The Church Unfinished Bernard P. Prusak, 2004. Like human life the Catholic or universal Church is lived forward but understood backward. To appreciate the Church's past however does not require that we simply repeat it. Using such a framework this book puts the present period of the Church in vast historical context. It traces how the Church came from the community of unexpected persons whom Jesus gathered around himself and was then shaped over the course of centuries by human decisions made in the Spirit. The Church's catholicity is seen to involve an ever

expanding memory embracing the immense richness of past and present times places and cultures and at the same time an openness to assimilating and possibly being transformed by a future history in which God offers new possibilities The book thus proposes that the Church's leadership would do well to nurture a renewed eschatological attitude that embraces a genuine openness to the newness and surprise of the future leaving room not only for continuity but also for the important elements of change and transformation For what the Church is only the entirety of its history will fully reveal The Church of Ireland Defended. A Lecture Delivered ... November 4, 1867. ... Second Edition, Revised, Etc John Deacon MASSINGHAM, 1868
