contemporary international division of labor so irreparably compromises and mars global solidarities and our sense of human belonging that we must radically rethink cherished ideas about humankind as the bearer of dignity and freedom or culture as a power of transcendence Cheah links influential arguments about the new cosmopolitanism drawn from the humanities the social sciences and cultural studies to a perceptive examination of the older cosmopolitanism of Kant and Marx and juxtaposes them with proliferating formations of collective culture to reveal the flaws in claims about the imminent decline of the nation state and the obsolescence of popular nationalism Cheah also proposes a radical rethinking of the normative force of human rights in light of how Asian values challenge human rights universalism *The Worlds of European Constitutionalism* Gráinne de Búrca, J. H. H. Weiler, 2011-10-13 The idea of the EU as a constitutional order has recently taken on renewed life as the Court of Justice declared the primacy of EU law not just over national constitutions but also over the international legal order including the UN Charter This book explores the nature and character of EU legal and political authority and the complex analytical and normative questions which the notion of European constitutionalism raises in both the EU's internal and its external relations The book culminates in a dialogical epilogue in which the authors' arguments are questioned and challenged by the editor providing a unique and stimulating approach to the subject By bringing together leading constitutional theorists of the European Union this book offers a sharp challenging and engaging discussion for students and researchers alike

Globalization and Popular Sovereignty Adam Lupel, 2009-09-11 This volume analyzes the impact of globalization on the

concept of popular sovereignty seeking to better understand the emerging structures of global governance and their potential for democratic legitimacy *Emerging Trends in Continental Philosophy* Todd May, 2014-09-11 *Emerging Trends in Continental Philosophy* presents a comprehensive and accessible analysis of the most recent developments in European thought From feminist thought to environmental philosophy to analytic themes in Continental philosophy to recent discussions of citizenship *Emerging Trends* offers an overview of the currents animating contemporary Continental philosophy The volume focuses on thematic developments rather than individual figures allowing the reader to follow the threads that weave different thinkers together Each essay is written by an expert in the area covered displaying the passion of these experts for the fields they discuss without lapsing into jargon The volume provides a broad map of the landscape of recent European thought as well as the latest thinking from leading scholars on key themes *The History of Continental Philosophy* Alan D. Schrift, 2013-04-12 From Kant to Kierkegaard from Hegel to Heidegger continental philosophers have indelibly shaped the trajectory of Western thought since the eighteenth century Although much has been written about these monumental thinkers students and scholars lack a definitive guide to the entire scope of the continental tradition The most comprehensive reference work to date this eight volume *History of Continental Philosophy* will both encapsulate the subject and reorient our understanding of it Beginning with an overview of Kant's philosophy and its initial reception the *History* traces the evolution of continental philosophy through major figures as well as movements such as existentialism phenomenology hermeneutics and poststructuralism The final volume outlines the current state of the field bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism globalization and the environment Throughout the volumes examine important philosophical figures and developments in their historical political and cultural contexts The first reference of its kind *A History of Continental Philosophy* has been written and edited by internationally recognized experts with a commitment to explaining complex thinkers texts and movements in rigorous yet jargon free essays suitable for both undergraduates and seasoned specialists These volumes also elucidate ongoing debates about the nature of continental and analytic philosophy surveying the distinctive sometimes overlapping characteristics and approaches of each tradition Featuring helpful overviews of major topics and plotting road maps to their underlying contexts *A History of Continental Philosophy* is destined to be the resource of first and last resort for students and scholars alike

Justice for All Steven Scalet, 2003 Collection of essays adapted from an undergraduate honors conference held at Binghamton University which address contemporary issues in political philosophy **The Quest for Civil Order** Chor-yung Cheung, 2013-12-04 Examines four notable thinkers in the field of modern social and political theory with a view to determining how far it is possible to create and maintain a non coercive but sustainable political order under conditions of diversity in contemporary Western democracies **Politics Most Unusual** Damian Cox, M. Levine, Saul Newman, 2015-12-04 How has 9 11 and the declaration of the global war on terror changed our conceptions of politics How

has it affected our understanding of democracy personal freedom and government accountability In answering these and other questions the authors engage in a comprehensive and critical analysis of politics in the age of terrorism

The Postnational Constellation Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has been apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is truly remarkable. This extraordinary book, aptly titled "**The Postnational Constellation**," compiled by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we will delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.

The Postnational Constellation Introduction

In the digital age, access to information has become easier than ever before. The ability to download The Postnational Constellation has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download The Postnational Constellation has opened up a world of possibilities. Downloading The Postnational Constellation provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading The Postnational Constellation has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download The Postnational Constellation. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading The Postnational Constellation. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading The Postnational Constellation, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download The Postnational

Constellation has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About The Postnational Constellation Books

1. Where can I buy The Postnational Constellation books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
