The Politics Of My Heart:

The Politics of My Heart William Slaughter, 1996 Wu Ningkun notes that *The Politics Of My Heart* stands apart from all other China books that have mushroomed in the West before and after the Tiananmen tragedy Neither academic nor journalistic it is the pilgrim's progress of a poet scholar to the Gate of Heavenly Peace China has gotten under his skin and China hurts How can he not give voice to the lips that burn but do not speak *The Politics Of My Heart* will get under your skin too

The politics of feeling in Brexit Britain Jonathan Moss, Emily Robinson, Jake Watts, 2024-01-16 During Brexit political questions were continually framed in emotional terms The referendum was presented as a conflict between reason and resentment fear and hope heads and hearts The Leave vote was interpreted as the triumph of passion over rationality and its aftermath triggered concerns about the divisive impact of feelings on political culture This book examines how these stories about feelings shaped public experiences and determined political possibilities The politics of feeling uses first hand accounts to explore how ordinary people understand their own feelings about the referendum and how they reacted to the feelings of others It shows how they drew on public narratives while also rejecting and reworking them The authors highlight a dangerous contradiction whereby feelings were simultaneously understood as dangerous and illegitimate and as an authentic reflection of our inner selves This had its own political consequences

the search for understanding oneself answering the question Who am I by seeking to understand the currents that sweep down the generations eddy through one's own persona and continue on palpable but often unrecognised My father fought at the Battle of Hong Kong in December 1941 was taken prisoner by the Japanese and then escaped in February 1942 making his way across 1200 miles of inhospitable country to reach China's wartime capital at Chongqing Seventy years later I retraced his steps in an effort to understand a man who had died when I was 18 leaving a lot of unanswered questions behind My book is the quest that I undertook to explore my father's life in the context of the Pacific War and our relationship with China A picture of a man of the greatest generation slowly unfolds a leader a 20th Century Great but a distant father As I delve into his story and research the unfamiliar territory of China in the Second World War the mission to get to know the stranger I called Dad resolves into a mission to understand how my own character was formed As I travel across China the traits I received from my father gradually emerge from their camouflage The strands of the story are woven together in a flowing triple helix with biography travelogue and memoir punctuated with musings on context and meaning

Where My Heart Is Turning Ever Kathleen Diffley, 2020-11-15

During the Civil War and Reconstruction popular magazines throughout the country published hundreds of short narratives that confronted or evaded the meaning of the Union's crisis. In this first volume of a projected trilogy that seeks to recover the significance of this forgotten body of writing, Diffley examines the effort of popular writers and publications to contain the disruption caused by the war and its aftermath. Annotation copyright Book News Inc. Portland, Or. **The Political Works of Thomas Paine...** Thomas Paine, 1892 *The Political Thriller in Contemporary American Cinema* Krešimir Bobaš, 2025-06-30 *The Political Thriller in Contemporary American Cinema* examines how political thriller films deconstruct and reflect the sociopolitical realities of the second half of the twentieth century as well as the first two decades of the twenty-first century. The book highlights the convergence between the cinematic narrative, its underlying political discourse, and the audience's perception of it. Through a critical lens, it analyzes how contemporary films utilize characterization, narrative, and suspense to examine topics of governance, malfeasance, and power dynamics. By referring to films such as *The Manchurian Candidate*, *Zero Dark Thirty*, and *Snowden*, this book traces the evolution of the political thriller, questioning how its narratives mirror issues such as covert operations, the erosion of democracy, and governmental surveillance. In turn, the conspiratorial and underlying paranoid nature of these films serves as a reflection of societal anxieties and a metaphorization of the levers of power in America's modern-day democracy. Consequently, this book serves as a contribution to the growing body of research on political cinema and the way it simultaneously reflects and shapes political life through its role as a sociocultural phenomenon. In doing so, it invites readers to further delve into the exploration of these films, which represent complex commentaries on the structures of corporations, media, and the military that are predominant in contemporary American society and cinema. *The Story of My Heart* Philip Cone Fletcher, 1929 **The Politics of Truth and Reconciliation in South Africa** Richard Wilson, 2001-05-02 The South African Truth and Reconciliation Commission (TRC) was set up to deal with the human rights violations of apartheid during the years 1960-1994. However, as Wilson shows, the TRC's restorative justice approach to healing the nation did not always serve the needs of communities at a local level. Based on extended anthropological fieldwork, this book illustrates the impact of the TRC in urban African communities in Johannesburg. While a religious constituency largely embraced the commission's religious redemptive language of reconciliation, Wilson argues that the TRC had little effect on popular ideas of justice as retribution. This provocative study deepens our understanding of post-apartheid South Africa and the use of human rights discourse. It ends on a call for more cautious and realistic expectations about what human rights institutions can achieve in democratizing countries. Gender and Politics in the Age of Letter-Writing, 1750-2000 Máire Cross, 2017-05-15 Letters have long been an outlet for political expression, whether they articulate the personal politics of the daily routine or the political views of individuals who witness or participate in dramatic events. In addition, letters can be unusually revealing records of the relations between men and women. Though letters have frequently been studied as a privileged space for literary, social, and cultural expression, the three-dimensional relationship of

politics gender and letters has not been the focus of an entire volume The nineteen essays in this collection examine how the gendered nature of political literacy is revealed over a 250 year period through letter writing whether the writer is famous or unknown the wife of a prominent politician or activist a political prisoner or political militant Ranging wide in terms of subject matter and geography the contributors examine correspondence that ponders familial concerns as well as letters providing political commentary on the effects of war or revolution on everyday life Among the impressive group of international scholars are Jim Allen Clare Brant Edith Gelles Jane Rendall and Si n Reynolds

The Political Economy of Global Warming Del Weston, 2014-04-11 Humanity is facing an unprecedented global catastrophe as a result of global warming This book examines the reasons why international agencies together with national governments are seemingly unable to provide real and binding solutions to the problems The reasons presented relate to the existing dominant global economic structure of capitalism as well as the fact that global warming is too often seen as an isolated problem rather than one of a suite of exceptional converging and accelerating crises arising from the global capitalist political economy This book adopts a political economy framework to address these issues It accepts the science of global warming but challenges the predominant politics and economics of global warming To illustrate the key issues involved the book draws on South Africa building on Samir Amin s thesis that the country represents a microcosm of the global political economy By taking a political economy approach the book provides a clear explanation of the deep and pervasive problem of the denial which fails to acknowledge global warming as a systemic rather than a market problem The book should be of interest to students and scholars researching climate change environmental politics environmental and ecological economics development studies and political economics

Science, Politics, and Friendship in the Works of Thomas Lovell Beddoes Ute Berns, 2012 This study reevaluates the work of the scientist and radical poet and dramatist and English exile in Germany Thomas Lovell Beddoes 1803 1849 While his writing has elicited high praise from poets ranging from Robert Browning through Ezra Pound to John Ashbery scholars have frequently neglected it on grounds of its purportedly morbid and opaque eccentricity Countering this scholarly perception this book deftly relocates Beddoes s poetry drama and prose at the centre of Anglo German debates on aesthetics and life science politics and theatre in an early nineteenth century European context Aided by his letters from Germany the book re creates the intercultural discursive universe in which Beddoes easily moves from Shakespeare s plays or the aesthetic experiments of Shelley and his circle to Goethe and to topics debated among Heinrich Heine and the Jungdeutschen from the most advanced contemporary scientific research to the post Napoleonic politics of the German radical students organisations and from Byron Baillie and London s illegitimate theatre to Schiller s and Tieck s highly charged reflections on male male friendship The study combines historicist strategies with theories of performance performativity and visuality as it focuses in particular on Beddoes s major and defining work *Death s Jest* Book first completed in 1829 and published posthumously after much revision in 1850 This study shows how *Death s Jest* Book as both

drama and poetry devises complex perspectives on scientifically inspired notions of life and history how it forges a radical vision for post Napoleonic Europe and how it links this vision to a daring conception of desiring gendered selves The book pays close attention to the dialogue Beddoes s writing maintains with Early Modern literature and it highlights the proto modernist features that link his work to that of B chner Grabbe and a European theatre avant garde This innovative study of Beddoes s work cutting across current investigations into politics gender and science in intercultural Romantic Studies should be of interest to scholars and students of British Romantic and Victorian studies as well as of German Vorm rz studies and to students and scholars of drama and theatre as well as Queer studies
