**Mystifying China's Southwest Ethnic Borderlands** Yuqing Yang, 2017-12-28 The Confucian notion of Harmony with difference he er bu tong has great political and cultural resonance in contemporary China which propagates the quest for a pluralist harmony between cultural and ethnic components of society In an attempt to examine a range of responses to this state envisioned ideal of accommodating ethnic differences this book analyzes the literary and cultural discourses that surround three minority regions in Southwest China Dali which was once the location of the ancient Nanzhao and Dali Kingdoms the homeland of the matrilineal Mosuo known as the Country of Women and the Tibetan areas associated with utopian Shangri La This book borrows Foucault s concept of heterotopia to address the contradictory and often simultaneously existing views of the minority region as rich treasure house of tradition and as intractable barrier to modern development which combine to give rise to productive tensions in

scholastic and artistic creations Through reconstituting and performing the myths and legends of or about minority culture the representations of the three places turn into heterotopias which are posed between the mythical and the real in different ways Functioning as a self reflective mirror they simultaneously offer images of the actual habitats of the ethnic other which have been subject to socialist projects of modernity and become a viable means by which to exert material effects on the real landscape Products of a fascination with alternative social spaces the three mystified lands all contain conceptualizations of harmony be it spiritual gender based or ecological that are conceivably absent in the imperfect actuality of the Chinese heartland In conclusion these aesthetically constructed spaces of the other negotiate and enrich the discourse of Harmony with difference reacting to ethnic politics in PRC history and creating an audience that grows attentive to the traditions of minorities

**Untrue** Wednesday Martin, 2018-09-18 From the 1 New York Times bestselling author of *Primates of Park Avenue* a bold timely reconsideration of female infidelity that will upend everything you thought you knew about women and sex What do straight married female revelers at an all women s sex club in LA have in common with nomadic pastoralists in Namibia who bear children by men not their husbands Like women worldwide they crave sexual variety novelty and excitement In ancient Greek tragedies Netflix series tabloids and pop songs we ve long portrayed such cheating women as dangerous and damaged We love to hate women who are untrue But who are they really And why in this age of female empowerment do we continue to judge them so harshly In *Untrue* feminist author and cultural critic Wednesday Martin takes us on a bold fascinating journey to reveal the unexpected evolutionary legacy and social realities that drive female faithlessness while laying bare our motivations to contain women who step out Blending accessible social science and interviews with sex researchers anthropologists and real women from all walks of life *Untrue* challenges our deepest assumptions about ourselves monogamy and the women we think we know From recent data suggesting women may struggle more than men with sexual exclusivity to the revolutionary idea that females of many species evolved to be promiscuous to Martin s trenchant assertion that female sexual autonomy is the ultimate metric of gender equality *Untrue* will change the way you think about women and sex forever

**Quest for Harmony** Chuan-kang Shih, 2009-12-07 In this long awaited ethnography Chuan kang Shih details the traditional social and cultural conditions of the Moso a matrilineal group living on the border of Yunnan and Sichuan Provinces in southwest China Among the Moso a majority of the adult population practice a visiting system called tise instead of marriage as the normal sexual and reproductive institution Until recently tise was noncontractual nonobligatory and nonexclusive Partners lived and worked in separate households The only prerequisite for a tise relationship was a mutual agreement between the man and the woman to allow sexual access to each other In a comprehensive account *Quest for Harmony* explores this unique practice specifically and offers thorough documentation fine grained analysis and an engaging discussion of the people history and structure of Moso society Drawing on the author s extensive fieldwork conducted from 1987 to 2006 this is the first ethnography of the Moso written in English

**Women**

**After All** Melvin Konner, 2015-03-02 A sparkling thought provoking account of sexual differences Whether you re a man or a woman you ll find his conclusions gripping Jared Diamond There is a human genetic fluke that is surprisingly common due to a change in a key pair of chromosomes In the normal condition the two look the same but in this disorder one is malformed and shrunken beyond recognition The result is a shortened life span higher mortality at all ages an inability to reproduce premature hair loss and brain defects variously resulting in attention deficit hyperactivity conduct disorder hypersexuality and an enormous excess of both outward and self directed aggression It is called maleness Melvin Konner traces the arc of evolution to explain the relationships between women and men With patience and wit he explores the knotty question of whether men are necessary in the biological destiny of the human race He draws on multiple colorful examples from the natural world such as the mating habits of the octopus black widow angler fish and jacana and argues that maleness in humans is hardly necessary to the survival of the species In characteristically humorous and engaging prose Konner sheds light on our biologically different identities while noting the poignant exceptions that challenge the male female divide We meet hunter gatherers such as those in Botswana whose culture gave women a prominent place invented the working mother and respected women s voices around the fire Recent human history has upset this balance as a dense world of war fostered extreme male dominance But our species has been recovering over the past two centuries and an unstoppable move toward equality is afoot It will not be the end of men but it will be the end of male supremacy and a better wiser world for women and men alike

**The Metamorphoses of Kinship** Maurice Godelier, 2012-03-03 With marriage in decline divorce on the rise the demise of the nuclear family and the increase in marriages and adoptions among same sex partners it is clear that the structures of kinship in the modern West are in a state of flux In *The Metamorphoses of Kinship* the world renowned anthropologist Maurice Godelier contextualizes these developments surveying the accumulated experience of humanity with regard to such phenomena as the organization of lines of descent sexuality and sexual prohibitions In parallel Godelier studies the evolution of Western conjugal and familial traditions from their roots in the nineteenth century to the present The conclusion he draws is that it is never the case that a man and a woman are sufficient on their own to raise a child and nowhere are relations of kinship or the family the keystone of society Godelier argues that the changes of the last thirty years do not herald the disappearance or death agony of kinship but rather its remarkable metamorphosis one that ironically is bringing us closer to the traditional societies studied by ethnologists

**Tone in Yongning Na** Alexis Michaud, 2025-05-20 Yongning Na also known as Mosuo is a Sino Tibetan language spoken in Southwest China This book provides a description and analysis of its tone system progressing from lexical tones towards morphotonology Tonal changes permeate numerous aspects of the morphosyntax of Yongning Na They are not the product of a small set of phonological rules but of a host of rules that are restricted to specific morphosyntactic contexts Rich morphotonological systems have been reported in this area of Sino Tibetan but book length descriptions remain few This study of an endangered language contributes to a better

understanding of the diversity of prosodic systems in East Asia The analysis is based on original fieldwork data made available online collected over the course of ten years commencing in 2006 This book is a new edition of <https://langsci.press.org/catalog/book/109>

On Our Minds Eric M. Gander, 2004-12-01 There is no question more fundamental to human existence than that posed by the nature versus nurture debate For much of the past century it was widely believed that there was no essential human nature and that people could be educated or socialized to thrive in almost any imaginable culture Today that orthodoxy is being directly and forcefully challenged by a new science of the mind evolutionary psychology Like the theory of evolution itself the implications of evolutionary psychology are provocative and unsettling Rather than viewing the human mind as a mysterious black box or a blank slate evolutionary psychologists see it as a physical organ that has evolved to process certain types of information in certain ways that enables us to thrive only in certain types of cultures In On Our Minds Eric M Gander examines all sides of the public debate between evolutionary psychologists and their critics Paying particularly close attention to the popular science writings of Steven Pinker Edward O Wilson Richard Dawkins and Stephen Jay Gould Gander traces the history of the controversy succinctly summarizes the claims and theories of the evolutionary psychologists dissects the various arguments deployed by each side and considers in detail the far reaching ramifications social cultural and political of this debate Gander's lucid and highly readable account concludes that evolutionary psychology now holds the potential to answer our oldest and most profound moral and philosophical questions fundamentally changing our self perception as a species
