Class and Class Conflict in the Age of Globalization

Berch Berberoglu,2009-01-01 Dealing with a central issue of our time

Class and Class Conflict in the Age of Globalization provides a critical analysis of the major theories of social class and inequality and an empirical examination of the development of social classes and class conflict on a global scale historically and today including an understanding of the process of social change and social transformation Levers of Power Michael Schwartz,Tarun Banerjee,Kevin A. Young,2020-07-07 It s no secret that the 1% the business elite that commands the largest corporations and the connected network of public and private institutions exercise enormous control over U S government While this control is usually attributed to campaign donations and lobbying Disruptive Power argues that corporate power derives from control over the economic resources on which daily life depends Government officials must constantly strive to keep capitalists happy lest they go on capital strike that is refuse to invest in particular industries or locations or move their holdings to other countries and therefore impose material hardship on specific groups or the economy as a whole For this reason even politicians who are not dependent on corporations for their electoral success must fend off the interruption of corporate investment Disruptive Power documents the pervasive power of corporations and other institutions with decision making control over large pools of capital particularly the Pentagon It also shows that the most successful reform movements in recent U S history for workers rights for civil rights and against imperialist wars succeeded by directly targeting the corporations and other institutional adversaries that initiated and benefitted from oppressive policies Though most of today s social movements focus on elections and politicians movements of the 99% are most effective when they inflict direct costs on corporations and their allied institutions This strategy is also more conducive to building a revolutionary mass movement that can replace current institutions with democratic alternatives **The State** ,2022-07-28 Written by a team of experts this text introduces all of the main competing theoretical approaches to the study of the state including pluralism Marxism institutionalism feminism green theory and more A brand new issues section enables readers to apply these key concepts and theoretical approaches to important developments in the state today This new edition offers Coverage of all key empirical and theoretical developments in the field with analysis of the impact of globalisation global financial upheavals Brexit Covid 19 and social movements such as Black Lives Matter A wide range of voices perspectives contemporary and historical examples giving readers a holistic overview of the field as well as deeper dives into key issues Brand new chapters on sovereignty security territory capital nationalism and populism Guided further reading suggestions at the end of each chapter Providing both a firm grounding in the key concepts and critical engagement with contemporary controversies and debates this text is ideal for those studying all aspects of the state Capitol Idea Donald E. Abelson,2006-08-14 Abelson focuses on a host of high profile think tanks including the Brookings Institution the Heritage Foundation and the Project for

the New American Century and on the public and private channels they rely on to influence important and controversial foreign policies including the development and possible deployment of a National Missile Defense and George Bush's controversial war on terror. In the process of uncovering how some of the nation's most prominent think tanks have established themselves as key players in the political arena, he challenges traditional approaches to assessing policy influence and suggests alternative models.

An Introduction to Classical and Contemporary Social Theory Berch

Berberoglu, 2005-07-14 This book provides a much needed critical perspective for an analysis of the works of some of the major classical and contemporary social theorists of the late nineteenth and twentieth centuries. Designed to stimulate interest in the beginning sociology student to examine the critical issues raised by these theorists, the book is intended as a text in introductory sociology and social theory courses to further familiarize students with the perspectives of some of the most prominent social theorists of our time. The twenty-one chapters that make up this book were designed to be brief, concise, and to the point, expressed whenever possible in the words of the theorists themselves, so that the central ideas can be presented in their original form. In this sense, this brief introductory theory book serves as an initial stepping stone to more in-depth analysis of theorists usually covered in more advanced social theory texts.

Pluralism, Democracy and Political Knowledge Hans Blokland, 2016-04-22 The political discontent or malaise that typifies most modern democracies is mainly caused by the widely shared feeling that the political freedom of citizens to influence the development of their society and related to this, their personal life has become rather limited. We can only address this discontent when we rehabilitate politics, the deliberate joint effort to give direction to society and to make the best of ourselves. In *Pluralism, Democracy and Political Knowledge*, Hans Blokland examines this challenge via a critical appraisal of the pluralist conception of politics and democracy. This conception was formulated by, above all, Robert A. Dahl, one of the most important political scholars and democratic theorists of the last half century. Taking his work as the point of reference, this book not only provides an illuminating history of political science told via Dahl and his critics; it also offers a revealing analysis as to what progress we have made in our thinking on pluralism and democracy and what progress we could make given the epistemological constraints of the social sciences. Above and beyond this, the development and the problems of pluralism and democracy are explored in the context of the process of modernization. The author specifically discusses the extent to which individualization, differentiation, and rationalization contribute to the current political malaise in those countries which adhere to a pluralist political system.

Annie Quinn in America Mical Schneider, 2001-01-01 To escape the Irish potato famine of the 1840s, twelve-year-old Annie and her brother immigrate to New York City where they join their older sister as servants, earning money to bring the rest of their family to America where they discover that both food and hardships abound.

Sociology

James Fulcher, John Scott, 2011-03-17 Sociology is relevant to current teaching and courses dealing with sociology as a living subject and incorporating the classic traditions of the discipline. This new edition has been updated with a range of new case

studies and additional chapters **Elite Theory and the 2003 Iraq Occupation by the United States** Bamo Nouri, 2021-09-09 This book locates US elites as members of corporate elite networks and drivers of corporate elite interests arguing that studying the social sources of US power plays an important part in understanding the nature of their decisions in US foreign policy Exploring the decisions taken by American elites on the Iraq War the author argues that the decisions and agendas US elites pursued in Iraq were driven by corporate elite interests embedded in them as individuals and in groups through the corporate elite networks they were rooted in which they prioritised using democracy promotion as a cover up Using elite theory membership network analysis and content analysis this book explains who these elites were how their backgrounds and social influences impacted their world views and what this looked like in a detailed exploration of their decision making on the ground in Iraq Nouri examines the nature of US power what drives it what it looks like and its legacies This volume provides valuable understandings and lessons to scholars and students of International Relations studying democracy US foreign policy post colonialism elite theory US imperialism neoliberalism orientalism Iraqi politics and the making of the Iraq constitution Corporate versus National Interest in US Trade Policy Richard L. Bernal, 2020-10-31 This book provides a history of the WTO US EU banana dispute through the lens of a major actor the US owned multinational firm Chiquita Brands International It documents and explains how Chiquita succeeded in having the Clinton administration pursue a trade policy of forcing the European Union to dismantle its preferential banana import regime for exports from the small English speaking Caribbean ESC countries The export of bananas was critically important to the social stability and economic viability of these countries and that was in the national security interest of the United States The experience indicates that succeeding in this goal was detrimental to U S national security interest in the Caribbean *Tendencies and Tensions of the Information Age* Jorge Reina Schement, 2018-04-24 The development of technology and the hunger for information has caused a wave of change in daily life in America Nearly every American's environment now consists of cable television video cassette players answering machines fax machines and personal computers Schement and Curtis argue that the information age has evolved gradually throughout the twentieth century National focus on the production and distribution of information stems directly from the organizing principles and realities of the market system not from a revolution sparked by the invention of the computer Now available in paperback *Tendencies and Tensions of the Information Age* brings together findings from many disciplines including classical studies etymology political sociology and macroeconomics This valuable resource will be enjoyed by sociologists historians and scholars of communication and information studies *Power* John Scott, 2018-02-21 This far reaching study gives a concise and coherent overview of the debates surrounding the analysis of social power The concept of power is outlined and its main dimensions are explored through consideration of various facets command pressure constraint discipline protest and interpersonal power The book examines both the theoretical debates that have arisen and the kinds of empirical materials

relevant to them Topics covered include the nature of the contemporary state global economic power world systems business governance professional power social movements and family dynamics Power will be an indispensable introduction for students and researchers in sociology politics and the social sciences generally

Friendly Fascism Gross Bertram Gross, 2020-07-19 The 8th November 2016 marked a startling new era in American political life After the creeping ascent of Right wing authoritarian parties in the UK and Europe Donald Trump's victory in the presidential election brought an alarming form of elite right neo conservatism into the American political mainstream Many aspects of this descent into the darkness of fascism was predicted by Bertram Gross in *Friendly Fascism* a provocative and original critique of a subtle yet growing fascism in American political life Gross shows that the chronic problems faced by the U S in the late twentieth century required increasing collusion between big business and big government to manage society in the interests of the privileged and powerful The resulting 'friendly fascism' Gross suggests lacks the dictatorships public spectacles and overt brutality of 20th century fascism but has at its root the same denial of individual freedoms and democratic rights No one who cares about the future of democracy can afford to ignore the frightening realities of *Friendly Fascism* *The Wiley-Blackwell Companion to Political Sociology* Edwin Amenta, Kate Nash, Alan Scott, 2016-09-26 The Wiley Blackwell Companion to Political Sociology is a complete reference guide reflecting the scope and quality of the discipline and highlighting emerging topics in the field Global in focus offering up to date topics from an interdisciplinary international set of scholars addressing key issues concerning globalization social movements and citizenship The majority of chapters are new including those on environmental politics international terrorism security corruption and human rights Revises and updates all previously published chapters to include new themes and topics in political sociology Provides an overview of scholarship in the field with chapters working independently and collectively to examine the full range of contributions to political sociology Offers a challenging yet accessible and complete reference guide for students and scholars

Race, Gender, Sexuality, and Social Class Susan J. Ferguson, 2023-06-08 *Race Gender Sexuality and Social Class* Fourth Edition is an anthology of readings that explores the ways these social statuses shape our experiences and impact our life chances in society today Organized around broad topics identity power and privilege social institutions etc rather than categories of difference race gender class sexuality to underscore the idea that social statuses often intersect with one another to produce inequalities and form the bases of our identities in society The text features readings by leading experts in the field and reflects the many approaches scholars and researchers use to understand issues of diversity power and privilege Included with this title LMS Cartridge Import this title's instructor resources into your school's learning management system LMS and save time Don't use an LMS You can still access all of the same online resources for this title via the password protected Instructor Resource Site

Capital as Power Jonathan Nitzan, Shimshon Bichler, 2009-06-02 The book presents a radically new framework for understanding capital as a mode of power Challenging the liberal and Marxist approaches it articulates a

new theory of accumulation develops new empirical methods of research and offers a new history of capitalism Bringing Class Back In Scott G. McNall, 2019-03-04 In recent years a flurry of poststructuralist post Marxist and statecentered approaches have emerged in historical and sociological scholarship Far from ignoring these developments the study of class has shaped and been shaped by them As the selections in this volume indicate class analysis changes and develops while sustaining itself as a powerful refined working tool in helping scholars understand the complexities of social and historical processes This volume provides a cross section of the rich body of social theory and empirical research being produced by scholars employing class analysis It demonstrates the variety vibrancy and continuing value of class analysis in historical and sociological scholarship The work of promising young scholars is combined with contributions from well established figures to produce a volume that addresses continuing debates over the relationship between structure and agency the centrality of class relations and the dynamics of class formation class culture and class consciousness Critical Theories of the State Clyde W. Barrow, 1993-03-01 Critical Theories of the State is a clear and accessible survey of radical perspectives on the modern state By focusing on Marxist theory and its variations particularly as applied to advanced industrial societies and contemporary welfare states Clyde W Barrow provides a more extensive and thorough treatment than is available in any other work Barrow divides the methodological assumptions and key hypotheses of Marxist Neo Marxist and Post Marxist theories into five distinct approaches instrumentalist structuralist derivationist systems analytic and organizational realist He categorizes the many theorists discussed in the book including such thinkers as Elmer Altvater G William Domhoff Fred Block Claus Offe and Theda Skocpol according to their concepts of the state s relationship to capital and their methodological approach to the state Based on this survey Barrow elaborates a compelling typology of radical state theories that identifies with remarkable clarity crucial points of overlap and divergence among the various theories Scholars conducting research within the rubric of state theory political development and policy history will find Critical Theories of the State an immensely valuable review of the literature Moreover Barrow s work will make an excellent textbook for undergraduate and graduate courses in political science and sociology and can also be used by those teaching theory courses in international relations history and political economy
