A Dutch Spy in China Ger Teitler,Kurt W. Radtke,2023-12-21 The Sino Japanese war is one of the most important links in the development of the modern Far East A Dutch Spy in China offers a selection from the reports written by a Dutch colonel at the request of the General Staff of the Royal Netherlands Indies Army After his retirement colonel De Fremery joined the group of Western

military specialists who were helping Chiang Kai Shek in his efforts to modernize the Nationalist Chinese armed forces. Having acted in an advisory capacity for several years, De Fremery resigned but continued to live in China. Mounting anxiety in the East Indies about Japan's military activity urged the authorities to collect as much information about the Japanese armed forces as possible. De Fremery's reports on the Sino-Japanese war were in this period a most welcome source of information. Contemporary reports on this conflict by militarily qualified Western observers are very rare. Colonel De Fremery's account of the struggle forms an important contribution to our knowledge of its military aspects.

The Making of Modern Japan Marius B. Jansen, 2009-07-01. Magisterial in vision, sweeping in scope, this monumental work presents a seamless account of Japanese society during the modern era from 1600 to the present. A distillation of more than fifty years' engagement with Japan and its history, it is the crowning work of our leading interpreter of the modern Japanese experience. Since 1600 Japan has undergone three periods of wrenching social and institutional change: following the imposition of hegemonic order on feudal society by the Tokugawa shogun; the opening of Japan's ports by Commodore Perry and defeat in World War II. *The Making of Modern Japan* charts these changes, the social engineering begun with the founding of the shogunate in 1600, the emergence of village and castle towns with consumer populations, and the diffusion of samurai values in the culture. Marius Jansen covers the making of the modern state, the adaptation of Western models, growing international trade, the broadening opportunity in Japanese society with industrialization, and the postwar occupation reforms imposed by General MacArthur. Throughout the book gives voice to the individuals and views that have shaped the actions and beliefs of the Japanese, with writers, artists, and thinkers as well as political leaders given their due. The story this book tells, though marked by profound changes, is also one of remarkable consistency in which continuities outweigh upheavals in the development of society, and successive waves of outside influence have only served to strengthen a sense of what is unique and native to Japanese experience. *The Making of Modern Japan* takes us to the core of this experience as it illuminates one of the contemporary world's most compelling transformations.

Japanese Fiction of the Allied Occupation Sharalyn Orbaugh, 2007. The reconstruction of identity in post-World War II Japan after the trauma of war defeat and occupation forms the subject of this latest volume in Brill's monograph series *Japanese Studies Library*. Closely examining the role of fiction produced during the Allied Occupation, Sharalyn Orbaugh begins with an examination of the rhetoric of wartime propaganda and explores how elements of that rhetoric were redeployed postwar as authors produced fiction linked to the redefinition of what it means to be Japanese. Drawing on tools and methods from trauma studies, gender and race studies, and film and literary theory, the study traces important nodes in the construction and maintenance of discourses of identity through attention to writers' representations of the gaze, the body, language, and social performance. This book will be of interest to any student of the literary or cultural history of World War II and its aftermath. *Japanese Fiction of the Allied Occupation* was awarded Choice Outstanding Academic Title 2007.

The Authenticity of Sendai Kuji Hongi John Bentley,2006-07-01 This reexamination of Sendai kuji hongi Kujiki

convincingly leads the reader to new conclusions on its place within the history and historiography of early Japan While the Sendai kuji hongi is generally considered as simply derivative drawing on Kojiki Nihon shoki and Kogo sh i John Bentley s careful textual analysis demonstrates that the work has actually drawn from drafts of Kojiki and Nihon shoki but not Kogo sh i which has quoted from Kujiki Thus the work can not be seen as a product of the early Heian era but must date from the early Nara era It therewith offers a new look not only into Japanese early Japanese historiography but also provides a window to a variant view of the Japanese imperial lineage The first three chapters consist of an analysis of the text from a textual analytical and linguistic viewpoint Sections only found in Kujiki are then examined and analyzed With full translation of the ten books of Kujiki and amply annotated text

It is especially the samurai woman's perspective that makes Makuzu's treatise such a rich source of often implicit information on contemporary society. The biographical details of Makuzu's life and family are given social and historical context in terms of her self-conscious status as a samurai woman. Through close analysis of Makuzu's philosophical and autobiographical writings, Dr. Gramlich-Oka reveals Makuzu to have been a natural product of the variety of intellectual schools and circles of her time. In extending Makuzu's unique critique of the intellectual's lack of concern with women to contemporary intellectual history, the author carves a new path in incorporating gender into intellectual history and biography writing.
