*Poetry's Data* Meredith Martin, 2025-04-22 Why literary studies must confront digital mediation We live and research in a technologically mediated landscape in which old models of reading and researching methods that presume an autonomous single scholar gathering resources and making claims no longer hold Scholars have yet to theorize either the embeddedness of their sources inside multiple layers of mediation or their own place in an information ecosystem that demands our active participation In *Poetry's Data* Meredith Martin explores what current access to data might mean for mapping the discourse of poems Martin's account of her work learning about digital humanities so that she could build a database of historic prosodic materials becomes a through line in a narrative that chronicles how

literature has understood poetry's data its sounds from the sixteenth century to the present day Digital knowledge infrastructures have historical antecedents that scholars have been trained to theorize And yet as Martin points out we have not been trained to identify and navigate let alone critique the current landscape of knowledge production Through five chapters and five examples from the Princeton Prosody Archive Martin shows that the histories of mediation and format are essential to the teaching of poetry and poetic form     "So There It Is" Brigitte Wallinger-Schorn,2011 Preliminary Material Introduction Cultural Hybridity Linguistic Hybridity Narrative Hybridity Formal Hybridity Conclusion Works Cited Interviews Index     Learning the Secrets of English Verse David J. **Reading Orientalism** Daniel Martin Varisco,2017-04-11 The late Edward Said remains one of the most influential critics and public intellectuals of our time with lasting contributions to many disciplines Much of his reputation derives from the phenomenal multidisciplinary influence of his 1978 book *Orientalism* Said's seminal polemic analyzes novels travelogues and academic texts to argue that a dominant discourse of West over East has warped virtually all past European and American representation of the Near East But despite the book's wide acclaim no systematic critical survey of the rhetoric in Said's representation of Orientalism and the resulting impact on intellectual culture has appeared until today Drawing on the extensive discussion of Said's work in more than 600 bibliographic entries Daniel Martin Varisco has written an ambitious intellectual history of the debates that Said's work has sparked in several disciplines highlighting in particular its reception among Arab and European scholars While pointing out Said's tendency to essentialize and privilege certain texts at the expense of those that do not comfortably fit his theoretical framework Varisco analyzes the extensive commentary the book has engendered in Oriental studies literary and cultural studies feminist scholarship history political science and anthropology He employs critical satire to parody the exaggerated and pedantic aspects of post colonial discourse including Said's profound underappreciation of the role of irony and reform in many of the texts he cites The end result is a companion volume to *Orientalism* and the vast research it inspired Rather than contribute to dueling essentialisms Varisco provides a path to move beyond the binary of East versus West and the polemics of blame *Reading Orientalism* is the most comprehensive survey of Said's writing and thinking to date It will be of strong interest to scholars of Middle East studies anthropology history cultural studies post colonial studies and literary studies
