

What is Sociology?

❖ Sociology emerged in the early 19th century

- The term “sociology” was coined by Auguste Comte (1798-1857) in 1838.

Comte hoped to unify all the sciences under sociology. He believed that sociology had the potential to improve society and to direct human activity, including the other sciences.

- However, sociology did not replace the other sciences. Rather, it has developed a particular niche in the study of social life.
