

The background of the book cover is a complex abstract composition of various geometric shapes, including rectangles, triangles, and curved polygons. These shapes are filled with different colors: shades of green at the top, various tones of blue in the middle and bottom, and a single vertical orange rectangle on the right side. The shapes are separated by thick black lines, creating a fragmented, mosaic-like effect.

The Premodern Condition Medievalism And The Making Of Theory:

The Premodern Condition Bruce Holsinger, 2005-12 Bruce Holsinger identifies and explains an affinity for medievalism and medieval studies among the leading figures of critical theory His book contains original essays by Bataille and Bourdieu translated into English that testify to the strange persistence of medievalisms in French postwar writings *Symbolic Reproduction in Early Medieval England* Katharine Sykes, 2024-06-27 In the early Middle Ages the conversion of the early English kingdoms acted as a catalyst for significant social and cultural change One of the most visible of these changes was the introduction of a new type of household the monastic household These reproduced through education and training rather than biological means their inhabitants practised celibacy as a lifelong state rather than as a stage in the life course Because monastic households depended on secular households to produce the next generation of recruits previous studies have tended to view them as more mutable than their secular counterparts which are implicitly regarded as natural and ahistorical Katharine Sykes charts some of the significant changes to the structure of households between the seventh to eleventh centuries as ideas of spiritual non biological reproduction first fostered in monastic households were adopted in royal households in the tenth and eleventh centuries and as ideas about kinship that were generated in secular households such as the relationship between genealogy and inheritance were picked up and applied by their monastic counterparts In place of binary divisions between secular and monastic biological and spiritual real and imagined Sykes demonstrates that different forms of kinship and reproduction in this period were intimately linked Readings in Medieval Textuality Cristina Maria Cervone, D. Vance Smith, 2016 III Subjectivity and the Self 6 Re reading Troilus in Response to Tony Spearing 7 The English Charles Subjectivity Texts and Culture IV Reading for Form 8 The Inescapability of Form 9 Destroyer of Forms Chaucer's Philomela 10 Gower's Confessio Amantis and Chaucer's Canterbury Tales as Dits 11 Poems without Form Maiden in the mor lay Revisited 12 I and We in Chaucer's Complaint unto Pity V Epilogue 13 Two Appreciations of A C Spearing 14 Announcing a Literary Find Apparently Related to the Gawain poet Works Cited Index *Neomedievalism, Popular Culture, and the Academy* Kelly Ann Fitzpatrick, 2019 The medieval in the modern world is here explored in a variety of media from film and book to gaming Comic Medievalism Louise D'Arcens, 2014 The role of laughter and humour in the postmedieval citation interpretation or recreation of the middle ages has hitherto received little attention a gap in scholarship which this book aims to fill Examining a wide range of comic texts and practices across several centuries from Don Quixote and early Chaucerian modernisation through to Victorian theatre the Monty Python films television and the experience of visiting sites of heritage tourism such as the Jorvik Viking Museum at York it identifies what has been perceived as uniquely funny about the Middle Ages in different times and places and how this has influenced ideas not just about the medieval but also about modernity Tracing the development and permutations of its various registers including satire parody irony camp wit jokes and farce the author offers fresh and amusing insight into comic medievalism as a vehicle for critical commentary on the present as well as

the past and shows that for as long as there has been medievalism people have laughed at and with the middle ages Louise D Arcens is Associate Professor in English Literatures at the University of Wollongong The Post-Historical Middle Ages E. Scala,2009-05-25 This collection of original essays repositions medieval literary studies after an era of historicism Analyzing the legacy of Marxist and materialist theory on medieval literary criticism the collection offers new ways of reading texts historically Drawing upon aesthetic ethical and cultural vantage points and methods these essays demonstrate that a variety of approaches and theories are historical and can change what it means to historicize medieval literature By defining our post historical moment in medieval English literary studies in terms of new possibilities this collection will have broad appeal to those interested in the English Middle Ages history culture and reading itself The Cambridge Companion to Medievalism Louise D'Arcens,2016-03-02 Medievalism the creative interpretation or recreation of the European Middle Ages has had a major presence in the cultural memory of the modern West and has grown in scale to become a global phenomenon Countless examples across aesthetic material and political domains reveal that the medieval period has long provided a fund of images and ideas that have been vital to defining the modern Bringing together local national and global examples and tracing medievalism s unpredictable course from early modern poetry to contemporary digital culture this authoritative Companion offers a panoramic view of the historical aesthetic ideological and conceptual dimensions of this phenomenon It showcases a range of critical positions and approaches to discussing medievalism from more traditional historicist and close reading practices through to theoretically engaged methods It also acquaints readers with key terms and provides them with a sophisticated conceptual vocabulary for discussing the medieval afterlife in the modern *Cultural Reformations* Brian Cummings,James Simpson,2010-06-24 The original essays in Oxford Twenty First Century Approaches to Literature mean to provoke rather than reassure to challenge rather than codify Instead of summarizing existing knowledge scholars working in the field aim at opening fresh discussion instead of emphasizing settled consensus they direct their readers to areas of enlivened and unresolved debate The deepest periodic division in English literary history has been between the Medieval and the Early Modern not least because the cultural investments in maintaining that division are exceptionally powerful Narratives of national and religious identity and freedom of individual liberties of the history of education and scholarship of reading or the history of the book of the very possibility of persuasive historical consciousness itself each of these narratives and more is motivated by positing a powerful break around 1500 None of the claims for a profound historical and cultural break at the turn of the fifteenth into the sixteenth centuries is negligible The very habit of working within those periodic bounds either Medieval or Early Modern tends however simultaneously to affirm and to ignore the rupture It affirms the rupture by staying within standard periodic bounds but it ignores it by never examining the rupture itself The moment of profound change is either for medievalists just over an unexplored horizon or for Early Modernists a zero point behind which more penetrating examination is unnecessary That situation is now rapidly changing Scholars are building bridges that link

previously insular areas Both periods are starting to look different in dialogue with each other The change underway has yet to find collected voices behind it Cultural Reformations volume aims to provide those voices It will give focus authority and drive to a new area

The Militant Middle Ages Tommaso di Carpegna Falconieri, 2019-11-04 In The Militant Middle Ages historian Tommaso di Carpegna Falconieri delves into common perceptions of the Middle Ages and how these views shape contemporary political contexts Today more than ever the medieval era is mined from across the political spectrum for symbols examples allegories and models to represent and interpret the present From new crusades to fantasy literature and cosplay from Catholic Traditionalism to environmentalism from neo Vikings to medieval tourism and festivals Carpegna Falconieri leads us in an impassioned and often disquieting journey through the Modern Middle Ages The first book length study dedicated to the broad phenomenon of political medievalism The Militant Middle Ages offers a new lens for scrutinizing contemporary society through its instrumentalization of the medieval past First published in Italian as Medioevo militante La politica di oggi alle prese con barbari e crociati 2011 Giulio Einaudi editore s p a Torino

A Handbook of Middle English Studies Marion Turner, 2013-01-30 A Handbook of Middle English Studies This sharp minded coherent set of essays both maps and liberates not only does it map the intellectual territory of contemporary cultural debate it also liberates the extraordinary texts of later medieval England to move across that contemporary cultural terrain James Simpson Harvard University Marion Turner has skilfully choreographed an exciting ensemble of fresh accounts of the English Middle Ages We see the period in a new light that shows with compassion and imagination as well as thoughtful scholarship how the literature of the past speaks to contemporary preoccupations Ardis Butterfield Yale University Strikingly original theory literate and materially grounded ways of reading Middle English texts David Wallace University of Pennsylvania A Handbook of Middle English Studies presents twenty six original and accessible essays by leading scholars analyzing the relationship between critical theory and late medieval literature The collection offers a range of entry points into the rich field of medieval literary studies exploring subjects including the depiction of the self and the mind the literature of conquest ideas of beauty and aesthetics and the relationship between place and literature Topics that have long been central to the field such as authorship gender and race feature alongside areas only recently coming under critical scrutiny such as globalization the environment and animality Collectively the essays demonstrate that the manuscript culture of late medieval literature raises key theoretical issues concerning the relationship between authors texts and readers A Handbook of Middle English Studies models diverse approaches to medieval texts and stakes a claim in debates about topics ranging from class to the canon from imagination to nationhood from sexuality to the public sphere

A Cultural History of Sexuality in the Middle Ages Ruth Evans, 2012-03-01 Historians of sexuality have often assumed that medieval people were less interested in sex than we are But people in the Middle Ages wrote a great deal about sex in confessors manuals in virginity treatises and in literary texts This volume looks afresh at the cultural meanings that sex had throughout the period presenting new evidence and offering new interpretations of known material Acknowledging that many of the categories that we use today to talk about sexuality are inadequate for understanding sex in premodern times the volume draws on important recent work in the historiography of medieval sexuality to address the conceptual and methodological challenges the period presents A Cultural History of Sexuality in the Middle Ages presents an overview of the period with essays on heterosexuality homosexuality sexual variations religious and legal issues health concerns popular beliefs about sexuality prostitution and erotica *King's Hall, Cambridge and the Fourteenth-Century Universities*

Goodson, Anne E. Lester, Carol Symes, 2017-05-15 Cities Texts and Social Networks examines the experiences of urban life from late antiquity through the close of the fifteenth century in regions ranging from late Imperial Rome to Muslim Syria Iraq and al Andalus England the territories of medieval Francia Flanders the Low Countries Italy and Germany Together the volume's contributors move beyond attempts to define the city in purely legal economic or religious terms Instead they focus on modes of organisation representation and identity formation that shaped the ways urban spaces were called into being used and perceived Their interdisciplinary analyses place narrative and archival sources in communication with topography the built environment and evidence of sensory stimuli in order to capture sights sounds physical proximities and power structures Paying close attention to the delineation of public and private spaces and secular and sacred precincts each chapter explores the workings of power and urban discourse and their effects on the making of meaning The volume as a

whole engages theoretical discussions of urban space its production consumption memory and meaning which too frequently misrepresent the evidence of the Middle Ages It argues that the construction and use of medieval urban spaces could foster the emergence of medieval public spheres that were fundamental components and by products of pre modern urban life The resulting collection contributes to longstanding debates among historians while tackling fundamental questions regarding medieval society and the ways it is understood today Many of these questions will resonate with scholars of postcolonial or non Western cultures whose sources and cities have been similarly marginalized in discussions of urban space and experience And because these essays reflect a considerable geographical temporal and methodological scope they model approaches to the study of urban history that will interest a wide range of readers Outsider Theory Jonathan Eburne,2018-09-18 A vital and timely reminder that modern life owes as much to outlandish thinking as to dominant ideologies What do the Nag Hammadi library Dan Brown s The Da Vinci Code speculative feminist historiography Marcus Garvey s finances and maps drawn by asylum patients have in common Jonathan P Eburne explores this question as never before in *Outsider Theory* a timely book about outlandish ideas Eburne brings readers on an adventure in intellectual history that stresses the urgency of taking seriously especially in an era of fake news ideas that might otherwise be discarded or regarded as errant unfashionable or even unreasonable Examining the role of such thinking in contemporary intellectual history Eburne challenges the categorical demarcation of good ideas from flawed wild or bad ones addressing the surprising extent to which speculative inquiry extends beyond the work of professional intellectuals to include that of nonprofessionals as well whether amateurs unfashionable observers or the clinically insane Considering the work of a variety of such figures from popular occult writers and gnostics to so called outsider artists and pseudoscientists Eburne argues that an understanding of its circulation and recirculation is indispensable to the history of ideas He devotes close attention to ideas and texts usually omitted from or marginalized within orthodox histories of literary modernism critical theory and continental philosophy yet which have long garnered the critical attention of specialists in religion science studies critical race theory and the history of the occult In doing so he not only sheds new light on a fascinating body of creative thought but also proposes new approaches for situating contemporary humanities scholarship within the history of ideas However important it might be to protect ourselves from bad ideas *Outsider Theory* shows how crucial it is for us to know how and why such ideas have left their impression on modern day thinking and continue to shape its evolution *A Handbook of Anglo-Saxon Studies* Jacqueline Stodnick,Renée Trilling,2012-08-08 Reflecting the profound impact of critical theory on the study of the humanities this collection of original essays examines the texts and artifacts of the Anglo Saxon period through key theoretical terms such as ethnicity and gender Explores the interplay between critical theory and Anglo Saxon studies Theoretical framework will appeal to specialist scholars as well as those new to the field Includes an afterword on the value of the dialogue between Anglo Saxon studies and critical theory Music and Instruments of the Middle Ages Tess

Knighon,David Skinner,2020 Essays on important topics in early music The Legitimacy of the Middle Ages Andrew Cole,D. Vance Smith,2010-02-08 A collection of theoretical essays arguing that theorists of modernity must reckon with the medieval which is not as some have asserted completely separate or different from the modern The Postmodern Saints of France Colby Dickinson,2013-07-18 From the mid to the late 20th century various French thinkers have at times toyed with the label of the saint applying it to friends colleagues the revered nd even the worshipped such as Genet Sartre Camus or Foucault Despite this profaning of the term however here are many subtle truths which emerge from its usage among such writers This volume is devoted to exploring certain varied notions of the saint in recent French philosophical and literary thought from within a theological context offering insights and valuable contributions toward how we understand sainthood in cultural philosophical and religious terms Each essay focuses on the convergence of a particular author s work and their various re formulations of saintliness in their writings whether this concept is directly expressed in their writings or not In general the aim of the volume is to develop a critical engagement between each authors philosophical worldview and historical notions of sainthood such that we are capable of providing new understandings of what a saint could be said to be in our world today
