Social Impact Of Informal Economies In Eastern Europe Transition And Development Series:

The Social Impact of Informal Economies in Eastern Europe Manuela Stanculescu, 2018-05-08 This title was first published in 2002 In State socialist societies informal economies were essential for the functioning of the economy as well as for household provision Since the beginning of social transformation they have been flourishing better than ever before They are a main outlet on the market for the newly emerging middle classes stabilize the situation of many workers and pensioners and in countries on the downward slope they are essential for the survival of large impoverished groups Presenting recent research on the social importance of informal economies especially in Bulgaria Hungary Romania and Russia the editors give a short introduction for each country and a common compilation of basic economic and social data follows in the appendix Household strategies in the shadow groups of informal winners and losers informal employment in town and countryside outcomes from informal activities the macro economic importance of informal economies and researching methods are all investigated

Foreign Direct Investment in Central and Eastern Europe Svetla Trifonova Marinova, 2024-11-01 This title was first published in 2003 Covering a diverse range of countries such as Bulgaria the Czech Republic Hungary Poland Slovakia Slovenia and Russia as well as referring to the characteristics of the region as a whole this book examines the inflow and outflow of foreign direct investment from both home and host company and country perspectives By analyzing foreign direct investment in terms of process content and context the book provides a holist approach towards direct foreign investment in the transitional context of Central and Eastern Europe embracing both macro and micro economic perspectives of the process

Enhanced Transition Through Outward Internationalization Andreja Jaklic, Marjan Svetlicic, 2017-11-22 This title was first published in 2003 Among the major challenges transition economies are facing is how to cope with globalization Foreign direct investment FDI has proved the most dynamic defensive and offensive response as an integration and network tool yet outward FDI has so far been overlooked in research The vitality of outward FDI as an entry mode to the global economy is discussed in this authoritative volume from various angles beginning with the context of the development strategy and the transition process The experiences of the Slovene way of internationalization are compared with those of other transition economies Readers will learn about the size geographical distribution trends and sectoral allocation of such outward FDI OFDI as well as the major motives barriers and problems The book also responds to questions about the extent to which outward FDI is instrumental in development transition EU accession and competitiveness strengthening Based on extensive empirical research and focused case studies the volume provides valuable lessons for other EU candidate countries and transition economies while managerial experiences in entering Central and Eastern European markets offer universal internationalization lessons

Small Firms and Economic Development in Developed and Transition Economies David A. Kirby, Anna Watson, 2017-11-22 This title was first published in 2003 Since the late 1970s there has been considerable interest in the role of small firms in economic development in general and employment generation in particular

Throughout the developed world governments have introduced a range of measures to encourage small firm growth and development in an attempt to stimulate economic growth generate employment and foster innovation Though not all measures have been successful many policies have transferred to the transition economies of Central and Eastern Europe where since 1989 small firm growth and development has achieved considerable importance in economic restructuring Accordingly this volume presents the leading research on the role of small firms in economic development and employment generation in both transition and developed countries Setting itself in a wider theoretical context the book also considers the implications for both policy and theory and suggests directions for future research

Informal Economies and Social Transformation in Romania

Rainer Neef,2004 Informal economies growing throughout the 1990s make a central determinant of social transformation in Eastern Europe In this book the various patterns of informal economies and the causes of its growth in Romania are explored from quantitative and qualitative research the difficult social transformation informal consumption and labour of households their incomes developments and strategies the impact of informalisation in different branches related to the Romanian economy as a whole in the end comparisons with Eastern European countries are included and methodological procedure is explained

Facilitating Transition by Internationalization Matija Rojec,2019-10-28 FDI has proved to be the most dynamic defensive and offensive response to globalization This book provides an in depth evaluation of the rationale as well as theoretical and empirical explanations of the outward internationalization of firms from the Czech Republic Estonia Hungary Poland and Slovenia The authors present the first broader empirical evidence on transition economies OFDI and internationalization evaluate the role of transnational companies from transition economies and development implications of outward internationalization for home economies They put the experience of firms from transition economies into the framework of existing theories study to what extent are the experiences of Austria Portugal and Finland applicable to transition economies illustrate general macro economic trends of the international business practices of firms from transition economies by case studies examine the main determinants and barriers to the outward internationalization process offer a representative set of cases and best business government practices relevant for other transition economies identify specificity in internationalization by firms from transition economies due to transition processes and systemic background and apply network theory as a complementary explanation for such internationalization due to former historical ties and cultural vicinities A pioneering work on outward investment by transition economies this book is the first in the world to present a more systematic analysis of the internationalization of firms from transition economies based on results of the two ACE projects Outward internationalization facilitating transformation and EU Accession The case of Czech Republic Hungary and Slovenia and Networking Through OFDI including also Poland and Estonia

The Role of Informal Economies in the Post-Soviet World Colin C. Williams,John Round,Peter Rodgers,2013-06-19 Based on extensive ethnographic and quantitative research conducted in Ukraine and Russia between

2004 and 2012 this book's central argument is that for many people the informal economy such as cash in hand work subsistence production and the use of social networks is of great importance to everyday life. Formal work is both a facilitator of such processes and is often supported by them as people can only afford to undertake low paid formal work as a result of their informal incomes. By looking at the informal nature of formal work and practices informal practices gift giving volunteer work and the economies of the household the book is one of the first to give an overview of the nature of the informal economy in all spheres of everyday practice.

Institutional Change in Transition Economies Michael Cuddy, 2019-01-15 This title was first published in 2002. The importance of institutions for transition economies has so far been overlooked. Michael Cuddy and Ruvin Gekker bring together leading experts in the field to fill this crucial void in the literature. The contributors concentrate on an ongoing tension between informal constraints and mechanisms and the new formal rules and mechanisms that have gradually evolved through the transition period. Experiences are primarily drawn from Russia. The book consists of three parts: the first comprising an analysis, synthesis and generalizations of the institutional adaptations as a market economy slowly emerges from a fog of shifting rules and varying interpretations. This is followed by the study of business and taxation authorities' behavior as they try to minimize or maximize the taxation take. The volume also analyzes the challenges facing central and regional governments in delivering equitable levels of public services across regions of vastly different development levels while at the same time trying to stimulate regional economic growth.

The Economic History of Central, East and South-East Europe Matthias Morys, 2020-12-29 The collapse of communism in Central East and South East Europe (CESEE) led to great hopes for the region and for Europe. A quarter of a century on the picture is mixed. In many CESEE countries the transformation process is incomplete and the economic catch up has taken longer than anticipated. The current situation has highlighted the need for a better understanding of the long term political and economic implications of the Central East and South East European historical experience. This thematically organised text offers a clear and comprehensive guide to the economic history of CESEE from 1800 to the present day. Bringing together authors from both East and West the book also draws on the cutting edge research of a new generation of scholars from the CESEE region. Presenting a thoroughly modern overview of the history of the region the text will be invaluable to students of economic history and CESEE area studies.

Activity, Incomes and Social Welfare Manuela Sofia Stanculescu, 2017-10-24 This book describes and quantifies the major socioeconomic changes that have occurred in four new member states of the EU: Slovenia, Hungary, Romania and Bulgaria since the early 1990s. The period covered was a particularly turbulent one not only because of the transition process which was well underway but because of the stabilization packages and other economic, monetary and social policy measures which have had a strong impact at individual and household levels. While previous comparable studies have been carried out they cover the period only to the mid 1990s; thus this book contains unique and very valuable statistical and micro data. Within the broad framework of socioeconomic change a number of topics are explored in greater detail. These

include changes in activity occupational status and educational attainment household income sources and income inequality and risk of income poverty The analysis is based on household budget surveys and complemented with other statistical sources enabling a coherent analysis of the impact of large changes in social policy at household level The country chapters are all based on common methodological guidelines enabling comparisons to be drawn This will be an invaluable book for researchers in comparative social policy poverty and social stratification and economic sociology and for specialists on Central and Eastern Europe
