begin with discussions on early Schumpeter and a rhetorical analysis of the current academic literature on social entrepreneurship. They go on to present myriad contextual examples of how entrepreneurship can shape social change and indicate how this is initiated through various social settings, relationships, and communities. Through rich empirical work, this book explores the social of social entrepreneurship and in doing so shows us how entrepreneurship is at home where society is created. As such, it will prove a fascinating read for academics, researchers, and students with an interest in entrepreneurship, sociology, and economic sociology.
