The Politics Of Truth From Marx To Foucault:

The Politics of Truth Michèle Barrett, 1991 This book is about the dramatic eclipse of one of Marxism's major theoretical and political weapons the theory of ideology The fortunes of this concept recently subjected to a barrage of criticism but particularly from post structuralists are seen as symptomatic of the difficulties now besetting the Marxist tradition *The Politics of Truth* (Pp. 51-80) (reprint) Michèle Barrett, 1991 *Resistance and the Politics of Truth* Iain MacKenzie, 2018-03-15 The truth will set you free is a maxim central to both theories and practices of resistance Nonetheless it is a claim that has come under fire from an array of critical perspectives in the second half of the 20th century Iain MacKenzie analyses two of the most compelling of these perspectives the poststructuralist politics of truth formulated by Michel Foucault and Gilles Deleuze and the alternative post foundational account of truth and militancy developed by Alain Badiou He argues that a critically oriented version of poststructuralism provides both an understanding of the deeply entwined nature of truth and power and a compelling account of the creative practices that may sustain resistance Truth and the Ethics of Criticism Christopher Norris, 1994 This text is a reply to some of the more doctrinaire beliefs that pass for radical thinking For the most part Norris argues these ideas are based on a false understanding of crucial episodes in their own pre history Gramsci's Politics of Language Peter Ives, 2004-01-01 Antonio Gramsci and his concept of hegemony have permeated social and political theory cultural studies education studies literary criticism international relations and post colonial theory The centrality of language and linguistics to Gramsci's thought however has been wholly neglected In Gramsci's Politics of Language Peter Ives argues that a university education in linguistics and a preoccupation with Italian language politics were integral to the theorist's thought Ives explores how the combination of Marxism and linguistics produced a unique and intellectually powerful approach to social and political analysis To explicate Gramsci's writings on language Ives compares them with other Marxist approaches to language including those of the Bakhtin Circle Walter Benjamin and the Frankfurt School including Jürgen Habermas From these comparisons Ives elucidates the implications of Gramsci's writings which he argues retained the explanatory power of the semiotic and dialogic insights of Bakhtin and the critical perspective of the Frankfurt School while at the same time foreshadowing the key problems with both approaches that post structuralist critiques would later reveal Gramsci's Politics of Language fills a crucial gap in scholarship linking Gramsci's writings to current debates in social theory and providing a framework for a thoroughly historical materialist approach to language *One Nation Under God?* Marjorie Garber, Rebecca Walkowitz, 2013-09-13 *One Nation Under God* is a remarkable consideration of how religion manifests itself in America today **Discourse, normative change and the quest for reconciliation in global politics** Judith Renner, 2018-02-28 This book offers a new and critical perspective on the global reconciliation technology by highlighting its contingent and highly political character as an authoritative practice of post conflict peacebuilding After retracing the emergence of the reconciliation discourse from South Africa to the global level

the book demonstrates how implementing reconciliation in post conflict societies is a highly political practice which entails potentially undesirable consequences for the post conflict societies to which it is deployed Specifically the book shows how the reconciliation discourse brings about the marginalisation and neutralisation of political claims and identities of local post conflict populations by producing these societies as being composed of the victims and perpetrators of past human rights violations which are first and foremost in need of reconciliation and healing This book will interest students and teachers of transitional justice and international relations Adorno, Heidegger, and the Politics of Truth Lambert

Zuidervaat,2024-02-01 An elusive and complex idea of truth lies at the center of Theodor Adorno s thought Yet he never spells out what it is Through close readings of Negative Dialectics Aesthetic Theory and related course lectures Lambert Zuidervaat reconstructs Adorno s conception of truth contrasts it with the conceptions of Martin Heidegger and Michel Foucault and explores its relevance for contemporary philosophy art and politics Adorno regards truth as a dynamic constellation in which various dialectical polarities intersect The most decisive polarity Zuidervaat argues occurs between society as it has developed and the historical possibility of a completely transformed world Critically reconstructed Adorno s conception of truth can help inspire hopeful critiques of an allegedly post truth society Politics and Truth Theresa Man Ling Lee,1997-01-01 Considers the contested concept of truth in contemporary politics in light of the postmodernist challenge to Enlightenment ideals and examines the treatment of truth in an unusual lineup of thinkers ranging from Plato and Hobbes to Weber Foucault and Arendt **Ideology, Legitimacy and the New State** Sinisa Malesevic,2013-01-11 A comparative analysis of the dominant ideologies and modes of legitimization in communist Yugoslavia and post Communist Serbia and Croatia The aim of the book is to identify and explain dominant normative and operative ideologies and principal modes of legitimization in these three case studies From Violence to Peace Alex Deagon,2017-08-24 This book contributes to the literature on jurisprudence and theology by arguing for the role of a theoretically robust Christian theology in a legal community dominated by secular and liberal ideology It is not a doctrinal or empirical analysis but a theoretical exposition of the way in which modern law has contingently drifted from its theological origins As a result the legal system and the ideal of individual and communal relationship it envisages is characterised by antagonism and alienation or more broadly violence The book contends that the way to restore a legal community of peace is to return to a Christian theology which is informed by Trinitarian thinking or the notion of unity in diversity and reunites faith with reason Returning reason to its ground in being allows peaceful persuasion by the revelation of God s perfect being through the Trinity and Incarnation which models and enables the peaceful coexistence of difference through self sacrificing love This in turn produces the law of love to love your neighbour as yourself Since love does no wrong to a neighbour a legal community operating by the law of love can fulfil the obligations of law by going beyond merely what is required by law and love individuals as part of a community **Deconstruction and the 'Unfinished Project of Modernity'** Christopher Norris,2020-11-25 Through a

close engagement with some key thinkers Norris argues that deconstruction is part of the unfinished project of modernity a project whose interest and values it upholds by continuing to question them in a spirit of enlightened self critical inquiry

Entertaining Race Michael Eric Dyson, 2021-11-02 From the New York Times bestselling author of *Tears We Cannot Stop* Entertaining Race is a splendid way to spend quality time reading one of the most remarkable thinkers in America today Speaker Nancy Pelosi To read Entertaining Race is to encounter the life long vocation of a teacher who preaches a preacher who teaches and an activist who cannot rest until all are set free Senator Reverend Raphael Warnock For more than thirty years Michael Eric Dyson has played a prominent role in the nation as a public intellectual university professor cultural critic social activist and ordained Baptist minister He has presented a rich and resourceful set of ideas about American history and culture Now for the first time he brings together the various components of his multihued identity and eclectic pursuits Entertaining Race is a testament to Dyson s consistent celebration of the outsized impact of African American culture and politics on this country Black people were forced to entertain white people in slavery have been forced to entertain the idea of race from the start and must find entertaining ways to make race an object of national conversation Dyson s career embodies these and other ways of performing Blackness and in these pages ranging from 1991 to the present he entertains race with his pen voice and body and occasionally alongside luminaries like Cornel West David Blight Ibram X Kendi Master P MC Lyte Ta Nehisi Coates Alicia Garza John McWhorter and Jordan Peterson Most of this work will be new to readers a fresh light for many of his long time fans and an inspiring introduction for newcomers Entertaining Race offers a compelling vision from the mind and heart of one of America s most important and enduring voices *The Politics of Memory* Ifi Amadiume, 2000-07 Binaifer Nowrojee and Regan Ralph **Foucault with Marx** Jacques Bidet, 2016-04-15 With this timely commitment Jacques Bidet unites the theories of arguably the world s two greatest emancipatory political thinkers In this far reaching and decisive text Bidet examines Marxian and Foucauldian criticisms of capitalist modernity For Marx the intersection between capital and the market is crucial while for Foucault the organizational aspects of capital are what really matter According to Marx the ruling class is identified with property with Foucault it is the managers who hold power and knowledge that rule Bidet identifies these two sides of capitalist modernity as market and organization showing that each leads to specific forms of social conflict against exploitation and austerity over wages and pensions on the one hand and against forms of medical and work based discipline control of bodies and prisons on the other Bidet s impetus and clarity however serve a greater purpose uniting two souls of critical social theory in order to overcome what has become an age long separation between the old left and the new social movements *The Politics of Popular Identity* Dennis Westlind, 1996 In this study the author aims to provide a critique of existing ideas about populism as well as develop an analytical view of populism which he then applies to two case studies *Foucault's Analysis of Modern Governmentality* Thomas Lemke, 2019-03-05 Tracking the development of Foucault s key concepts Lemke offers the most comprehensive and

systematic account of Michel Foucault's work on power and government from 1970 until his death in 1984. He convincingly argues using material that has only partly been translated into English that Foucault's concern with ethics and forms of subjectivation is always already integrated into his political concerns and his analytics of power. The book also shows how the concept of government was taken up in different lines of research in France before it gave rise to governmentality studies in the Anglophone world. Foucault's *Analysis of Modern Governmentality* provides a clear and well-structured exposition that is theoretically challenging but also accessible for a wider audience. Thus the book can be read both as an original examination of Foucault's concept of government and as a general introduction to his genealogy of power.

Concrete Utopianism

Gary Wilder, 2022-08-09 Finalist 2022 Big Other Book Award for Nonfiction. Never before has it been more important for Left thinking to champion expansive visions for societal transformation. Yet influential currents of critical theory have lost sight of this political imperative. Provincial notions of places, periods, and subjects obstruct our capacity to invent new alignments and envision a world we wish to see. Political imagination is misread as optimism. Utopianism is conflated with idealism. Revolutionary traditions of non-liberal universalism and non-bourgeois humanism are rendered illegible. Negative critique becomes an end in itself. Pessimism is mistaken for radicalism, and political fatalism risks winning the day. In this book, Gary Wilder insists that we place solidarity and temporality at the center of our political thinking. He develops a critique of Left realism, Left culturalism, and Left pessimism from the standpoint of heterodox Marxism and Black radicalism. These traditions offer precious resources to relate cultural singularity and translocal solidarity, political autonomy, and worldwide interdependence. They develop modes of immanent critique and forms of poetic knowledge to envision alternative futures that may already dwell within our world: traces of past ways of being, knowing, and relating that persist within an untimely present or charged residues of unrealized possibilities that were the focus of an earlier generation's dreams and struggles, or opportunities for dialectical reversals embedded in the contradictory tendencies of the given order. *Concrete Utopianism* makes a bold case for embracing what Wilder calls a politics of the possible/impossible. Attentive to the non-identical character of places, periods, and subjects, insisting that axes of political alignment and contestation are neither self-evident nor unchanging, reworking Lenin's call to transform the imperial war into a civil war, he invites Left thinkers to see beyond inherited distinctions between here and there, now and then, us and them. Guided by the spirit of Marx's call for revolutionaries to draw their poetry from a future they cannot fathom yet must nevertheless invent, he calls for practices of anticipation that envision and enact, call for and call forth seemingly impossible ways of being together. He elaborates a critical orientation that emphasizes the dialectical relations between aesthetics and politics, political imagination and transformative practice, concrete interventions and revolutionary restructuring. Past dreams and possible worlds, means of struggle and its ultimate aims: This orientation requires non-realist epistemologies that do not mistake immediate appearances with the really real. Such epistemologies would allow critics to recognize uncanny and untimely aspects of social life, whether

oppressive or potentially emancipatory They may help actors to render the world subversively uncanny and untimely They may clear pathways for the kind of critical internationalism and concrete utopianism that Left politics cannot afford to ignore

Truth and Social Science Ross Abbinnett, 1998-01-29 This exciting and accessible guide to the discussions of truth in the social sciences can also be read as an account of the collapse of modernity and the rise of new forms of thought which treat difference and ambivalence as positive values Ross Abbinnett traces the debate on truth from the objectifying powers of Kant through more than 200 years of critique and reformulation to the unravelling of truth by Lyotard Foucault and Derrida

Rethinking the Politics of Education Nick Peim, 2022-05-10 Rethinking the Politics of Education provides an entirely original rethinking of the modern and contemporary mythology of education Problematizing the ideas concerning education as fulfilment and redemption the book critically reviews the association of education with projects of social justice democracy and improvement This book argues for a fundamental rethinking of what education is exploring how things stand with education and educational apparatuses in the contemporary world It examines relations between educational discourses and their implied ontological stances and offers new ways of thinking that draw on ontological positions from psychoanalytical philosophical and social discourses The book contends that education is an essential form of politics and must be understood through a careful examination of its history modes of operation and its basic structures rather than an idealized version of what it might be Presenting an original and alternative account of a theoretically informed political ontology of education the book will be of great interest to academics researchers and postgraduate students interested in the philosophy of education the politics of education educational theory and the sociology of education
