The Prehistoric Carved Rocks of Northumberland Stan Beckensall, 1974-01-01 Grossbritannien Irland Wandmalerei Wandkunst Frühbronzezeit BrA BrB1 Endneolithikum Northumberland **Northumberland's Prehistoric Rock Carvings** Stan Beckensall, 1983 Abstractions Based on Circles: Papers on prehistoric rock art presented to Stan Beckensall on his 90th birthday Paul Frodsham, Kate Sharpe, 2022-09-22 Stan Beckensall is renowned for his work done on an entirely amateur basis discovering recording and interpreting Atlantic rock art in his home county of Northumberland and beyond Presented on his 90th birthday this diverse and stimulating collection of papers celebrates his crucial contribution to rock art studies and looks to the future **Art as Metaphor** Aron D. Mazel, George Nash, Clive Waddington, 2007 Enigmatic esoteric and fascinating the rock art of the British Isles has for a long time been a well kept secret This volume brings together a carefully selected collection of papers reporting on recent discoveries and regional surveys covering British prehistoric rock art from over 10 000 years ago **Signalling and Performance: Ancient Rock Art in Britain and Ireland** Aron Mazel, George Nash, 2022-08-28 This lavishly illustrated volume presents a state of the art survey of the ancient rock art of Britain and Ireland Bringing together new discoveries and new interpretations it enhances our understanding and further establishes ancient British and Irish rock art as a significant archaeological assemblage worthy of attention and additional study Rock Art and the Prehistory of Atlantic Europe Mr Richard Bradley, Richard Bradley, 2002-11-01 Along the Atlantic seaboard from Scotland to Spain are numerous rock carvings made four to five thousand years ago whose interpretation poses a major challenge to the archaeologist In the first full length treatment of the subject based largely on new fieldwork Richard Bradley argues that these carvings should be interpreted as a series of symbolic messages that are shared between monuments artefacts and natural places in the landscape He discusses the cultural setting of the rock carvings and the ways in which they can be interpreted in relation to ancient land use the creation of ritual monuments and the burial of the dead Integrating this fascinating yet little known material into the mainstream of prehistoric studies Richard Bradley demonstrates that these carvings played a fundamental role in the organization of the prehistoric landscape European Landscapes of Rock-Art Christopher Chippindale, George Nash, 2003-09-02 Rock art the ancient images which still scatter the rocky landscapes of Europe is a singular kind of archaeological evidence Fixed in place it does not move about as artefacts as trade objects do Enigmatic in its meaning it uniquely offers a direct record of how prehistoric Europeans saw and envisioned their own worlds European Landscapes of Rock Art provides a number of case studies covering a range of European locations including Ireland Italy Scandinavia Scotland and Spain which collectively address the chronology and geography of rock art as well as providing an essential series of methodologies for future debate Each author provides a synthesis that focuses on landscape as an essential part of rock art construction From the paintings and carved images of prehistoric Scandinavia to Second World War graffiti on the German Reichstag this volume looks beyond the art to the society that made it The papers

in this volume also challenge the traditional views of how rock art is recorded Throughout there is an emphasis on informal and informed methodologies The authors skilfully discuss subjectivity and its relationship with landscape since personal experience from prehistoric times to the present day plays an essential role in the interpretation of art itself The emphasis is on location on the intentionality of the artist and on the needs of the audience This exciting volume is a crucial addition to rock art literature and landscape archaeology It will provide new material for a lively and greatly debated subject and as such will be essential for academics non academics and commentators of rock art in general

**Prehistoric Rock Art of the West Riding** K. J. S. Boughey, E. A. Vickerman, 2003 Open-Air Rock-Art Conservation and Management Timothy Darvill, Antonio Batarda Fernandes, 2014-06-20 While much has been achieved in understanding and managing weather effects and erosion phenomena affecting ancient imagery within the relatively protected environments of caves and rock shelters the same cannot be said of rock art panels situated in the open air Despite the fact that the number of known sites has risen dramatically in recent decades there are few examples in which the weathering and erosion dynamics are under investigation with a view to developing proposals to mitigate the impact of natural and cultural processes Most of the work being done in different parts of the world appears to be ad hoc with minimal communication on such matters between teams and with the wider archaeological community This richly illustrated book evaluates rock art conservation in an holistic way bringing together researchers from across the world to share experiences of work in progress or recently completed The chapters focus on a series of key themes documentation projects and resource assessments the identification and impact assessment of weathering erosion processes at work in open air rock art sites the practicalities of potential or implemented conservation interventions experimentation and monitoring programs and general management issues connected with public presentation and the demands of ongoing research investigations Consideration is given to the conservation of open air rock art imagery from many periods and cultural traditions across the Old and New Worlds This timely volume will be of interest to conservators managers and researchers dealing with aesthetic and ethical issues as well as technical and practical matters regarding the conservation of open air rock art sites
