The Potencies Of Gods Schellings Philosophy Of Mythology

Grant Kaplan, Kevin M. Vander Schel

The Potencies Of Gods Schellings Philosophy Of Mythology:

The Potencies of God(s) Edward Allen Beach,1994-01-01 This book explores the metaphysical epistemological and hermeneutical theories of Schelling s final system concerning the nature and meaning of religious mythology This perspective is not surprising since Schelling regarded religion not science or philosophy as embodying the most complete manifestation of truth Beach examines Schelling s novel attempt to account for the changing historical forms of religion in terms of a complex theory of dynamic spiritual powers or potencies He shows that these are not mere representations ideas or projected feelings created by ancient myth makers for the benefit of a credulous populace Instead Beach demonstrates that these potencies should be seen as animate powers inhabiting the unconscious strata of a people s collective mind **A**

Romantic Historiosophy Arthur McCalla,1998-01-01 This intellectual history study establishes Ballanche as an important figure in the intellectual life of early nineteenth century France and demonstrates how his religio social project effected a critical step in the historical mindedness of the Romantic period Philosophical Investigations into the Essence of Human

Freedom F. W. J. Schelling,2010-03-25 Jeff Love and Johannes Schmidt offer a fresh translation of Schelling s enigmatic and influential masterpiece widely recognized as an indispensable work of German Idealism The text is an embarrassment of riches both wildly adventurous and somberly prescient Martin Heidegger claimed that it was one of the deepest works of German and thus also of Western philosophy and that it utterly undermined Hegel s monumental Science of Logic before the latter had even appeared in print Schelling carefully investigates the problem of evil by building on Kant s notion of radical evil while also developing an astonishingly original conception of freedom and personality that exerted an enormous if subterranean influence on the later course of European philosophy from Schopenhauer and Kierkegaard through Heidegger to important contemporary theorists like Slavoj Žižek This translation of Schelling s notoriously difficult and densely allusive work provides extensive annotations and translations of a series of texts by Boehme Baader Lessing Jacobi and Herder hard to find or previously unavailable in English whose presence in the Philosophical Investigations is unmistakable and highly significant This handy study edition of Schelling s masterpiece will prove useful for scholars and students alike

Rethinking Trinitarian Theology Giulio Maspero,Robert J. Wozniak,2012-03-01 **The Oxford Handbook of German Philosophy in the Nineteenth Century** Michael N. Forster,Kristin Gjesdal,2015-02-05 The Oxford Handbook of German Philosophy in the Nineteenth Century is the first collective critical study of this important period in intellectual history The volume is divided into four parts The first part explores individual philosophers including Fichte Hegel Schopenhauer Marx and Nietzsche amongst other great thinkers of the period The second addresses key philosophical movements Idealism Romanticism Neo Kantianism and Existentialism The essays in the third part engage with different areas of philosophy that received particular attention at this time including philosophy of nature philosophy of mind philosophy of language philosophy of history and hermeneutics Finally the contributors turn to discuss central philosophical

topics from skepticism to materialism from dialectics to ideas of historical and cultural Otherness and from the reception of antiquity to atheism Written by a team of leading experts this Handbook will be an essential resource for anyone working in the area and will lead the direction of future research **The New Schelling** Judith Norman, Alistair Welchman, 2004-04-22 Friedrich Wilhelm Joseph Von Schelling 1775 1854 was a colleague of Hegel Holderlin Fichte Goethe Schlegel and Schiller Always a champion of Romanticism Schelling advocated a philosophy which emphasized intuition over reason which maintained aesthetics and the creative imagination to be of the highest value At the same time Schelling's concerns for the self and the rational make him a major precursor to existentialism and phenomenology The New Schelling brings together a wide ranging set of essays which elaborate the connections between Schelling and other thinkers such as Marx Nietzsche Freud Sartre Deleuze and Lacan and argue for the unexpected modernity of Schelling's work Contributors Manfred Frank Jürgen Habermas Iain Hamilton Grant Joseph Lawrence Odo Marquand Judith Norman Alberto Toscano Michael Vater Alistair Welchman Slavoj Žižek **The Perfection of Freedom** DC Schindler, 2017-03-31 The Perfection of Freedom seeks to respond to the impoverished conventional notion of freedom through a recovery of an understanding rich with possibilities yet all but forgotten in contemporary thought This understanding developed in different but complementary ways by the German thinkers Schiller Schelling and Hegel connects freedom not exclusively with power and possibility but rather most fundamentally with completion wholeness and actuality What is unique here is specifically the interpretation of freedom in terms of form whether it be aesthetic form Schiller organic form Schelling or social form Hegel Although this book presents serious criticisms of the three philosophers it shows that they open new avenues for reflection on the notion of freedom avenues that promise to overcome many of the dichotomies that continue to haunt contemporary thought for example between freedom and order freedom and nature and self and other The Perfection of Freedom offers not only a significantly new interpretation of Schiller Schelling and Hegel but also proposes a modernity more organically rooted in the ancient and classical Christian worlds *Specters of God* John D. Caputo, 2022-10-04 In *Specters of God* John D Caputo returns to the original impulse of his work the mystical element in things here under the name of an anxious apophatics as distinct from an edifying apophatics anchored in unity with God In dialogue with Schelling a new turn for him and the lynchpin of this argument Caputo addresses the nocturnal powers in being the specters that haunt our being and bring us up short The result is an erudite and insightful analysis in his usual lively and masterful style of several key spectral figures from medieval angelology and Eckhart's Gottheit through Luther's deus absconditus and Schelling's Satanology to the spectralization and virtualization of the world in the posthuman age Arguing that the name of God is not the master name of a super being who is going to save us but a placeholder for sources deep in our apophatic imaginary he asks Has God become a holy ghost of the past A passing spectral effect of the ancient harmonies of the spheres Does radical thinking culminate in a cosmopoetics beyond theism and its theology in a doxology to the transient glory of the world whatever it was in the beginning however

eerie its end world without why *Panentheism--The Other God of the Philosophers* John W. Cooper, 2006-11 This landmark book the first complete history of panentheism written in English explores the subject through the lens of various thinkers and discusses how it has influenced liberation feminist and ecological theologies **Realpoetik** Paul Hamilton, 2013-11 Realpoetik considers the relationship between literary and political ideas in the thought of key European writers of the Romantic period examining how the main historical events of the period encouraged a re imagining of the political shape of Europe which also changed the way we think about imagination itself **Environmental Humanities and the Uncanny** Rod Giblett, 2019-04-12 Sigmund Freud's essay The Uncanny is celebrating a century since publication It is arguably his greatest and most fruitful contribution to the study of culture and the environment Environmental Humanities and the Uncanny brings into the open neglected aspects of the uncanny in this famous essay in its centenary year and in the work of those before and after him such as Friedrich Schelling Walter Benjamin E T A Hoffmann and Bram Stoker This book does so by focussing on religion especially at a time and for a world in which some sectors of the monotheisms are in aggressive and sometimes violent contention against those of other monotheisms and even against other sectors within their own monotheism The chapter on Schelling's uncanny argues that monotheisms come out of polytheism and makes the plea for polytheism central to the whole book It enables rethinking the relationships between mythology and monotheistic and polytheistic religions in a culturally and politically liberatory and progressive way Succeeding chapters consider the uncanny cyborg the uncanny and the fictional and the uncanny and the Commonwealth concluding with a chapter on Taoism as a polytheistic religion Building on the author's previous work in Environmental Humanities and Theologies in bringing together theories of religion and the environment this book will be of great interest to students and scholars of the environmental humanities ecocultural studies and religion *Schelling's Naturalism* Woodard Ben Woodard, 2018-12-06 Using Schelling's philosophy Ben Woodard examines how an expanded form of naturalism changes how we conceive of the division between thought and world mathematics and motion sense and dynamics experiment and materiality as well as speculation and pragmatism Nature in Schelling's eyes is not the great outdoors or some authentic pastoral realm but the various powers processes and tendencies which run through biology chemistry physics and the very possibility of thought itself [The Oxford History of Modern German Theology, Volume 1: 1781-1848](#) Grant Kaplan, Kevin M. Vander Schel, 2023 Oxford History of Modern German Theology Vol I 1781-1848 offers a multi author overview of the development of modern German theology from 1781 to 1848 Across 36 chapters Kaplan and Vander Schel underline important movements in German theology during this period and highlight unresolved questions which have shaped subsequent discussion **Schelling on Truth and Person** Nikolaj Zunic, 2022-08-09 Positive philosophy is the name that Friedrich Schelling 1775-1854 gave to a new type of philosophizing that stands in contrast to the so called negative philosophy that is predominant in modern rationalism But what exactly is positive philosophy Schelling on Truth and Person The Meaning of Positive Philosophy argues that its

meaning lies in a distinctive view of the human person as a seeker of truth Truth is presented as historically woven in the movement of life with the phenomena of mythology and religion that reveal the human being's falling away from and return to the truth Nikolaj Zunic demonstrates that this novel understanding of truth accompanies the development and expression of positive philosophy itself The anthropological dimension of truth relates to self knowledge the soul spirit and personality and Schelling's positive philosophy sheds light on the grand themes of the meaning of life the ontological question why is there something rather than nothing the enigma of knowledge and reason and the affirmation of the existence of God This book will appeal to students and scholars interested in Schelling's late philosophy as well as broader questions in philosophy concerning meaning truth human nature and rationality *Hans Urs von Balthasar and the Critical Appropriation of Russian Religious Thought* Jennifer Newsome Martin, 2015-09-15 In *Hans Urs von Balthasar and the Critical Appropriation of Russian Religious Thought* Jennifer Newsome Martin offers the first systematic treatment and evaluation of the Swiss Catholic theologian's complex relation to modern speculative Russian religious philosophy Her constructive analysis proceeds through Balthasar's critical reception of Vladimir Soloviev Nikolai Berdyaev and Sergei Bulgakov with respect to theological aesthetics myth eschatology and Trinitarian discourse and examines how Balthasar adjudicates both the possibilities and the limits of theological appropriation especially considering the degree to which these Russian thinkers have been influenced by German Idealism and Romanticism Martin argues that Balthasar's creative reception and modulation of the thought of these Russian philosophers is indicative of a broad speculative tendency in his work that deserves further attention In this respect Martin consciously challenges the prevailing view of Balthasar as a fundamentally conservative or nostalgic thinker In her discussion of the relation between tradition and theological speculation Martin also draws upon the understudied relation between Balthasar and F W J Schelling especially as Schelling's form of Idealism was passed down through the Russian thinkers In doing so she persuasively recasts Balthasar as an ecumenical creatively anti nostalgic theologian hospitable to the richness of contributions from extra magisterial and non Catholic sources *Philosophical Approaches to Cormac McCarthy* Christopher Eagle, 2017-03-27 This book is the first edited collection to explore the role of philosophy in the works of Cormac McCarthy significantly expanding the scope of philosophical inquiry into McCarthy's writings There is a strong and growing interest amongst philosophers in the relevance of McCarthy's writings to key debates in contemporary philosophy for example debates on trauma and violence on the relationship between language and world and the place of the subject within history temporality and borders To this end the contributors to this collection focus on how McCarthy's writings speak to various philosophical themes including violence war nature history materiality and the environment Emphasizing the form of McCarthy's texts the chapters attend to the myriad ways in which his language effects a philosophy of its own beyond the thematic content of his narratives Bringing together scholars in contemporary philosophy and McCarthy Studies and informed by the release of the Cormac McCarthy Papers the volume reflects on the theoretical

relationship between philosophical thinking and literary form This book will appeal to all scholars working in the rapidly growing field of McCarthy Studies Philosophy and Literature and to philosophers working on a wide range of problems in ethics aesthetics epistemology Philosophy of Nature and Philosophy of Film across ancient modern and contemporary philosophy

Theology of Wagner's Ring Cycle I Richard H. Bell, 2020-01-21 Wagner's Ring is one of the greatest of all artworks of Western civilization but what is it all about The power and mystery of Wagner's creation was such that he himself felt he stood before his work as though before some puzzle A clue to the Ring's greatness lies in its multiple avenues of self disclosure and the corresponding plethora of interpretations that over the years has granted ample scope for directors and will no doubt do so well into the distant future One possible interpretation which Richard Bell argues should be taken seriously is the Ring as Christian theology In this first of two volumes Bell considers among other things how the composer's Christian interests may be detected in the forging of his Ring looking at how he appropriated his sources whether they be myths and sagas writers poets or philosophers and considering works composed around the same time especially his Jesus of Nazareth

Hegel and the Hermetic Tradition Glenn Alexander Magee, 2008 Glenn Alexander Magee's pathbreaking book argues that Hegel was decisively influenced by the Hermetic tradition a body of thought with roots in Greco Roman Egypt Magee traces the influence on Hegel of such Hermetic thinkers as Baader B hme Bruno and Paracelsus and fascination with occult and paranormal phenomena Hegel and the Hermetic Tradition covers Hegel's philosophical corpus and shows that his engagement with Hermeticism lasted throughout his career and intensified during his final years in Berlin Viewing Hegel as a Hermetic thinker has implications for a more complete understanding of the modern philosophical tradition and German idealism in particular

Schelling's Political Thought Velimir Stojkovski, 2022-11-17 In the first study to examine F W J Schelling's political thought Velimir Stojkovski not only unearths a neglected dimension of the influential thinker's philosophy but further shows what it can teach us about our ethical and political responsibilities today Unlike Hegel or Fichte Schelling never wrote a political treatise Yet by reconstructing the portions of such works as *The New Deductions of Natural Right* that deal explicitly with the political and by thematically rethinking parts of his writings that have a clear repercussion on politics in particular those on nature freedom and religion this book reveals the centrality of politics to his oeuvre Revisiting his corpus in this way Stojkovski uncovers a number of ways we can learn from Schelling and his reception He examines how Schelling's views on nature can clarify our moral and political obligations to the non human world and further demonstrates how the separation of ontology as first philosophy from the ethico political has resulted in a fragmented view of the status of the political subject and thus the body politic Forcefully renouncing this fragmentation Stojkovski explores how the same divide has contributed to the ongoing political turmoil in Europe and America Combining an exploration of German Idealism with contemporary concerns this is an essential study that will introduce readers to a new Schelling a political thinker for the 21st century

The Encyclopedia of Christianity Erwin Fahlbusch, Geoffrey William Bromiley, 1999 The

Encyclopedia of Christianity is the first of a five volume English translation of the third revised edition of Evangelisches Kirchenlexikon. Its German articles have been tailored to suit an English readership and articles of special interest to English readers have been added. The encyclopedia describes Christianity through its 2000 year history within a global context taking into account other religions and philosophies. A special feature is the statistical information dispersed throughout the articles on the continents and over 170 countries. Social and cultural coverage is given to such issues as racism, genocide and armaments while historical content shows the development of biblical and apostolic traditions. This comprehensive work while scholarly is intended for a wide audience and will set the standard for reference works on Christianity. Outstanding reference sources 2000 American Libraries May 2000 Comp by the Reference Sources Committee RUSA ALA
