Carozza, Clemens Sedmak, 2020-10-31 Although deeply contested in many ways the concept of human dignity has emerged as a key idea in fields such as bioethics and human rights It has been largely absent however from literature on development studies The essays contained in The Practice of Human Development and Dignity fill this gap by showing the implications of human dignity for international development theory policy and practice Pushing against ideas of development that privilege the efficiency of systems that accelerate economic growth at the expense of human persons and their agency the essays in this volume show how development work that lacks sensitivity to human dignity is blind Instead genuine development must advance human flourishing and not merely promote economic betterment At the same time the essays in this book also demonstrate that human dignity must be assessed in the context of real human experiences and practices This volume therefore considers the meaning of human dignity inductively

in light of development practice rather than simply providing a theory or philosophy of human dignity in the abstract It asks not only what is dignity but also how can dignity be done Through a unique multidisciplinary dialogue The Practice of Human Development and Dignity offers a dialectical and systematic examination of human dignity that moves beyond the current impasse in thinking about the theory and practice of human dignity It will appeal to scholars in the social sciences philosophy and legal and development theory and also to those who work in development around the globe Contributors Paolo G Carozza Clemens Sedmak S verine Deneulin Simona Beretta Dominic Burbidge Matt Bloom Deirdre Guthrie Robert A Dowd Bruce Wydick Travis J Lybbert Paul Perrin Martin Schlag Luigino Bruni Lorenza Violini Giada Ragone Steve Reifenberg Elizabeth Hlabse Catherine E Bolten Ilaria Schnyder von Wartensee Tania Groppi Maria Sophia Aguirre and Martha Cruz Zuniga
