Opium and the Limits of Empire David Anthony Bello, 2020-03-17 The British opium trade along China's seacoast has come to symbolize China's century long descent into political and social chaos In the standard historical narrative opium is the primary medium through which China encountered the economic social and political institutions of the West Opium however was not a Sino British problem confined to southeastern China It was rather an empire wide crisis and its spread among an ethnically diverse populace created regionally and culturally distinct problems of control for the Qing state This book examines the crisis from the perspective of Qing prohibition efforts The author argues that opium prohibition and not the opium wars was genuinely imperial in scale and is hence much more representative of the actual drug problem faced by Qing administrators The study of prohibition also permits a more comprehensive and accurate observation of the economics and criminology of opium The Qing drug traffic involved the domestic production distribution and consumption of opium A balanced examination of the opium market and state anti drug policy in terms of prohibition reveals the importance of the empire's landlocked western frontier regions which were the domestic production centers in what has previously been considered an essentially coastal problem

Runaway Wives, Urban Crimes, and Survival Tactics in Wartime Beijing, 1937-1949 Ma Zhao, 2020-05-11 From 1937 to 1949 Beijing was in a state of crisis The combined forces of Japanese

occupation civil war runaway inflation and reformist campaigns and revolutionary efforts wreaked havoc on the city's economy upset the political order and threatened the social and moral fabric as well. Women especially lower class women living in Beijing's tenement neighborhoods were among those most affected by these upheavals. Delving into testimonies from criminal case files Zhao Ma explores intimate accounts of lower class women's struggles with poverty deprivation and marital strife. By uncovering the set of everyday tactics that women devised and utilized in their personal efforts to cope with predatory policies and crushing poverty this book reveals an urban underworld that was built on an informal economy and conducted primarily through neighborhood networks. Where necessary women relied on customary practices hierarchical patterns of household authority illegitimate relationships and criminal entrepreneurship to get by. Women's survival tactics embedded in and reproduced by their everyday experience opened possibilities for them to modify the male dominated city and more importantly allowed women to subtly deflect subvert and escape without leaving powerful forces such as the surveillance state reformist discourse and revolutionary politics during and beyond wartime Beijing.
