Work edited by Ian Shaw and Nick Gould provides a state of the art exposition and analysis of qualitative inquiry in relation to social work. The book has an unusual degree of coherence for one with several authors. The five chapters by the editors, parts one and three, do an exceptional job of providing the necessary background information and setting the context for the six application chapters and of highlighting and discussing the issues raised in those chapters. The editors are respected scholars well versed in the theory and practice of qualitative research. Similarly, the contributing authors represent both considerable experience in this field and a diversity of interests. This combination makes *Qualitative Research in Social Work* an excellent text for students, practitioners and researchers alike. It is a benchmark for social work progress in this area and points the way for the continued development of qualitative inquiry. Professor Stanley L Witkin, Department of Social Work, University of Vermont. There is a clear need for a book which treats qualitative research as a substantive theme within social work, setting epistemological and methodological issues in a context whereby the agenda is set by and is relevant to social work. *Qualitative Research in Social Work* is just such a book and will be immensely useful for students, practitioners and researchers interested in and undertaking social work research. In the introductory chapters, the co-authors set qualitative research within a context of social work developments and problems. The central section provides additional topicality and directness through specially commissioned chapters from leading figures in this field, each covering key qualitative methods and relating them to social work settings, and the final section, which reviews qualitative research in social work and aims to exemplify ways in which social work thought and practice can be advanced through research. **Cardiff Papers in**
