Society Transformed Hungary In Timespace Perspective:

Hungary's Crisis of Democracy Peter Wilkin, 2016-08-26 This book examines the crisis of democracy that has arisen in Hungary since the election of the Fidesz government in 2010. After moving swiftly to transform the Hungarian constitution, Fidesz created a new political system which has led its critics to argue that the era of democracy in Hungary is over. US Senator John McCain has gone so far as to describe Hungary as an illiberal democracy on a path toward fascism. The author argues that Fidesz has sought to challenge the capitalist and democratic transformation that shaped Hungary for 20 years after the fall of communism by increasing the power of the state over crucial aspects of the economy, society and the political system. In so doing, Fidesz's actions resemble those undertaken by many authoritarian states that have emerged since the end of the Second World War, all aiming to build up a national capitalism and protect their economies whilst undertaking nation building. To make sense of this, the author draws upon two traditions of thought: world systems analysis, which situates Hungary in the context of its incorporation in the modern capitalist world system after the fall of communism and anarchist social thought, which provides a unique way of seeing the actions of states and political elites. In so doing, the book argues that the events unfolding in Hungary cannot be explained on the basis of Hungarian exceptionalism but must be situated in the broader political and economic context that has shaped the development of Hungary since 1990. The form of capitalism introduced in Hungary and across the region of East and Central Europe has systematically undermined the strong state and social security that had existed under communism, and when added to the failure of the left and liberals in the region, it has paved the way for far right and neo fascist political movements to emerge, claiming the mantle of defenders of society from the market. This represents a fundamental threat to the enlightenment traditions that have shaped dominant modern political ideologies and raises profound problems for both the EU and NATO.

Symbolic Traces of Communist Legacy in Post-Socialist Hungary Lisa Pope Fischer, 2016-09-12 In *Symbolic Traces of Communist Legacy in Post socialist Hungary*, Lisa Pope Fischer shows how personal practices symbolically refurbish elements from the Communist era to fit present day challenges. A generation who lived through the socialist period adapted to post socialist Hungary in a global context. Life histories weave together case studies of gift giving, procurement strategies, harvest ritual, healthcare and socialist kitsch to illustrate turns towards mysticism, neo traditionalism, nostalgia, nationalism and shifts in time place. People's unrequited past longing for future possibilities of a Western society facilitate desires for a lost way of life. Not only does this work gain understanding of an aging population's life experiences and the politics of everyday practices but also social change in a modern global world.

Understanding Post-Communist Transformation Richard Rose, 2009-01-21 The fall of the Berlin Wall launched the transformation of government, economy and society across half of Europe and the former Soviet Union. This text deals with the process of change in former Communist bloc countries, ten of which have become new European Union (EU) democracies while Russia and her neighbours remain burdened by their Soviet legacy. Drawing on more than a hundred

public opinion surveys from the New Europe Barometer the text compares how ordinary people have coped with the stresses and opportunities of transforming Communist societies into post Communist societies and the resulting differences between peoples in the new EU member states and Russia Subjects covered by Understanding Post Communist Transformation include Stresses and opportunities of economic transformation Social capital and the development of civil society Elections and the complexities of party politics The challenges for the EU of raising standards of democratic governance Differences between Russia s and the West s interpretation of political life Written by one of the world s most renowned authorities on this subject this text is ideal for courses on transition post communism democratization and Russian and Eastern European history and politics **The Sovietization of Rural Hungary, 1945-1980** József Ö. Kovács, Gergely Krisztián

Horváth, Gábor Csikós, 2023-06-05 In this book the experiential history of the Soviet style social transformation projects between 1945 and 1980 is discussed through the example of rural Hungary The book interprets state socialism as a modernization project Existing socialism was a form of dictatorship in which authorities sought to transform the mentalities of their subjects from the individual level to the global scale This project depended on socio economic homogenization one important method of asserting state power was the transformation of property rights land redistribution collectivization Communist modernization discriminated against the inhabitants of rural areas who were the primary victims of collectivization and the discriminatory effects of the rules implemented by policymakers The resulting radical changes in peasant lifestyles would become a source of social pathologies However not the authorities but contemporary scholars considered the social costs of these actions The book aims at Weberian disenchantment and contributes to the deconstruction of the common image of Hungarian socialism the happiest barrack The intended audience includes readers at the graduate level in the fields of history political science and anthropology general readers interested in the history of communism It is hoped that the research questions inspire new research for exploring convergent and divergent elements in social

transformation in former communist countries *Inventing the Needy* Lynne Haney, 2002-06-03 *Inventing the Needy* offers a powerful innovative analysis of welfare policies and practices in Hungary from 1948 to the last decade of the twentieth century Using a compelling mix of archival interview and ethnographic data Lynne Haney shows that three distinct welfare regimes succeeded one another during that period and that they were based on divergent conceptions of need The welfare society of 1948 1968 targeted social institutions the maternalist welfare state of 1968 1985 targeted social groups and the liberal welfare state of 1985 1996 targeted impoverished individuals Because they reflected contrasting conceptions of gender and of state recognized identities these three regimes resulted in dramatically different lived experiences of welfare Haney s approach bridges the gaps in scholarship that frequently separate past and present ideology and reality and state policies and local practices A wealth of case histories gleaned from the archives of welfare institutions brings to life the interactions between caseworkers and clients and the ways they changed over time In one of her most provocative findings

Haney argues that female clients ability to use the state to protect themselves in everyday life diminished over the fifty year period As the welfare system moved away from linking entitlement to clients social contributions and toward their material deprivation the welfare system and those associated with it became increasingly stigmatized and pathologized With its focus on shifting inventions of the needy this broad historical ethnography brings new insights to the study of welfare state theory and politics

Hungary since 1945 Árpád von Klimó,2017-12-14 Lying on the political fault line between East and West for the past seventy five years the significance of Hungary in geopolitical terms has far outweighed the modest size of its population This book charts the main events of these tumultuous decades including the 1956 Uprising the end of Hungarian communism entry into the European Union and the rise to power of Viktor Orb n and the national conservative ruling party Fidesz

Local Governance in Central and Eastern Europe T. Lankina,A. Hudalla,H. Wollmann,2008-01-23 This book examines local government performance in key areas of social services and economic promotion in eight towns in the Czech Republic Hungary Poland and Russia It dispels the myth that socio economic givens or inter governmental systems are key determinants of local development
