War history international relations and the history of American diplomacy with particular emphases on informal diplomacy and the modern history of the US China economic relationship **American Default** Sebastian Edwards,2018-05-22 The untold story of how FDR did the unthinkable to save the American economy The American economy is strong in large part because nobody believes that America would ever default on its debt Yet in 1933 Franklin D Roosevelt did just that when in a bid to pull the country out of depression he depreciated the U S dollar in relation to gold effectively annulling all debt contracts American Default is the story of this forgotten chapter in America s history Sebastian Edwards provides a compelling account of the economic and legal drama that embroiled a nation already reeling from global financial collapse It began on April 5 1933 when FDR ordered Americans to sell all their gold holdings to the government This was followed by the abandonment of the gold standard the unilateral and retroactive rewriting of contracts and the devaluation of the dollar Anyone who held public and private debt suddenly saw its value reduced by nearly half and debtors including the U S government suddenly owed their creditors far less Revaluing the dollar imposed a hefty loss on investors and savers many of them middle class American families The banks fought back and a bitter battle for gold ensued In early 1935 the case went to the Supreme Court Edwards describes FDR s rancorous clashes with conservative Chief Justice Charles Evans Hughes a confrontation that threatened to finish the New Deal for good and that led to FDR s attempt to pack the court in 1937 At a time when several major economies never approached the brink of default or devaluing or recalling currencies American Default is a timely account of a little known yet drastic experiment with these policies the inevitable backlash and the ultimate result *The Crafting of the Postwar Peace Treaty with Japan, 1945–1951* Seung Mo Kang,2024-11-20 This book examines how the Treaty of Peace with Japan a momentous agreement that delineated postwar order in the Pacific was negotiated between Japan and 48 other nations in 1951 Even though the treaty was created to legally end the state of war between Japan and its Pacific War enemies many other considerations some of which had hardly anything to do with the Pacific War were involved The US Soviet rivalry was the most representative but this was not the only factor For instance the decision to invite Cambodia Laos and Vietnam as signatories was determined based on French colonial interests Indochinese yearning for independence and the need for French contribution in the North Atlantic Treaty Organization Similarly German reparations settlements after the First and Second World Wars impacted Japanese reparations settlement Meanwhile the commercial terms of the treaty were informed by the Great Depression and its legacies This book addresses these aspects of the peace treaty that are hitherto not sufficiently elaborated upon in existing studies Highlighting the importance of the treaty for shaping postwar East Asia and international relations in the region to the present day this book will be a valuable resource for students and scholars of post war Japan International relations and the Cold War *Executive Impoundment of Appropriated Funds* United States. Congress. Senate. Judiciary,1971
