### The Politics Of Local Justice:

The Politics of Local Justice James Richard Klonoski, Robert I. Mendelsohn, 1970 The Politics of Harmony Loyd E. Lee, 1980 The first modern history in English of a German state other than Prussia or Austria between the collapse of the Holy Roman Empire and the unsuccessful 1848 revolutions the Politics of Harmony also contributes to the discussion regarding the modernization of German society especially the social bases of liberalism and parliamentary government

**An Instrumentalist Theory of Political Legitimacy** Matthias Brinkmann, 2024-07-19 We are all subjected to the power of the state and other entities such as the EU But what justifies the far reaching power of these institutions Standard theories suggest that consent democracy or justification make exercising power legitimate This book however argues that these approaches do not survive philosophical scrutiny Instead it develops a radical theory of political legitimacy according to which power is justified because of the outcomes it brings about It does not primarily matter then how power is exercised instead we should focus on what it achieves This is the first book length treatment of instrumentalism It outlines the structure and core moral commitments of the theory and considers in detail how it is best formulated In particular the book sketches an abstract theory of justice and argues that our primary aim in distributing political power should be to promote justice Instrumentalism is also contrasted with the three leading theories of legitimacy based on consent democracy and public justification Not only are these competing theories unpersuasive but it is also shown that instrumentalism can replicate some of their appeal in its own way The book also untangles some conceptual confusions concerning political legitimacy One mainstream view is that legitimacy requires authority the ability to give binding commands to people This book argues against the necessity of authority and develops an authority less model of legitimacy defining legitimacy as the separate and distinctly moral problem of justifying political power This book will appeal to anyone interested in the moral foundations of justified political power and especially to researchers in philosophy political theory and law of Truth and Reconciliation in South Africa Richard Wilson, 2001-05-02 The South African Truth and Reconciliation Commission TRC was set up to deal with the human rights violations of apartheid during the years 1960 1994 However as Wilson shows the TRC s restorative justice approach to healing the nation did not always serve the needs of communities at a local level Based on extended anthropological fieldwork this book illustrates the impact of the TRC in urban African communities in Johannesburg While a religious constituency largely embraced the commission s religious redemptive language of reconciliation Wilson argues that the TRC had little effect on popular ideas of justice as retribution This provocative study deepens our understanding of post apartheid South Africa and the use of human rights discourse It ends on a call for more cautious and realistic expectations about what human rights institutions can achieve in democratizing countries **Decentering the Regime** Jeffrey W. Rubin, 1997 An ethnographic analysis of popular politics and the pursuit of democracy in Juchitan Mexico The Politics of Commonwealth Phil Withington, 2005-02-17 The Politics of

Commonwealth offers a major reinterpretation of urban political culture in England during the sixteenth and seventeenth centuries Examining what it meant to be a freeman and citizen in early modern England it also shows the increasingly pivotal place of cities and boroughs within the national polity It considers the practices that constituted urban citizenship as well as its impact on the economic patriarchal and religious life of towns and the larger commonwealth The author has recovered the language and concepts used at the time whether by eminent citizens like Andrew Marvell or more humble tradesmen and craftsmen Unprecedented in terms of the range of its sources and freshness of its approach the book reveals a dimension of early modern culture that has major implications for how we understand the English state economy and public sphere the political upheavals of the mid seventeenth century and popular political participation more generally Giving in the Viceroyalty of Rio de la Plata Viviana L. Grieco, 2014-04-15 This book examines an eighteenth century Spanish state finance based on voluntary donations rather than taxes The author analyzes the gifts donativos that residents of colonial Argentina gave to the Spanish Crown and the city council of Buenos Aires Research Handbook on the Politics of Human Rights Law Bård A. Andreassen, 2023-01-20 International human rights law is undoubtedly intertwined with politics and so this Research Handbook explores and provokes reflection on how politics impacts human rights legislation and conversely how human rights law shapes politics and the functioning of the state Bringing together leading international scholars in human rights law and politics the Research Handbook provides theoretical reflections and empirical analyses across the areas of governance and policies and examines the implementation mechanisms of human rights law in national The Politics of Rights and Southeast Asia Lynette J. Chua, 2022-07-07 In this Element I and international jurisdictions introduce the socio legal study of politics of rights as the theoretical framework to understand rights in the culturally and politically diverse region of Southeast Asia The politics of rights framework is empirically grounded and treats rights as social practices whereby rights meanings and implications emerge from being put into action or mobilised I elaborate on the concepts underlying politics of rights and develop an analysis of rights in Southeast Asia using this framework The analysis focusses on what are the structural conditions that influence the emergence of rights mobilisation How do people mobilise rights and what forms does rights mobilisation take What are the consequences of rights mobilisation and how do we assess them I hope that this view of politics of rights from a Global South region and from the ground can encourage more astute evaluations of the power of rights The Craft of Justice Roy B. Flemming, Peter F. Nardulli, James Eisenstein, 2016-11-11 No detailed description available for The Craft of Justice Political Governance in Post-Genocide Rwanda Filip Reyntjens, 2013-12-30 Filip Reyntjens s book analyzes political governance in post genocide Rwanda and focuses on the rise of the authoritarian Rwandan Patriotic Front RPF In the aftermath of the 1994 Rwandan genocide the RPF has employed various means rigged elections elimination of opposition parties and civil society legislation outlawing dissenting opinions and terrorism to consolidate power and perpetuate its position as the nation s ruling party Although many international

observers have hailed Rwanda as a success story for its technocratic governance societal reforms and economic development Reyntjens complicates this picture by casting light on the regime s human rights abuses social engineering projects information management schemes and retributive justice system The Politics and Law of Democratic Transition Sonia Zaman Khan, 2017-10-25 Peaceful legal and political changing of the guards is taken for granted in developed democracies but is not evident everywhere As a relatively new democracy marred by long periods of military rule Bangladesh has been encountering serious problems because of a prevailing culture of mistrust weak governance institutions constant election manipulation and a peculiar socio political history which between 1990 and 2011 led to a unique form of transitional remedy in the form of an unelected neutral caretaker covernment CTG during electoral transitions This book provides a contextual analysis of the CTG mechanism including its inception operation manipulation by the government of the day and abrupt demise It queries whether this constitutional provision even if presently abolished after overseeing four acceptable general elections actually remains a crucial tool to safeguard free and fair elections in Bangladesh Given the backdrop of the culture of mistrust the author examines whether holding national elections without a CTG or an umpire of some kind can settle the issue of credibility of a given government The book portrays that even the management of elections is a matter of applying pluralist approaches Considering the historical legacy and contemporary political trajectory of Bangladesh the cause of deep rooted mistrust is examined to better understand the rationale for the requirement emergence and workings of the CTG structure The book unveils that it is not only the lack of nation building measures and governments wish to remain in power at any cost which lay behind the problems that Bangladesh faces today Part of the problem is also the flawed logic of nation building on the foundation of Western democratic norms which may be unsuitable in a South Asian cultural environment Although democratic transitions on the crutch of the CTG have been useful in moments of crisis its abolition creates the need for a new or revised transitional modality perhaps akin to the CTG ethos to oversee electoral governance which will have to be renegotiated by the polity based on the people's will The book provides a valuable resource for researchers and academics working in the area of constitutional law democratic transition legal pluralism and election law Time, Memory, and the **Politics of Contingency** Smita A. Rahman, 2014-07-11 In recent years there has been an increased attention to temporality in political theory and such attention is sorely needed For too long political theory with the exception of occasional phenomenological forays has remained grounded in a particular experience of time as linear and sequential This book aims to unsettle the dominant framework by putting time itself and the experience of time in everyday life at the center of its critical analysis Smita Rahman focuses on the experience of time as one where past present and future intermingle with each other and refuse to adhere to a sequential structure Rather than trying to tame the flux of time this book places this out of joint experience of time at the center of its analysis of global politics Rahman takes the highly abstract concept of time and decenters it to speak to a wide range of political issues across disciplines She does so by exposing the cultural construction of

the foundational concept of time in political theory and attending closely to the challenges of cultural incommensurability that it encounters in a globalized world of difference Specifically the book looks at interrogation practices in Afghanistan the challenges of coping with the burdens of collective memory in Algeria South Africa and Rwanda the difficulty of uncritically applying such a framework to the Muslim world through the language of secularism and finally at the beginnings of democratic emergence in Bangladesh to explore a politics of contingency By focusing on issues of contemporary global politics through the lens of political theory this book draws on literature across disciplines and explores the complex image of time by engaging the work of thinkers for whom time and memory have emerged as a critical issue of analysis and unpacking the politics of contingency that emerge from such a reading The book s new insights on political temporality will interest scholars of contemporary political theory comparative political theory critical theory human rights conflict studies and religion and politics Law and the Politics of Reconciliation Scott Veitch, 2016-04-15 This collection of essays by an international group of authors explores the ways in which law and legal institutions are used in countries coming to terms with traumatic pasts and in some cases traumatic presents In putting to question what is often taken for granted in uncritical calls for reconciliation it critically analyses and frequently challenges the political and legal assumptions underlying discourses of reconciliation Drawing on a broad spectrum of disciplinary and interdisciplinary insights the authors examine how competing conceptions of law time and politics are deployed in social transformations and how pressing demands for reconstruction reconciliation and justice inform and respond to legal categories and their use of time The book is genuinely interdisciplinary drawing on work in politics philosophy theology sociology and law It will appeal to a wide audience of researchers and academics working in these areas Justice of the Peace ,1892 **Human Rights Education and the Politics of Knowledge** Joanne Coysh, 2017-02-24 Around the world there are a myriad of NGOs using human rights education HRE as a tool of community empowerment with the firm belief that it will help people improve their lives One way of understanding these processes is that they translate universal human rights speak using messages and symbols which make them relevant to people s daily lives and culturally resonant However an alternative more radical perspective is that these processes should engage individuals in modes of critical inquiry into the ways that that existing power structures maintain the status quo and control not only how we understand and speak about social inequality and injustice but also act on it This book is a critical inquiry into the production distribution and consumption of HRE and how the discourse is constructed historically socially and politically through global institutions and local NGO practice. The book begins with the premise that HRE is composed of theories of human rights and education both of which are complex and multifaceted However the book demonstrates how over time a dominant discourse of HRE constructed by the United Nations institutional framework has come to prominence and the ways it is reproduced and reinforced through the practice of intermediary NGOs engaged in HRE activities with community groups Drawing on socio legal scholarship it offers a new theoretical and political

framework for addressing how human rights pedagogy knowledge and power can be analysed between the global and local by connecting the critical but well trodden theories of human rights to insights on critical pedagogy It uses critical discourse analysis and ethnographic research to investigate the practice of NGOs engaged in HRE using contextual evidence and findings from fieldwork with NGOs and communities in Tanzania Journal of Legal Pluralism and Unofficial Law Melanie G. Wiber, Helene Maria Kyed, 2012-06-06 This special issue contains papers on international development interventions that offer support to justice and security reforms in so called fragile states Following an introduction by guest editor Helene Maria Kyed the book includes papers on justice and security architecture in Africa reconfiguring state and non state actors in the provision of safety in South Africa implications for bottom up policing arrangements and for donor funding the consequences of ideals oriented rule of law policy making in Liberia the politics of customary law ascertainment in South Sudan hybrid and everyday political ordering constructing and contesting legitimacy in Somaliland spinning a conflict management web in Vanuatu creating and strengthening links between state and non state legal institutions decentralized power and traditional authorities how power determines access to justice in Sierra Leone delivering justice the changing gendered dynamics of land tenure in Botswana Series The Journal of Legal Pluralism and Unofficial Law Vol 63 Politics of Love in Myanmar Lynette J. Chua, 2018-12-25 The Politics of Love in Myanmar offers an intimate ethnographic account of a group of LGBT activists before during and after Myanmar's post 2011 political transition Lynette J Chua explores how these activists devoted themselves to and fell in love with the practice of human rights and how they were able to empower queer Burmese to accept themselves gain social belonging and reform discriminatory legislation and law enforcement Informed by interviews with activists from all walks of life city dwellers villagers political dissidents children of military families wage laborers shopkeepers beauticians spirit mediums lawyers students Chua details the vivid particulars of the LGBT activist experience founding a movement first among exiles and migrants and then in Myanmar's cities towns and countryside A distinct political and emotional culture of activism took shape fusing shared emotions and cultural bearings with legal and political ideas about human rights For this network of activists human rights moved hearts and minds and crafted a transformative web of friendship fellowship and affection among queer Burmese Chua s investigation provides crucial insights into the intersection of emotions and interpersonal relationships with law rights and social movements

Religion and Conflict Resolution Megan Shore,2016-04-08 This book examines the ambiguous role that Christianity played in South Africa's Truth and Reconciliation Commission TRC It has two objectives to analyse the role Christianity played in the TRC and to highlight certain consequences that may be instructive to future international conflict resolution processes Religion and conflict resolution is an area of significant importance Ongoing conflicts involving Palestinians and Israelis Muslims and Hindus and even radical Islamic jihadists and Western countries have heightened the awareness of the potential power of religion to fuel conflict Yet these religious traditions also promote peace and respect for others as key

components in doing justice Examining the potential role religion can play in generating peace and justice specifically Christianity in South Africa's TRC is of utmost importance as religiously inspired violence continues to occur This book highlights the importance of accounting for religion in international conflict resolution 

The Politics of the Common Law Adam Gearey, Wayne Morrison, Robert Jago, 2013-05-02 The Politics of the Common Law offers a critical introduction to the legal system of England and Wales Unlike other conventional accounts this revised and updated second edition presents a coherent argument organised around the central claim that contemporary postcolonial common law must be understood as an articulation of human rights and open justice The book examines the impact of the European Convention and European Union law on the structures and ideologies of the common law and engages with the politics of the rule of law These themes are read into normative accounts of civil and criminal procedure that stress the importance of due process The final sections of the book address the reality of civil and criminal procedure in the light of recent civil unrest in the UK and the growing privatisation of public services The book questions whether it is possible to find a balance between the requirements of economics and the demands of justice
