The Power Of Suggestion Narra:

The Power of the Story Michael Hanne,1996 A spirited well researched volume T his highly readable study is an impressive work of contemporary criticism richly deserving its intended general and academic audiences Choice

Language as Symbolic Power Claire Kramsch,2020-10-29 Language is not simply a tool for communication symbolic power struggles underlie any speech act discourse move or verbal interaction be it in face to face conversations online tweets or political debates This book provides a clear and accessible introduction to the topic of language and power from an applied linguistics perspective It is clearly split into three sections the power of symbolic representation the power of symbolic action and the power to create symbolic reality It draws upon a wide range of existing work by philosophers sociolinguists sociologists and applied linguists and includes current real world examples to provide a fresh insight into a topic that is of particular significance and interest in the current political climate and in our increasingly digital age The book shows the workings of language as symbolic power in educational social cultural and political settings and discusses ways to respond to and even resist symbolic violence

Speculative Philosophy Donald Phillip Verene,2009-04-16 In this original and illuminating work the reader is invited to approach philosophy as an activity that can instruct delight and move On this view philosophy can be seen as a key to human education a mastery of humane letters and a part of the repulic of the liberal arts Embracing this approach to philosophy Verene argues involves moving beyond modern philosophy s analytical encounter with experience one that emphasizes argument and criticism at the expense of the Socratic search for self knowledge Relying on insights from Vico and Hegel Verene introduces a new sense of reason one that sees the True as the whole and that connects reason to the ancient sense of speculation Reflection and criticism are given their due but the reorientation of philosophy toward the speculative grasp of the whole of things allows memory imagination and dialectical ingenuity to take on philosophical form In the end this work show how speculation symbolic form metaphor poetry and rhetoric are natural parts of philosophical thinking

L. Thomas,2012-06-01 Ignoring Poverty in the U S The Corporate Takeover of Public Education examines the divide between a commitment to public education and our cultural myths and more powerful commitment to consumerism and corporate America The book addresses poverty in the context of the following the historical and conflicting purposes in public education how schools became positivistic behavioral in our

quest to produce workers for industry the accountability era how A Nation at Risk through NCLB have served corporate interest in dismantling public education and dissolving teachers unions the media and misinformation about education charter schools as political corporate compromise masking poverty demonizing schools and scapegoating teachers from misusing the SAT to VAM evaluations of teachers rethinking the purpose of schools shifting from schools as social saviors to addressing poverty so that public education can fulfill its purpose of empowering everyone in a democracy and reframing how we view people living in poverty rejecting deficit views of people living in poverty and students struggling in school under the weight of lives in poverty This work is intended to confront the growing misinformation about the interplay among poverty public schools and what schools can accomplish while political and corporate leadership push agendas aimed at replacing public education with alternatives such as charter schools The audience for the publication includes educators educational reformers politicians and any member of the wider public interested in public education

Sex, Honor, and Power in the Deuteronomistic History Kenneth Stone, 1996-11-01 In this original work Stone studies the structure and social presuppositions of several narratives from the Deuteronomistic History in which sexual activity plays a significant role Both narratological and anthropological tools are utilized in the textual analysis Stone interestingly notes the link between sexual activity gender and prestige structures the emphasis on male contest and female chastity discussed by anthropologists of honour and shame and the role of the exchange of women in relations between men In each story sexual practice is primarily related to male struggles for honour and power

Michael Ondaatje: Haptic Aesthetics and Micropolitical Writing Milena Marinkova, 2011-07-14 This study of selected literary and cinematic works by Michael Ondaatje investigates the political potential of the Canadian authors aesthetics Contributing to current debates about affect and representation ideology critique and the artwork trauma and testimony this book uses the concept of the haptic to demonstrate how Ondaatjes multisensory fluid and historically inflected writing can forge an enabling relationship between audience author and text This is where Ondaatjes micropolitics often misconstrued as ideologically suspect aestheticism emerges a praxis that intimates how one can write and read politically with a difference

A Study of the Narrator in Nonnus of Panopolis' Dionysiaca Camille Geisz, 2017-09-18 This Study of the Narrator in Nonnus of Panopolis Dionysiaca by Camille Geisz investigates manifestations of the narratorial voice in Nonnus account of the life and deeds of

Dionysus 4th 5th century C E Through a variety of interventions in his own voice the narrator reveals much about his relationship to his predecessors his own conception of story telling and highlights his mindfulness of the presence of his narratee Narratorial devices in the Dionysiaca are opportunities for displays of ingeniousness discussions of sources and a reflection on the role of the poet They highlight the innovative style of Nonnus epic written as a compendium of influences genres and myths and encompassing the influence of a thousand years of Greek literature **Roman Literary Cultures**

Alison Keith,Jonathan Edmondson,2016-06-16 Drawing on the historicizing turn in Latin literary scholarship Roman Literary Cultures combines new critical methods with traditional analysis across four hundred years of Latin literature from mid republican Rome in the second century BC to the Second Sophistic in the second century AD The contributors explore Latin texts both famous and obscure from Roman drama and Menippean satire through Latin elegies epics and novels to letters issued by Roman emperors and compilations of laws Each of the essays in this volume combines close reading of Latin literary texts with historical and cultural contextualization making the collection an accessible and engaging combination of formalist criticism and historicist exegesis that attends to the many ways in which classical Latin literature participated in ancient Roman civic debates Prison Jacqueline Z. Wilson,2008 Prison Cultural Memory and Dark Tourism discusses decommissioned Australian prisons currently or potentially functioning as tourist attractions In particular it addresses a fundamental question Do the interpretations and presentations of the sites include and fairly represent the personal stories and experiences associated with those prisons The author argues that the conventional understanding of most of Australia s historical prisons fosters a radical othering of inmates and with it the exclusion distortion and historical neglect of their narratives This book examines avenues via which neglected narratives may be glimpsed or inferred presenting a number of examples This remedies the imbalance in some degree and tests such avenues potential as resources for inclusive interpretations by public historians and curators The book also focuses on the influence of celebrity prisoners whose links to the penal system are exploited as promotional features by the sites and in some cases by the individuals themselves Their narratives provide broad if unwitting support for the system and for the othering of the more general inmate population The ramifications of the above with regard to aspects of Australian identity mean that certain facets of the Australian character traditionally held to be emblematic are affected These effects have subtle but tangible consequences for modern Australians collective memory and deleterious consequences for current popular attitudes to penal practice **Work, Class, and Power in the Borderlands of the Early American Pacific** Evan Lampe,2013-12-12 This book traces the history of working people who helped established the foundation of the American empire in the Pacific from its origins after the American Revolution to its coming of age in the 1840s and 1850s Beginning with the expeditions of the Columbia and the Lady Washington Lampe argues that the early American Pacific can best be considered through the interaction of four major locations connected through the networks of trade the merchant ship the Northwest Coast Honolulu and Canton Guangzhou

In each of these locations the labors of a diverse population of working people was harnessed in the critical labors of empire building including the transportation of goods The central question that the consideration of working people in the Pacific economy during this period is Lampe argues the role of power applied on these laborers by an international capitalist class emerging alongside the Pacific commercial empires Lampe also finds that this power was not uncontested and emerged in response to the activities of labor Working people on the ship and in the port cities found ways to secure their piece of the profitable trade often through illicit means

J.M. Coetzee and the Ethics of Power Emanuela Tegla,2016-01-12 For I was not as I liked to believe the indulgent pleasure loving opposite of the cold rigid Colonel I was the lie that Empire tells itself when times are easy he the truth that Empire tells when harsh winds blow Thus the Magistrate confesses in Coetzee s 1980 novel *Waiting for the Barbarians* The present study looks closely into the unsettling effects Coetzee s novels have on the reader and explores the interconnectedness between stylistic choices and moral insights Its overall aim is to disclose the effectiveness of Coetzee s narrative strategies to prompt the reader to engage in self questioning and radical revisions of personal and social moral assumptions This is an original and ground breaking study of Coetzee s work Dr Tegla s insightful close readings highlight the ways in which Coetzee fictionalizes a variety of moral dilemmas In particular she shows how he turns narrative into an instrument for moral discernment Her narratological approach advances our understanding of his achievements and I can state without reservation that this book will be referred to as a landmark in Coetzee criticism

Richard Bradford Research Professor and Senior Distinguished Research Fellow University of Ulster **The Catechist's Manual, Or, Suggestions for Lecturing on St. Mark's Gospel** Samuel Hinds,1855 **The Expository Times** James Hastings,Ann Wilson Hastings,Edward Hastings,1905 Citizens, Cops, and Power Steve Herbert,2009-11-21 Politicians citizens and police agencies have long embraced community policing hoping to reduce crime and disorder by strengthening the ties between urban residents and the officers entrusted with their protection That strategy seems to make sense but in *Citizens Cops and Power* Steve Herbert reveals the reasons why it rarely if ever works Drawing on data he collected in diverse Seattle neighborhoods from interviews with residents observation of police officers and attendance at community police meetings Herbert identifies the many obstacles that make effective collaboration between city dwellers and the police so unlikely to succeed At the same time he shows that residents pragmatic ideas about the role of community differ dramatically from those held by social theorists Surprising and provocative *Citizens Cops and Power* provides a critical perspective not only on the future of community policing but on the nature of state society relations as well
