Social Postmodernism Beyond Identity Politics:

Social Postmodernism Linda Nicholson, Steven Seidman, 1995-09-14 Social Postmodernism defends a postmodern perspective anchored in the politics of the new social movements The volume preserves the focus on the politics of the body race gender and sexuality as elaborated in postmodern approaches But these essays push postmodern analysis in a particular direction toward a social postmodernism which integrates the micro social concerns of the new social movements with an institutional and cultural analysis in the service of a transformative political vision

Beyond Identity Politics Moya Lloyd, 2005-04-13 Recent debates in contemporary feminist theory have been dominated by the relation between identity and politics Beyond Identity Politics examines the implications of recent theorizing on difference identity and subjectivity for theories of patriarchy and feminist politics Organised around the three central themes of subjectivity power and politics this book focuses on a question which feminists struggled with and were divided by throughout the last decade that is how to theorize the relation between the subject and politics In this thoughtful engagement with these debates Moya Lloyd argues that the turn to the subject in process does not entail the demise of feminist politics as many feminists have argued She demonstrates how key ideas such as agency power and domination take on a new shape as a consequence of this radical rethinking of the subject politics relation and how the role of feminist political theory becomes centred upon critique A resource for feminist theorists women s and gender studies students as well as political and social theorists this is a carefully composed and wide ranging text which provides important insights into one of contemporary feminism s most central concerns

Deconstructing Psychotherapy Ian Parker, 1999-03-30 I enjoyed this book and think that it should find a grateful and attentive readership in the practical field as well as being a central text in academic settings It will also be well received by those like myself for whom the interest is more in deconstructing than psychotherapy Dialogues This book takes the discursive and postmodern turn in psychotherapy a significant step forward and will be of interest to all those working in mental health who are concerned with challenges to oppression and processes of emancipation It achieves this by reflecting on the role of psychotherapy in contemporary culture developing critiques of language in psychotherapy that unravel its claims to personal truth and the reworking of a place in the transformative therapeutic practice Deconstruction is brought to bear on the key conceptual and pragmatic issues that therapists and clinical psychologists face and the project of therapy is opened up to critical attention and reconstruction The book provides clear reviews of different viewpoints and will help readers to understand the complex terrain of debates

Gender Politics in the Asia-Pacific Region Brenda S. A. Yeoh, Peggy Teo, Shirlena Huang, 2005-08-18 Amidst the unevenness and unpredictability of change in the Asia Pacific region women s lives are being transformed This volume takes up the challenge of exploring the ways in which women are active players collaborators participants leaders and resisters in the politics of change in the region The editors focus attention on the politics of gender as a mobilizing centre for identities and the ways in which individualized identity politics may be linked to

larger collective emancipatory projects based on shared interests practical needs or common threats Collectively the chapters illustrate the complexity of women s strategies the diversity of sites for action and the flexibility of their alliances as they carve out niches for themselves in what are still largely patriarchal worlds This book will be of vital interest to scholars in a range of subjects including gender studies human geography women s studies Asian studies sociology and anthropology

Reader's Guide to Lesbian and Gay Studies Timothy Murphy, 2013-10-18 The Reader s Guide to Lesbian and Gay Studies surveys the field in some 470 entries on individuals Adrienne Rich arts and cultural studies Dance ethics religion and philosophical issues Monastic Traditions historical figures periods and ideas Germany between the World Wars language literature and communication British Drama law and politics Child Custody medicine and biological sciences Health and Illness and psychology social sciences and education Kinsey Report **Constructions of Disability** Claire

Tregaskis, 2004-07-31 This innovative book discusses the meaning of inclusion through the exploration of the interactions between disabled and non disabled people at a community leisure centre By exploring the nature of this interface an understanding of how people create potential for both disability and inclusion is revealed This book takes a very different approach to that of existing texts which have tended to concentrate mainly on disabled people s exclusion The advantage of this new approach is that it adds an extra dimension to our understanding of how discriminatory practice is variously perpetuated and challenged *Constructions of Disability* is valuable reading for all people who are working towards increased social inclusion for disabled people including theorists and students of disability studies and learning difficulty leisure management and disability service providers and their families Using a practical case study approach it explores the impact that social interaction between disabled and non disabled people can have increasing or decreasing disabled people s opportunities for inclusion Examples of both inclusive and discriminatory practice are described in detail and the positive and negative effects of these actions on the participants are demonstrated and discussed This insightful book offers a wide range of practical suggestions for the future development of more inclusive theory policy and practice The Meaning of Gay

Todd J. Ormsbee, 2012-07-10 Homosexual men in San Francisco had started the 1960s interacting mostly in private informal groups meeting in bars and house parties But by 1972 the city had a gay community and gay pride all celebrated with a parade Through numerous organizations and publications gay men created a counter publicity to fight against their domination and subordination and had begun to try to build a community that would foster deeper more meaningful relationships with each other The emergent counter publicity and community in turn created the social spaces necessary for gay men to create an expanding range of possible meanings for their gayness meanings that aligned more closely with their experiences and which better helped them meet their needs and desires The gayness they created could expand and contract depending on the needs and circumstances of the individual or group Rather than the typical story of the evolution from conservative to radical social movement *The Meaning of Gay* sees the development of gay politics as the shift from the need

to establish a public facing gayness in the early 1960s to the community building efforts that began in the mid 1960s through the efforts to create a gayness based in authenticity brotherhood and revolution in the early 1970s Each of these developments flowed from gay men s responses to the swiftly changing San Francisco and American environment The dramatic explosion of possibilities for gayness that emerged during the 1960s may serve as a touchstone for those concerned with the problems of gay male life in the twenty first century This book traces these developments as they was recorded in the gay periodicals of the era and analyzes them from the perspective of John Dewey s theory of mind desire public valuation and democratic community Direct Action in British Environmentalism Brian Doherty,Matthew Paterson,Benjamin Seel,2002-11 Direct Action in British Environmentalism is the fullest scholarly analysis available of this phenomenon It is essential reading for students of politics and environmental studies **Gender** J. Germon,2009-12-07 This book offers a rigorous analysis of the contemporary ideologies of gender and places the work of controversial sexologist John Money at the center of its analysis demonstrating the influence of his ideas of what it means to be a sexed subject **Beginning Postmodernism** Tim Woods,1999-08-20 Postmodernism has become the buzzword of contemporary society Yet it remains baffling in its variety of definitions contexts and associations Beginning Postmodernism aims to offer clear accessible and step by step introductions to postmodernism across a wide range of subjects It encourages readers to explore how the debates about postmodernism have emerged from basic philosophical and cultural ideas With its emphasis firmly on postmodernism in practice the book contains exercises and questions designed to help readers understand and reflect upon a variety of positions in the following areas of contemporary culture philosophy and cultural theory architecture and concepts of space visual art sculpture and the design arts popular culture and music film video and television culture and the social sciences
