Socialist History, 1993 **A Future of Capitalism: The Economic Vision of Robert Heilbroner** M. Carroll, 1998-01-12 This book provides an intellectual portrait of Robert Heilbroner It traces the development of his work and places it within the literature of economic thought The book finds that Heilbroner is a writer of political economy in the classical sense His work is more reminiscent of Smith or Marx than of contemporary economic theorists Heilbroner s economics is built on a solid foundation of social psychology evolutionary dynamics and human history This holistic approach affords Heilbroner a wide latitude to define the economic process and the discipline that studies it **All Future Plunges to the Past** José Vergara, 2021-10-15 All Future Plunges to the Past explores how Russian writers from the mid 1920s on have read and responded to Joyce s work Through contextually rich close readings Jos Vergara uncovers the many roles Joyce has occupied in Russia over the last century demonstrating how the writers Yury Olesha Vladimir Nabokov

Andrei Bitov Sasha Sokolov and Mikhail Shishkin draw from Joyce's texts particularly *Ulysses* and *Finnegans Wake* to address the volatile questions of lineages in their respective Soviet migr and post Soviet contexts Interviews with contemporary Russian writers critics and readers of Joyce extend the conversation to the present day showing how the debates regarding the Irish writer's place in the Russian pantheon are no less settled one hundred years after *Ulysses* The creative reworkings or translations of Joycean themes ideas characters plots and styles made by the five writers Vergara examines speak to shifting cultural norms understandings of intertextuality and the polarity between Russia and the West Vergara illuminates how Russian writers have used Joyce's ideas as a critical lens to shape prod and constantly redefine their own place in literary history All Future Plunges to the Past offers one overarching approach to the general narrative of Joyce's reception in Russian literature While each of the writers examined responded to Joyce in an individual manner the sum of their methods reveals common concerns This subject raises the issue of cultural values and more importantly how they changed throughout the twentieth century in the Soviet Union Russian emigration and the post Soviet Russian environment

The Chinese Dream and Law Shiping Hua, 2025-08-01 Analyzes the major laws promulgated during the Xi Jinping era against a background of the politics and ideology of the Xi regime in general The Chinese Dream and Law study situates the Chinese Dream in the modern utopianism discourse since the Late Qing following Kang Youwei and Mao Zedong As a tool to promote the Chinese Dream the legal reforms during the period depart from the thin constitutionalism of the first three decades of the post Mao era and resemble aspects of Legalism Although the current regime has made some progress in protecting people's socioeconomic rights through law it has retreated on upholding judicial independence to protect people's civil and political rights especially those vis vis the state The first three decades since post Mao reform are an aberration that deviates from the normal trajectory of modern Chinese political development The decade long efforts by the current regime have slowed the growing official corruption and have slightly narrowed the growing income gap although economic growth was cut in half The Chinese style of utopianism could mean a better place as in the country's ancient past It could also become a no place in the modern diverse world because this human hope that has a

Annual Meeting** Organization of American Historians. Meeting,2000 Failure of Vision Doug Greene,2022-05-27 Doug Greene takes an in depth and critical look at the life and ideas of Michael Harrington one of America s most important democratic socialists A Failure of Vision discusses one of the most important champions for democratic socialism in the United States Michael Harrington 1928 1989 is widely recognized for writing The Other America a seminal expose of poverty in the United States that inspired the War on Poverty He was also the founder of the Democratic Socialists of America DSA which is currently the largest socialist organization in the United States Michael Harrington hoped to transform democratic socialism from a marginal view into a major political force in the United States To accomplish this he advocated that socialists act as the left wing of the possible inside of the Democratic Party in order to transform it into one that truly represented the people In the end Realignment proved to be a dead end to advance socialist politics The questions proposed by Michael Harrington continue to be sharply debated by socialists With an engaging style and critical approach to Michael Harrington s shortcomings this book is essential reading to understand contemporary debates on the American left

The Ashgate Research Companion to Imperial Germany Matthew Jefferies,2016-03-03 Germany s imperial era 1871 1918 continues to attract both scholars and the general public alike The American historian Roger Chickering has referred to the historiography on the Kaiserreich as an extraordinary body of historical scholarship whose quality and diversity stands comparison with that of any other episode in European history This Companion is a significant addition to this body of scholarship with the emphasis very much on the present and future Questions of continuity remain a vital and necessary line of historical enquiry and while it may have been short lived the Kaiserreich remains central to modern German and European history The volume allows 25 experts from across the globe to write at length about the state of research in their own specialist fields offering original insights as well as historiographical reflections and rounded off with extensive suggestions for further reading The chapters are grouped into five thematic sections chosen to reflect the full range of research being undertaken on imperial German history today and together offer a comprehensive and authoritative reference resource Overall this collection will provide scholars and students with a lively take on this fascinating period of German history from the nation s unification in 1871 right up until the end of World War I
