

Note to Parents

Dear Parents,

Happy new school year! I am so excited to be your child's teacher for their 1st grade year! I have been teaching 1st grade for 18 years and I feel truly lucky to do a job I am passionate about. To be most effective I am writing to ask you to become a partner with me in your child's education. I will only have your child for a short time so I want to make a contribution that will last a lifetime.

I know my teaching must begin with making children feel at home in the classroom and helping all the children come together into a learning community. This community is made up of unique individuals, each with his or her own learning style, strengths, interests, history, hopes, and dreams.

Would you please help me by taking a moment to write about your child: What is your child like? What are his or her interests? What are things you, as a parent, know that would be important for me to know? What has his or her school experiences been like so far? How do you see your child as a learner and as a person? What are your main goals for your child this year? Please use the attached envelope and kindly send in your response by Friday, July 12th.

Thank you for your cooperation. I look forward to a wonderful partnership in your child's education.

Sincerely,
Mrs. Christina Winter

The Preschool Letters And Notes To Parents:

The Preschool Letters and Notes to Parents Book Kathy Charner,1989 *The Jewish Educational Leader's Handbook* Robert E. Tornberg,1998 Classroom teaching it addresses supplementary school settings and features a Noticeably larger section devoted to the growing day school sector **Reading and Writing in Preschool** Renée M. Casbergue,Dorothy S. Strickland,2015-12-01 This book describes effective engaging ways to build young children's print concepts and alphabetic knowledge which are crucial for both reading and writing development Presenting shared reading shared writing and targeted instructional activities each chapter features helpful classroom vignettes a section debunking myths about preschool literacy and Ideas for Discussion Reflection and Action Strategies are provided for creating print rich classroom and home environments and differentiating instruction for diverse students including English language learners The book also discusses how to assess preschoolers reading and writing progress Reproducible checklists and parent handouts can be downloaded and printed in a convenient 8 1/2 x 11 size **School Administrator's Complete Letter Book** ,2003-04-30 The School Administrator's Complete Letter Book with CD ROM Second Edition offers a comprehensive selection of model letters and memos for a wide variety of educational purposes and situations This book and its accompanying CD contain a gold mine of tested usable letters and other communiques some of which can be used practically word for word from the book while others can be adapted to your specific needs The book's letters and memos represent the contributions of more than 60 outstanding school administrators throughout the United States including superintendents principals supervisors guidance counselors and others all of them with well earned reputations for solid professional communication Many types of letters are included letters addressed to parents teachers students teacher applicants other school administrators businesspeople and the community at large In addition this handy resource is clearly organized designed for easy use and filled with the best letters of the best communicators in modern American education The CD ROM makes the letters easy to modify to fit your own situations **The Witch-Hunt Narrative** Ross E. Cheit,2014-04-28 In the 1980s a series of child sex abuse cases rocked the United States The most famous case was the 1984 McMartin preschool case but there were a number of others as well By the latter part of the decade the assumption was widespread that child sex abuse had become a serious problem in America Yet within a few years the concern about it died down considerably The failure to convict anyone in the McMartin case and a widely publicized appellate decision in New Jersey that freed an accused molester had turned the dominant narrative on its head In the early 1990s a new narrative with remarkable staying power emerged the child sex abuse cases were symptomatic of a moral panic that had produced a witch hunt A central claim in this new witch hunt narrative was that the children who testified were not reliable and easily swayed by prosecutorial suggestion In time the notion that child sex abuse was a product of sensationalized over reporting and far less endemic than originally thought became the new common sense But did the new witch hunt narrative accurately represent reality As Ross Cheit

demonstrates in his exhaustive account of child sex abuse cases in the past two and a half decades purveyors of the witch hunt narrative never did the hard work of examining court records in the many cases that reached the courts throughout the nation. Instead they treated a couple of cases as representative and concluded that the issue was blown far out of proportion. Drawing on years of research into cases in a number of states Cheit shows that the issue had not been blown out of proportion at all. In fact child sex abuse convictions were regular occurrences and the crime occurred far more frequently than conventional wisdom would have us believe. Cheit's aim is not to simply prove the narrative wrong; however, he also shows how a narrative based on empirically thin evidence became a theory with real social force and how that theory stood at odds with a far more grim reality. The belief that the charge of child sex abuse was typically a hoax also left us unprepared to deal with the far greater scandal of child sex abuse in the Catholic Church, which incidentally has served to substantiate Cheit's thesis about the pervasiveness of the problem. In sum, *The Witch Hunt Narrative* is a magisterial and empirically powerful account of the social dynamics that led to the denial of widespread human tragedy. [Resources in Education](#), 2001-10

Pivotal Research in Early Literacy Christina M. Cassano, Susan M. Dougherty, 2018-06-14 This reader-friendly text examines the key foundational studies in early literacy. It addresses such essential questions as how research informs current practices and where the field still needs to go to provide the best learning opportunities for all children. Each chapter describes the methods and findings of seminal studies, critically assesses their long-term impact on practice and policy, and offers takeaways for the classroom. Leading authorities, including several authors of the original pivotal studies, cover 12 essential aspects of language development, literacy development, and home and community literacy experiences in PreK-2. Eisenstock follows several families across the country from their first school tours until the moment they open their admissions letters. He interviews admissions directors, school heads, teachers, educational consultants, and kindergarten tutors who coach both parents and kids. Did you know the most important line in your child's application is where you, the parent, went to college? Did you know that you can qualify for financial aid even if you make 192,000 a year? Eisenstock uncovers startling information, starting with how private school admissions directors decide who gets in. Does the child of a single woman of ethnic diversity on financial aid have a better chance of getting into an elite

Fletcher-Flinn,2015-09-28 Learning to read and to spell are two of the most important cultural skills that must be acquired by children and for that matter anyone learning a second language We are not born with an innate ability to read A reading system of mental representations that enables us to read must be formed in the brain Learning to read in alphabetic orthographies is the acquisition of such a system which links mental representations of visual symbols letters in print words with pre existing phonological sound and semantic comprehension cognitive systems for language Although spelling draws on the same representational knowledge base and is usually correlated with reading the acquisition processes involved are not quite the same Spelling requires the sequential production of letters in words and at beginning levels there may not be a full degree of integration of phonology with its representation by the orthography Reading on the other hand requires only the recognition of a word for pronunciation Hence spelling is more difficult than reading and learning to spell may necessitate more complete representations or more conscious access to them The learning processes that children use to acquire such cognitive systems in the brain and whether these same processes are universal across different languages and orthographies are central theoretical questions Most children learn to read and spell their language at the same time thus the co ordination of these two facets of literacy acquisition needs explication as well as the effect of different teaching approaches on acquisition Lack of progress in either reading and or spelling is also a major issue of concern for parents and teachers necessitating a cross disciplinary approach to the problem encompassing major efforts from researchers in neuroscience cognitive science experimental psychology and education The purpose of this Research Topic is to summarize and review what has been accomplished so far and to further explore these general issues Contributions from different perspectives are welcomed and could include theoretical computational and empirical works that focus on the acquisition of literacy including cross orthographic research *The Impact of Home and School Environment on Early Literacy and Mathematic Skills* Paola
