The Postwar Years Studebaker:

World War II and the Postwar Years in America William H. Young, Nancy K. Young, 2010-09-17 More than 150 articles provide a revealing look at one of the most tempestuous decades in recent American history describing the everyday activities of Americans as they dealt first with war and then a difficult transition to peace and prosperity The two volume **World War II and the Postwar Years in America A Historical and Cultural Encyclopedia** contains over 175 articles describing everyday life on the American home front during World War II and the immediate postwar years Unlike publications about this period that focus mainly on the big picture of the war and subsequent economic conditions this encyclopedia drills down to the popular culture of the 1940s bringing the details of the lives of ordinary men women and children alive The work covers a broad range of everyday activities throughout the 1940s including movies radio programming music the birth of commercial television advertising art bestsellers and other equally intriguing topics The decade was divided almost evenly between war 1940 1945 and peace 1946 1950 and the articles point up the continuities and differences between these two periods Filled with evocative photographs this unique encyclopedia will serve as an excellent resource for those seeking an overview of life in the United States during a decade that helped shape the modern world **Studebaker** Richard M. Langworth, 1979 Life at Studebaker contained paradoxes and was rarely uninteresting Management made some impressive decisions but far too many bad ones Stylists made great advances in automotive design only to follow with periods of stagnation or regression The Studebaker story is sure to engross the reader in a fascinating facet of American automobile history Studebaker, 1946-1966 Richard M. Langworth, 1993 **Higher Education and the United States Office of Education (1867-1953)** Richard Wayne Lykes, 1975 **Paul G. Hoffman** Alan R. Raucher, 2021-10-21 Having gained fame and success in business Paul G Hoffman went on to become involved in a wide range of public concerns In this new and revealing biography Alan R Raucher provides the first assessment of Hoffman s entire career beginning with his rise to the presidency of Studebaker and his success in applying progressive management to lift it from bankruptcy to profitability A firm believer in the automobile Hoffman became known as a sales genius as a promoter of the new human relations approach to labor management and as the industry s apostle of automotive safety Raucher follows the movement of Hoffman s career into the broad public arena Having developed a reputation as a progressive industrial statesman Hoffman was a logical choice in 1948 to become the first administrator of the Marshall Plan a key position in which he used economic foreign aid primarily to rebuild Western Europe in order to contain the spread of Communism As the Cold War continued he came to regard economic foreign aid as a necessary sacrifice and dismissed all suggestions that the U S actually gave away billions of dollars in order to promote its own prosperity Hoffman became convinced that foreign aid could promote peace and prosperity especially through economic development in the poorer countries As the first president of the new Ford Foundation as a confidant of President Eisenhower and as a top official of the U N Secretariat from the late 1950s to the

early 1970s Hoffman continued to confront the problems of the emerging Third World in a career that sheds light on the rise of the powerful development establishment and on its attitudes and policies [TW Index Volumes 1 and 2 Combined](#) Jan Young,2011-10-27 TW Index is a complete and detailed index of everything that has appeared in the SDC Turning Wheels magazine since its inception in 1972 Of greatest importance are the advice items that are indexed by subject engines brakes steering etc model AND year including all individual letters that appear in the Co Operator column Historical items are also indexed by subject as well as by the vehicle model and year they relate to If you own for instance a 1959 Hawk TW Index will give you instant access to everything that has been published about your car and much more Each listing of course refers you to the specific issue of Turning Wheels and cites the page on which the item begins Rated excellent by Fred Fox and Bob Palma Volume 1 of Turning Wheels Index includes issues of Turning Wheels from 1972 through 1992 with 10 711 references on 159 pages Volume 2 includes 1993 through 2009 with 9 995 references on 158 pages **Forbes** ,1921 **LIFE** ,1947-08-04 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today s people and events They have free access to share print and post images for personal use **Nixon in New York** Victor Li,2018-04-02 Richard Nixon s loss in the 1962 gubernatorial election in California was more than just a simple electoral defeat His once promising political career was in ruins as he dropped his second high profile race in as many years Nixon himself rubbed salt in his own self inflicted wounds by delivering a growling bitter concession speech that made him seem like a sore loser In the months following his defeat and self immolation he left California to move to New York so that he could work for a prestigious Wall Street law firm His new career only seemed to confirm what everyone already knew Richard Nixon was finished as a politician Except he wasn t Nixon s political resurrection was virtually unprecedented in American history role and he had his law firm to thank for paving his way to the White House His role as public partner at Nixon Mudge Rose Guthrie Alexander was the ideal platform for him as he looked to reinvent himself after his back to back losses in 1960 and 1962 Nixon s firm gave him access to deep pocketed clients many of whom became donors when he decided to take the plunge in 1968 Furthermore working for so many international clients allowed him to travel the world and burnish his foreign policy credentials a vital quality that voters were looking for as the Cold War raged on and the Vietnam War showed no signs of slowing down Nixon s time at the firm also allowed him to build a formidable campaign staff consisting of top notch lawyers researchers and writers a staff that did just about everything for him when it came time to ramp up for the 1968 campaign **LIFE** ,1947-09-08 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today s people and events They have free access to share print and post images for personal use *Case Histories of Advertising when Oversold* ,1951 *The University of Notre Dame*

Thomas E. Blantz C.S.C.,2020-08-31 Thomas Blantz's monumental *The University of Notre Dame A History* tells the story of the renowned Catholic university's growth and development from a primitive grade school and high school founded in 1842 by the Congregation of Holy Cross in the wilds of northern Indiana to the acclaimed undergraduate and research institution it became by the early twenty-first century. Its growth was not always smooth, slowed at times by wars, financial challenges, fires, and illnesses. It is the story both of a successful institution and of the men and women who made it so. Father Edward Sorin, the twenty-eight-year-old French priest and visionary founder; Father William Corby, later two-term Notre Dame president who gave absolution to the soldiers of the Irish Brigade at the Battle of Gettysburg; the hundreds of Holy Cross brothers, sisters, and priests whose faithful service in classrooms, student residence halls, and across campus kept the university progressing through difficult years; a dedicated lay faculty teaching too many classes for too few dollars to assure the university would survive; Knute Rockne, a successful chemistry teacher but an even more successful football coach elevating Notre Dame to national athletic prominence; Father Theodore M. Hesburgh, president for thirty-five years, the 325 undergraduate young women who were the first to enroll at Notre Dame in 1872, and thousands of others. Blantz captures the strong connections that exist between Notre Dame's founding and early life and today's university. Alumni, faculty, students, friends of the university, and fans of the Fighting Irish will want to own this indispensable definitive history of one of America's leading universities. Simultaneously detailed and documented yet lively and interesting, *The University of Notre Dame A History* is the most complete and up-to-date history of the university available. **American Automobile Advertising,**

1930-1980 Heon Stevenson,2008-11-24 This book provides a comprehensive history of American print automobile advertising over a half-century span, beginning with the entrenchment of the Big Three automakers during the Depression and concluding with the fuel crises of the 1970s and early 1980s. Advances in general advertising layouts and graphics are discussed in Part One, together with the ways in which styling, mechanical improvements, and convenience features were highlighted. Part Two explores ads that were concerned less with the attributes of the cars themselves than with shaping the way consumers would perceive and identify with them. Part Three addresses ads oriented toward the practical aspects of automobile ownership, concluding with an account of how advertising responded to the advance of imported cars after World War II. Illustrations include more than 250 automobile advertisements, the majority of which have not been seen in print since their original publication. **American Cars, 1946-1959** J. "Kelly" Flory, Jr.,2008-11-24 From the resumption of automobile production at the close of World War II through the 1950s, the American auto industry would see the births and deaths of several manufacturers, great technological advances, and an era of dramatic styling as a prospering nation asserted its growing mobility. Cars of this period are among the most iconic vehicles ever built in the United States: the 1949 Ford, the remarkable Studebaker designs of 1950 and 1953, the 1955-1957 Chevrolets, the Forward Look Chrysler products, the ill-fated Edsel, and many others. This comprehensive reference book details every model from each of the major manufacturers.

including independents such as Kaiser Frazer and Crosley but excluding very low volume marques such as Tucker from model years 1946 through 1959 Year by year it provides an overview of the industry and market followed by an individual report on each company its main news for the year introductions or cancellations of models new engines and transmissions advertising themes sales trends etc its production figures and market status and its powertrain offerings paint colors and major options The company s models are then detailed individually with such information as body styles prices dimensions and weights standard equipment and production figures Nearly 1 000 photographs are included *Cars & Parts* ,1998

Davis,2010-01-04 Join author Michael W R Davis as he retraces the history of what went on behind the scenes of testing automotive tracks in Detroit Michigan The catastrophic failure of a new but unproven copper cooled Chevrolet in 1923 led the General Motors Corporation to buy back the 100 cars it had sold to the public and recall another 400 in company and dealer hands As a result in 1924 General Motors started building the industry s first scientific proving ground to test new vehicle designs before they were released for production and sale Before this all automakers tested new cars haphazardly on public roads and within limited engineering laboratories Better known by the public as test tracks the proving grounds became a source of curiosity for decades about the secrets they might hold Detroit Area Test Tracks goes behind the test track walls to show how the facilities evolved and what typically takes place inside
