Another Mother Cesare Casarino, Andrea Righi, 2018-12-18 A groundbreaking volume introduces the unique feminist thought of the longstanding Italian group known as Diotima Introducing Anglophone readers to a potent strain of Italian feminism known to French Spanish and German audiences but as yet unavailable in English Another Mother argues that the question of the mother is essential to comprehend the matrix of contemporary culture and society and to pursue feminist political projects Focusing on Diotima a community of women philosophers deeply involved in feminist politics since the 1960s this volume provides a multifaceted panorama of its engagement with currents of thought including structuralism psychoanalysis linguistics and Marxism Starting from the simple insight that the mother is the one who gives us both life and language these thinkers develop concepts of the mother and sexual difference in contemporary society that differ in crucial ways from both French and U S feminisms Arguing that Diotima anticipates many of the themes in contemporary philosophical discourses of biopolitics exemplified by thinkers such as Giorgio Agamben Antonio Negri and Roberto Esposito Another Mother opens an important space for reflections on the past history of feminism and on feminism's future Contributors Anne Emmanuelle Berger Paris 8 Vincennes Saint Denis Ida Dominijanni Luisa Muraro Diana Sartori U of Verona Chiara Zamboni U of Verona

Another Cosmopolitanism Seyla Benhabib, 2006-11-09 In these two important lectures distinguished political philosopher Seyla Benhabib argues that since the UN Declaration of Human Rights in 1948 we have entered a phase of global civil society which is governed by cosmopolitan norms of universal justice norms which are difficult for some to accept as legitimate since they are in conflict with democratic ideals In her first lecture Benhabib argues that this tension can never be fully resolved but it can be mitigated through the renegotiation of the dual commitments to human rights and sovereign self determination Her second lecture develops this idea in detail with special reference to recent developments in Europe for example the banning of Muslim head scarves in France The EU has seen the replacement of the traditional unitary model of citizenship with a new model that disaggregates the components of traditional citizenship making it possible to be a citizen of multiple entities at the same time The volume also contains a substantive introduction by Robert Post the volume editor and contributions by Bonnie Honig Northwestern University Will Kymlicka Queens University and Jeremy Waldron Columbia School of Law

Archetype Anthony Stevens, 2013-04-15 Commonly dismissed as mystical by scientists archetypes were described by Jung as biological entities which have evolved through natural selection and which if they exist at all must be amenable to empirical study Anthony Stevens has discovered the key to opening up this long ignored scientific approach to the archetype
