A Course of Instruction of Theory & Practice of Magic+ Magical Evocation + Magical Words Franz Bardon, 2021-01-19 This volume contains all three books of theoretical and practical use by Franz Bardon Franz Bardon needs no introduction in the field of Magic Evocation occultism practical use of the first three tarot cards use of magical words and letters A Course of Instruction of Theory Practice of Magic Magical Evocation Magical Words Anyone who should believe to find in this work nothing else but a collection of recipes with the aid of which he can easily and without any effort attain to honor and glory riches and power and aim at the annihilation of his enemies might be told from the very inception that he will put aside this book being very disappointed Numerous sects and religions do not understand the expression of magic otherwise than black art witchcraft or conspiracy with evil powers It is therefore not astonishing that many people are frightened by a certain horror whenever the word magic is pronounced Jugglers conjurers and charlatans have discredited this term and considering this circumstance there is no surprise that magic knowledge has always been looked upon with a slight disregard Even in the remotest times the MAGUS has been regarded as one of the highest adepts and it might be of interest to learn that as a matter of fact the word magic is derived from this word The so called sorcerers are by no means initiates but only imitators of the mysteries who counting partly on the ignorance and partly on the credulity of the individuality or a whole nation in order to reach their selfish aims by lies and fraud The true magician will always despise such practices In reality magic is a sacred science it is in the very true sense the sum of all knowledge because it teaches how to know and utilize the sovereign rules There is no difference between magic and mystic or any other conception of the name Wherever authentic initiation is at stake one has to proceed on the same basis according to the same rules irrespective of the name given by this or that creed Considering the universal polarity rules of good and evil active and passive light and shadow each science can serve good as well as bad purposes Let us take the example of a knife an object

that virtually ought to be used for cutting bread only which however can become a dangerous weapon in the hands of a murderer All depends on the character of the individual This principle goes just as well for all the spheres of the occult sciences In my book I have chosen the term of magician for all of my disciples it being a symbol of the deepest initiation and the highest wisdom Many of the readers will know of course that the word tarot does not mean a game of cards serving mantical purposes but a symbolic book of initiation which contains the greatest secrets in a symbolic form The first tablet of this book introduces the magician representing him as the master of the elements and offering the key to the first Arcanum the secret of the ineffable name of Tetragrammaton the quabbalistic Yod He Vau He Here we will therefore find the gate to the magician s initiation The reader will easily realize how significant and how manifold the application of this tablet is Not one of the books published up to date does describe the true sense of the first Tarot card so distinctly as I have done in my book It is let it be noted born from the own practice and destined for the practical use of a lot of other people and all my disciples have found it to be the best and most serviceable system Tetragrammaton literally means the four letter word It was a subterfuge to avoid the sin of uttering the sacred name YHVH Yahveh or Jehova as it later became when the vowels of another word were combined with the consonants of YHVH But I would never dare to say that my book describes or deals with all the magic or mystic problems If anyone should like to write all about this sublime wisdom he ought to fill folio volumes It can however be affirmed positively that this work is indeed the gate to the true initiation the first key to using the universal rules I am not going to deny the fact of fragments being able to be found in many an author s publications but not in a single book will the reader find so exact a description of the first Tarot card I have taken pains to be as plain as possible in the course of the lectures to make the sublime Truth accessible to everybody although it has been a hard task sometimes to find such simple words as are necessary for the understanding of all the readers I must leave it to the judgment of all of you whether or not my efforts have been successful At certain points I have been forced to repeat myself deliberately to emphasize some important sentences and to spare the reader any going back to a particular page There have been many complaints of people interested in the occult sciences that they had never got any chance at all to be initiated by a personal master or leader guru Therefore only people endowed with exceptional faculties a poor preferred minority seemed to be able to gain this sublime knowledge Thus a great many of serious seekers of the truth had to go through piles of books just to catch one pearl of it now and again The one however who is earnestly interested in his progress and does not pursue this sacred wisdom from sheer curiosity or else is yearning to satisfy his own lust will find the right leader to initiate him in this book No incarnate adept however high his rank may be can give the disciple more for his start than the present book does If both the honest trainee and the attentive reader will find in this book all they have been searching for in vain all the years then the book has fulfilled its purpose completely The Author The Practice of Magical Evocation Franz Franz Bardon,2015-06-15 Remembering his high task set to him by Divine Providence the author of Initiation into Hermetics here

The Covert Side of Initiation Virgil, For decades members of the esoteric community have considered anyone with magical skills and abilities to be a magician As a result there are few magical training systems designed to turn students into magicians and many magical training systems designed to turn students into people with magical skills and abilities The magical training system developed by the Czech adept Franz Bardon and contained in his three books Initiation into Hermetics The Practice of Magical Evocation and The Key to the True Quabbalah is designed to turn students into magicians Unfortunately many students of the system seek only to become people with magical skills and abilities rather than genuine magicians For this reason they often spend years stuck on the system s basic exercises In this book Virgil discusses some key components of magical training that are hinted at but not expounded upon in the text of Bardon s books Completion of these components is what distinguishes people who are magicians from people who merely possess magical skills and abilities In the process of discussing these components Virgil also elaborates on magical principles explained in his previous books offers helpful advice for common problems magicians will encounter during their training and elucidates one of the most

misunderstood exercises of Bardon s training system **The Magician's Workbook** Steve Savedow,1996-01-15 The go to beginner s guide to ritual magic and astral projection an efficient working manual that provides a complete program leading to self initiation In The Magician s Workbook Steve Savedow brings together the essential themes of classic occult literature to provide new students with step by step practical guidance for developing a magical life Savedow explains the principles of magic and covers important topics such as meditation astral projection Qabalah tarot words of power the assumption of God forms yoga and more Details are included for performing four banishing rituals four planetary invocations a daily Eucharist ritual and rituals for constructing and charging talismans Readers will be introduced to rituals composed by Aleister Crowley as well as new rituals created by the author The Magician s Workbook is a clear and comprehensive instruction manual that offers a complete program of study leading to self initiation Here is the essential workbook for beginners and a useful reference for advanced practitioners who are instructing others in the practice of ritual magic *Summoning Spirits*

Konstantinos,1995 Evocation of Spirits Donald Michael Kraig,1951-01-08 The Truth About Evocation of Spirits by Donald Michael Kraig reveals the real secrets of communicating with non physical entities You will find that many of the things you ve seen in novels or movies aren t needed no fancy apparatus no hypnotic trances With this small book evoking spirits becomes something you can do You ll discover what evocation really is You ll learn a bit about its history and why the ancient grimoires describing it are full of traps and things to waste your time Here you will learn step by step everything you need to contact spirits described in ancient texts such as The Lesser Key of Solomon the King First you ll need to prepare This simply

involves determining which spirit you wish to call making a copy of its sigil signature and also constructing a place for it to appear the Triangle of the Art Then gather some common items such as candles paper and pen and with the help of this book you can do this magick When you have everything you are ready to begin Start with a banishing Here you will find a complete version of the famous Lesser Banishing Ritual of the Pentagram Next the seer inhales incense This alters that person s consciousness so he or she is ready to see the entity Then call on the entity according to the instructions given here Then you ask for information which is in the nature of the spirit to give Or you can ask the entity you ve evoked to do something that it is capable of doing Of course it is only fair to give something to the creature in return That something is magical or spiritual energy This book explains how you can create that energy and send it to the entity Finally you ll learn how to release the spirit you have evoked back to its home Never before has so much information been packed into such a small space If you want to learn this ancient science get your copy today **Ceremonial Magic and Power of Evocation**
