Existentialism is a preliminary intellectual history prioritising literature and contextualising Latin American philosophical contributions from the 1860s to the late 1930s decades that coincide with the canon's foundational years. This study takes a Pan American approach to move the critical focus away from the River Plate a region that has received some critical attention. In doing so it focuses on existentially neglected writers such as Brazil's Machado de Assis and Graciliano Ramos Jos Asunci n Silva from Colombia Cuba's Enrique Labrador Ruiz and the Chilean Mar a Luisa Bombal. Underappreciated Latin American philosophical voices and existentialism's canonical perspectives allow the author to discuss the many problems concerning the experiencing I of these authors and to consider such existential themes as ethical vacuity forlornness the crisis of insufficiency the conundrum of choice and the enigma of authentic being. The concentration on Latin America's existentially hued interest in the human condition is an invitation to the reader to reconsider the peripheral status in the existentialism canon.

From the Sacred to the Divine Anna-Teresa Tymieniecka, 2012-12-06 The contemporary revival of interest in the Sacred as a category of philosophico religious reflection here finds a radical reversal of the traditional direction taking the Sacred as the starting point of the itinerary toward the Divine. The wide variety of essays contained in this volume attempt to ground philosophy of the Sacred and the Divine in phenomenological evidence. Though employing different methodologies the contributors register by and large the contribution of A T Tymieniecka's phenomenology of life in providing a significant 20th century vision for the accomplishment of this task. Its pursuit finds here expression in philosophical historical literary and political explorations leading to construing phenomenology of the Sacred as a prerequisite to the investigation of the Divine.
