Social Process In New Zealand Readings In Sociology:

Social process in New Zealand John Forster, 1971 *Sociologies of New Zealand* Charles Crothers, 2018-04-13 This book provides the first comprehensive analysis of the various sociologies of New Zealand from the late 19th century to the present day Opening with previously undocumented insights into the history of proto sociology in New Zealand the book then explores the parallel stories of the discipline both as a mainstream subject in Sociology departments and as a more diffuse sociology within other university units The rise and fall of departments specialties and research networks is plotted and the ways in which external and internal factors have shaped these is explained Different generations of sociologists including many immigrants are each shown to have left their unique mark on New Zealand sociology The author demonstrates that the rising interest in topics specific to New Zealand has been accompanied by increasing capacities to contribute to world sociology This book will have inter disciplinary appeal across the social sciences and provides a valuable study of the development of sociology in a semi peripheral country *Reinventing Capitalism in New Zealand* Chris Wilkes, 2019-05-02 In the nineteenth century Britain bestrode the world Its domination depended in part on it exporting its social and economic problems to the farthest reaches of the globe In Aotearoa New Zealand Britain s lite thought they had found a ready made country in which to re establish their way of life This invasion might ease their problems at home and extend their influence to the edge of the earth White settlers began to arrive in New Zealand in numbers during the 1840s and sought to reinvent capitalism in a new land This book traces the shape of this reinvention and the slow emergence of New Zealand s particular form of class structure The book will be of interest to anyone concerned with the history of capitalism and its colonial ambitions It sheds light on the enduring nature of inequality in New Zealand and where it might originate Students of political science sociology history and cultural studies will find its arguments of interest *Social Process and the City* Peter Williams, 2019-03-08 Contemporary urban studies engages a wide range of approaches in the analysis of the processes at work in urban areas These approaches derive from anthropology economics geography history politics and sociology as well as from the professional experience of town planning and architecture Social process and the city reflects this growing cross disciplinary engagement This shows the important problematic role which cities in particular and urban change in general have played in the growth of Australia The overriding concern of each essay in this collection is to develop an understanding of the ways urban areas function and an awareness of how differing interpretations of urban phenomena might be applied This attention to the nature of the forces at work and the processes these forces manifest themselves in is extended both empirically and conceptually This book was first published in 1983 **Changing Times** Jenny Carlyon, Diana Morrow, 2014-02-01 From the golden weather of postwar economic growth through the globalization economic challenges and protest of the 1960s and 1970s to the free market revolution and new immigrants of the 1980s and 1990s and beyond this account the most complete and comprehensive history of New Zealand since 1945 illustrates the chronological and social

history of the country with the engaging stories of real individuals and their experiences Leading historians Jennifer Carlyon and Diana Morrow discuss in great depth New Zealand's move toward nuclear free status its embrace of a small state free market ideology and the seeming rejection of its citizens of a society known for the worship of averages Stories of pirate radio in Auckland's Hauraki Gulf the first DC8 jets landing at Mangere airport feminists liberating pubs public protests over the closing of post offices and indigenous language nests vividly demonstrate how a postwar society famous around the world for its dull conformity became one of the most ethnically economically and socially diverse countries on earth *American Culture* Leonard Plotnicov, 2010-11-23 *American Culture* comprises fifteen essays looking at the familiar and the less familiar in American society urbanites in Pittsburgh and Indianapolis rural communities in the American West Hispanics in Wisconsin Samoans in California the Amish and the utopian religious communities of the Shakers and Oneida The essays address a wide range of topics and a spectrum of occupations miners whalers farmers factory workers physicians and nurses to consider such questions as why some religious sects remain distinctive separate and viable how groups use of such things as nicknames and family reunions to maintain ties within the community how immigrant communities organize to sustain traditional cultural activities **Gangs in the Global City** John Hagedorn, 2007 Understanding worldwide gangs through the lens of globalization *Education in a Small Democracy* Ian A. McLaren, 2018-05-08 Originally published in 1974 Here is a detailed discussion of educational change in New Zealand with implications which should provoke a fresh approach both to the educational tradition in Britain and to the problems of other educational systems which are subject to democratic control It is primarily concerned with developments in the quarter century between 1945 and 1970 With frequent reference to events preceding and following this period the author stresses throughout the professed educational ideal of all post war New Zealand governments to provide equality of opportunity in education He deals with principles of policy and administrative control including the universities and estimates the influence on official policy of interest groups inside and outside the educational system He examines social issues which include the extent to which governments have failed to promote equality of opportunity in the schooling of minority groups in the country and treats in an historical perspective the perennial vexed question of state aid to private schools The concluding chapters describe and analyse the characteristics difficulties and prospects of primary secondary and tertiary education Sadly Troubled History John C. Weaver, 2009-04-01 More people die by suicide each year than by homicide wars and terrorist attacks combined Witnesses and survivors are left perplexed and troubled Doctors clinical psychologists and social workers try to deal with it through their professional routines sociologists and psychiatrists attempt to provide theoretical explanations of it In a study of nearly 7000 suicides from 1900 to 1950 in New Zealand and Queensland Australia John Weaver documents the challenges that ordinary people experienced during turbulent times and using witnesses testimony death bed statements and suicide notes reconstructs individuals thoughts as they decide whether to endure their suffering Bridging social and medical history Weaver presents an

intellectual and political history of suicide studies a revealing construction and deconstruction of suicide rates a discussion of gender life stages and socio economic circumstances in relation to suicide patterns reflections on reasoning processes and intent and society s reactions to suicide including medical intervention A Sadly Troubled History marshals thousands of suicide inquests replete with observations on the anxieties of unemployment the heartbreak of romantic disappointment the pain of domestic turmoil and the torments of mental illness to demonstrate that history although like biochemistry sociology psychology and psychiatry reliant on remarkable yet imperfect information can contribute to a better understanding of the suicidal act and its motives **The Oxford History of New Zealand** William Hosking Oliver, Bridget R. Williams, 1981
