

THE POWDER OF SYMPATHY

BY
CHRISTOPHER MORLEY

have lived before our time on this plan-
et not one is known in history or in

perspective on early modern debates concerning embodiment Alanna Skuse examines diverse kinds of surgical alteration from mastectomy to castration and amputation to facial reconstruction Body altering surgeries had profound socio economic and philosophical consequences They reached beyond the physical self and prompted early modern authors to develop searching questions about the nature of body integrity and its relationship to the soul was the body a part of one s identity or a mere prison for the mind How was the body connected to personal morality What happened to the altered body after death Drawing on a wide variety of texts including medical treatises plays poems newspaper reports and travel writings this volume will argue the answers to these questions were flexible divergent and often surprising and helped to shape early modern thoughts on philosophy literature and the natural sciences This title is also available as Open Access on Cambridge Core
