The Politics Of Experience And The Bird Of Paradise

Kingsley L. Dennis

The Politics Of Experience And The Bird Of Paradise:

The Politics of Experience Ronald David Laing, 1967 Laing's groundbreaking work posits a distinction between people as sources of action and people as the seat of experience arguing that society dehumanizes people by only recognizing the former and criticizing psychiatric institutions for failing to see that mental illness can partly be explained as a reaction to society's sickness

R.D. Laing and the Paths of Anti-Psychiatry Zbigniew Kotowicz, 2005-07-25 In the 1960s and 1970s the radical and visionary ideas of R D Laing revolutionized thinking about psychiatric practice and the meaning of madness His work from *The Divided Self* to *Knots* and his therapeutic community at Kingsley Hall made him a household name But after little more than a decade he faded from prominence as quickly as he had attained it R D Laing and the Paths of Anti Psychiatry re-examines Laing's work in the context of the anti psychiatry movement Concentrating on his most productive decade the author provides a reasoned critique of Laing's theoretical writings investigates the influences on his thinking such as phenomenology existentialism and American family interaction research and considers the experimental Kingsley Hall therapeutic community in comparison with anti psychiatry experiments in Germany and Italy The book provides a much needed reassessment and re-evaluation of Laing's work and its significance for psychotherapy and psychiatry today

Songs of Experience Martin

Jay, 2005-01-10 Few words in both everyday parlance and theoretical discourse have been as rhapsodically defended or as fervently resisted as experience Yet to date there have been no comprehensive studies of how the concept of experience has evolved over time and why so many thinkers in so many different traditions have been compelled to understand it Songs of Experience is a remarkable history of Western ideas about the nature of human experience written by one of our best known intellectual historians With its sweeping historical reach and lucid comparative analysis qualities that have made Martin Jay's previous books so distinctive and so successful Songs of Experience explores Western discourse from the sixteenth century to the present asking why the concept of experience has been such a magnet for controversy Resisting any single overarching narrative Jay discovers themes and patterns that transcend individuals and particular schools of thought and illuminate the entire spectrum of intellectual history As he explores the manifold contexts for understanding experience epistemological religious aesthetic political and historical Jay engages an exceptionally broad range of European and American traditions and thinkers from the American pragmatists and British Marxist humanists to the Frankfurt School and the French poststructuralists and he delves into the thought of individual philosophers as well including Montaigne Bacon Locke Hume and Kant Oakshott Collingwood and Ankersmit Provocative engaging erudite this key work will be an essential source for anyone who joins the ongoing debate about the material linguistic cultural and theoretical meaning of experience in modern cultures

Authority, Experience and the Life of Power Claire Blencowe, Julian Brigstocke, Leila Dawney, 2016-04-14

Taking up the challenge of understanding power in its complexity this volume returns to and revitalises the concept of authority It provides a powerful analysis of the ways that relationships of trust attachment governance and inequality become possible when subjectivities and bodies are invested in the life of power The collection offers a vibrant new analysis of the biopolitical arguing that experience of life has become equated with objectivity in contemporary culture and has thus become a primary basis of authority Biopolitical or experiential authority can be generated through reference to a variety of experiences performances or intensities of life including creativity radicalism risk taking experimentation inter relation suffering and proximity to death The authority producing capacities of community and aesthetics are key issues pointing to vexed relationships between politics and policing inventiveness and violence The contributors develop their theoretical analyses through discussion of a range of specific sites including mental health service user and survivor politics biological knowledge refugee activism stories of suffering urban art anarchism neo liberal community politics and marketization Authority Experience the Life of Power challenges thinking on what the political is and isn't pushing against the all too easy equivocation of revolutionary break and empowerment This book was published as a special issue of the Journal of Political Power

Cultures of Psychiatry and Mental Health Care in Postwar Britain and The Netherlands, 2020-06-15 Anti psychiatry is a movement more sloganized than analysed Until now it has been associated in the English speaking world primarily with R D Laing and a coterie of his associates and a radical critique not just of psychiatric hospitalization but of the

very premises of psychiatry itself and the basic institutions of society especially the family But are these notions accurate or rather distorted images created by Laing himself or by the media In this book which has emerged out of an Anglo Dutch conference held in June 1997 the realities of critical psychiatry are explored using comparisons and contrasts between the British and the Dutch experiences as a probe There were it turns out various distinct anti psychiatries indeed hardly anybody actually used that label about themselves and they played a role in the reform no less than the rejection of regular psychiatry

The Kingdom of God in Working Clothes R. Paul Stevens, 2022-08-05 Work occupies most of our waking time whether it is in a factory office school or at home But unfortunately most people of faith separate their working life from their worshipping life Dualism is a pernicious heresy that has infected believers worldwide namely that church work and missionary service are holy and our everyday work is secular In this timely volume Stevens explores the connection of the kingdom of God the master thought of Jesus with the marketplace Traditionally people have either related the kingdom of God God's new world coming either exclusively for the present or only for the distant future But it is both now and coming This gives meaning hope and endurance to our work in the world So daily labor in the marketplace gets reoriented through salty values and ingrained virtues We become double agent spies exploring the new world coming in everyday life We can also grapple helpfully with the resistance we face daily in the workplace There are many books on the kingdom of God and many on work Few have brought these two vital arenas of everyday service together It is indeed part of the good news *R.D. Laing and the Politics of Truth* Theodor Itten, Ron Roberts, 2025-05-29 This diverse collection of essays conversations reflections and reviews was first published in celebration of the 50th anniversary of R D Laing's masterpiece *The Divided Self* Under the umbrella of the *Politics of Truth* this new edition confirms Laing as an original practitioner in the healing arts and a succinct critical and theoretical voice whose relevance has not diminished In these pages are writings appraising Laing's life work brilliance and frailties as well as his wide and varied influences Contributions have come from colleagues friends and clients as well as people who never knew him personally yet deeply appreciate his work Each is different in tone and character Each captures something unique about Laing and his work R D Laing 1927 1989 was famous for his empathic perception sagacious intellect and wisdom of the heart as well as his rebelliousness and falling from grace In reading this book you may be challenged to rethink some of your assumptions We hope that you will find more than a little inspiration **The politics of experience**

Ronald David Laing, 1977 *The Politics of Storytelling* Michael Jackson, 2013-09-12 Hannah Arendt argued that the political is best understood as a power relation between private and public realms and that storytelling is a vital bridge between these realms a site where individualized passions and shared perspectives are contested and interwoven Jackson explores and expands Arendt's ideas through a cross cultural analysis of storytelling that includes Kuranko stories from Sierra Leone Aboriginal stories of the stolen generation stories recounted before the South African Truth and Reconciliation Commission and stories of refugees renegades and war veterans Focusing on the violent and volatile conditions under which stories are

and are not told and exploring the various ways in which narrative reworkings of reality enable people to symbolically alter subject object relations Jackson shows how storytelling may restore existential viability to the intersubjective fields of self and other self and state self and situation

Psychotherapy and Politics Nick Totton, 2000-03-23 This is one of the most comprehensive books that I have read that addresses the relationship between therapies the social and the political Comprehensive in the sense that it covers many areas in short but succinct chapters which focus on particular relationships in the field It is in some way a textbook rather than a monograph and I would imagine that students of the field would find it a useful source of reference that they would return to time and again Psychotherapy Politics SAGE s invariably stimulating book series Perspectives in Psychotherapy edited by Colin Feltham is certainly fortunate to be graced by the latest addition from Nick Totton who offers us a tour de force of the diverse and manifold ways in which therapy and politics interpenetrate and inform each other Richard House Self Society This is a truly outstanding book In a world riven with anger hatred fear and aggression it provides a window of rationality inspired by intelligence understanding and humanistic principles The Journal of Critical Psychology Counselling Psychotherapy This stimulating addition to SAGE s catalogues aims to give the practising counsellor therapist a multi dimensional overview of the various ways in which the political and psychotherapeutic worlds interface Association for University and College Counselling Newsletter This stimulating book explores the long standing relationship between psychotherapy and politics and argues that from the beginning psychotherapy has had a political face Documenting instances where ideas from psychotherapy have been incorporated into the political agenda the book demonstrates the practical value of psychotherapy as an instigator of social and political change Related to this attempts to understand and evaluate political life through the application of psychotherapeutic concepts are examined The author poses a number of key questions including What is human nature Are aggression and violence innate in us Is the therapeutic relationship inherently unequal And is the political an appropriate topic for therapy and counselling

The Crucible of Experience Daniel Burston, 2000-05-19 One of the great rebels of psychiatry R D Laing challenged prevailing models of madness and the nature and limits of psychiatric authority In this brief and lucid book Laing s widely praised biographer distills the essence of Laing s vision which was religious and philosophical as well as psychological The Crucible of Experience reveals Laing s philosophical debts to existentialism and phenomenology in his theories of madness and sanity family theory and family therapy Daniel Burston offers the first detailed account of Laing s practice as a therapist and of his relationships often contentious with his friends and sometime disciples Burston carefully differentiates between Laing and Laingians who were often clearer more confident and more simplistic than their teacher While he examines Laing s theories of madness Burston focuses most provocatively on Laing s views of sanity and normality and on his recognition toward the end of his life of the essential place of holiness in human experience In a powerful last chapter Burston shows that Laing foresaw the present commercialization of medicine and asked pointed questions about what the meaning of sanity and the

future of psychotherapy in such a world could be In this as in other matters Laing's questions of a generation ago remain questions for our time

Portrait of the Psychiatrist as a Young Man Allan Beveridge, 2011-08-25 RD Laing remains one of the most famous psychiatrists of the last 50 years In the 1960s he enjoyed enormous popularity and received much publicity for his controversial views challenging the psychiatric orthodoxy He championed the rights of the patient and challenged the often inhumane methods of treating the mentally ill Based on a wealth of previously unexamined archives relating to his private papers and clinical notes *Portrait of the Psychiatrist as a Young Man* sheds new light on RD Laing and in particular his early formative years a crucial but largely overlooked period in his life The first half of the book considers Laing's intellectual journey through the world of ideas and his development as a psychiatric theorist An analysis of his notebooks and personal library reveals Laing's engagement not only with psychiatric theory but also with a wide range of other disciplines such as philosophy literature and religion This part of the book considers how this shaped Laing's writing about madness and his evolution as a clinician The second half draws on a rich and completely unexplored collection of Laing's clinical notes which detail his encounters with patients in his early years as a psychiatrist firstly in the British Army subsequently in the psychiatric hospitals of Glasgow and finally in the Tavistock Clinic in London These notes reveal what Laing was actually doing in clinical practice and how theory interacted with therapy The majority of patients who were to appear in Laing's first two books *The Divided Self* and *The Self and Others* have been identified from these records and this volume provides a fascinating account of how the published case histories compare to the original notes There is a considerable mythology surrounding Laing partly created by himself and partly by subsequent commentators By a careful examination of primary sources Allan Beveridge both a psychiatrist and an historian examines the many mythological narratives about Laing and provide a critical but not unsympathetic account of this colourful and contradictory thinker who addressed questions about the nature of madness which are still being asked today This book will be of interest to mental health workers and social historians alike as well as anybody interested in the philosophy of psychiatry

R.D. Laing: His Work and its Relevance for Sociology (RLE Social Theory) Martin Howarth-Williams, 2014-08-07 This study by a sociologist provides the most rigorous and comprehensive review to appear so far of R D Laing's work and theoretical development Martin Howarth Williams considers that Laing's insights into such controversial issues as the divided self and the politics of the family are of an importance that transcends their basis in clinical psychiatry and that they have a special significance for sociology Using the Progressive Regressive Method of Jean Paul Sartre the author illuminates the internal coherence of Laing's aims through the various stages of his work and shows how his ideas are shaped by consistent philosophic presuppositions and influences underlying his work To give as complete an account as possible of Laing's interests and to relate them to the broad stream of his thought the author explores Laing's involvement in other non psychiatric realms especially politics religion and eastern mysticism Material has been secured from a wide variety of recent sources which

include interviews films TV appearances and the author's own personal recollections of informal talks given by Laing In the final section of the book Martin Howarth Williams isolates the concept of Intelligibility which he demonstrates to be the unifying theme central to Laing's theory and shows how this can be used as the basis for a critique of recent developments in sociological theory as well as a starting point towards a genuinely dialectical sociology
