Language in Three Parts,... Robert Morrison,1815 **Watch Your Words** Gerald Garutti,2025-04-15 Never before has humanity done so much talking But is anyone listening For that matter are people ever speaking to each other We need to acknowledge that speech as we know it has never been so debased We live in a world full of empty degraded and potentially violent speech a daily reality that confronts us in the workplace in the media on the streets on the internet and in our political lives Verbal clashes are commonplace while proper dialogue is rare G rald Garutti pushes for a return to a more constructive and responsible form of speech He lays the groundwork for a humanistic approach one which contrary to the dominant culture of ignoring and humiliating others emphasizes listening to them and mastering speech as a way of connecting The arts of speech can contribute to the reconciliation of tensions in our society and to the realization of our full humanity Watch Your Words is a stunning manifesto for anyone interested in how we might better communicate with each other
