The Realness of Things Past Greg Anderson, 2018-08-14 The Realness of Things Past proposes a new paradigm of historical practice It questions the way we conventionally historicize the experiences of non modern peoples western and non western and makes the case for an alternative It shows how our standard analytical devices impose modern dualist metaphysical conditions upon all non modern realities thereby authorizing us to align those realities with our own modern ontological commitments fundamentally altering their contents in the process The net result is a practice that homogenizes the past's many different ways of being human To produce histories that are more ethically defensible more philosophically robust and more historically meaningful we need to take an ontological turn in our practice The book works to formulate a non dualist historicism that will allow readers to analyse each past reality on its own ontological terms as a more or less autonomous world unto itself To make the case for this alternative paradigm the book engages with currents of thought in many different intellectual provinces from anthropology and postcolonial studies to the sociology of science and quantum physics And to demonstrate how the new paradigm might work in practice it uses classical Athens as its primary case study The Realness of Things Past is divided into three parts To highlight the limitations of conventional historicist analysis and the need for an alternative Part I critically scrutinizes our standard modern accounts of democratic Athens Part II draws on a wide range of historical ethnographic and theoretical literatures to frame ethical and philosophical mandates for the proposed ontological turn To illustrate the historical benefits of this alternative paradigm Part III then shows how it allows us

to produce an entirely new and more meaningful account of the Athenian politeia or way of life The book is expressly written to be accessible to a non specialist cross disciplinary readership *History of Ancient Civilization ...: The ancient Near East and Greece* Albert Augustus Trever,1963 Built upon Love Alberto Perez-Gomez,2008-02-15 A vision of architecture that transcends concerns of form and function and finds the connections between the architect's wish to design a beautiful world and architecture's imperative to provide a better place for society The forced polarity between form and function in considerations of architecture opposing art to social interests ethics to poetic expression obscures the deep connections between ethical and poetical values in architectural tradition Architecture has been and must continue to be writes Alberto Perez Gomez built upon love Modernity has rightly rejected past architectural excesses but Perez Gomez argues the materialistic and technological alternatives it proposes do not answer satisfactorily the complex desire that defines humanity True architecture is concerned with far more than fashionable form affordable homes and sustainable development it responds to a desire for an eloquent place to dwell one that lovingly provides a sense of order resonant with our dreams In Built upon Love Perez Gomez uncovers the relationship between love and architecture in order to find the points of contact between poetics and ethics between the architect's wish to design a beautiful world and architecture's imperative to provide a better place for society Eros as first imagined by the early lyric poets of classical Greece is the invisible force at the root of our capacity to create and comprehend the poetic image Perez Gomez examines the nature of architectural form in the light of eros seduction and the tradition of the poetic image in Western architecture He charts the ethical dimension of architecture tracing the connections between philia the love of friends that entails mutual responsibility among equals and architectural program He explores the position of architecture at the limits of language and discusses the analogical language of philia in modernist architectural theory Finally he uncovers connections between ethics and poetics describing a contemporary practice of architecture under the sign of love incorporating both eros and philia *Dance Studies: The Basics* Jo Butterworth,2011-02-27 A concise introduction to the study of dance ranging from the practical aspects such as technique and choreography to more theoretical considerations such as aesthetic appreciation and the place of dance in different cultures This book answers questions such as Exactly how do we define dance What kinds of people dance and what kind of training is necessary How are dances made What do we know about dance history Featuring a glossary chronology of dance history and list of useful websites this book is the ideal starting point for anyone interested in the study of dance *Chora 1* Alberto Pérez-Gómez,Stephen Parcell,1994-12-15 Contents Chora The Space of Architectural Representation Alberto Perez Gomez The Measure of Expression Physiognomy and Character in the Nouvelle Methode of Jean Jacques Lequeu Jean Francois Bard Michelangelo The Image of the Human Body Artifice and Architecture Helmut Klassen Architecture as Site of Reception Part I Cuisine Frontality and the Infra thin Donald Kunze Fictional Cities Graham Livesey Instrumentality and the Organic Assistance of Looms Indra Kagis McEwen Space and Image in Andrey Tarkovsky's Nostalgia Notes on a Phenomenology of
